NOW, THEREFORE BE IT RESOLVED that the Board makes the following findings:

The Board's Consideration of the Eligibility of the Abbott Application under the Right to Farm Act

1. There are credible exhibits to establish that the commercial farm is no less than five (5) acres.
2. The commercial farm produces agricultural / horticultural products worth at least \$2,500 per year.
3. The list of such products is listed in the application.
4. The farm is eligible for differential property taxation pursuant to the Farmland Assessment Act of 1964.
5. The farm is located in an area in which, as of December 31, 1997 or thereafter, agriculture has been a permitted use under the municipal zoning ordinance and is consistent with the municipal master plan and Pinelands Comprehensive Management Plan.
6. The AP (Agricultural Production) Zone in Southampton allows for agricultural as a permitted use.
7. The AP Zone in question was in place as of December 31, 1997 or thereafter.
8. A complete written application for recommending a Site-Specific Agricultural Management Practice was made to the Board.
9. With all of the criteria above having been satisfied, the Board finds that the Abbott Farm meets the eligibility criteria under the Right to Farm Act.

The Board's consideration of the exhibits and staff observations with respect to whether the existing use of the mobile home meets the criteria of a Site-Specific Agricultural Management Practice

10. The Board finds that based upon the letters from Susan Luchese, Dr. Michael Westendorf and Ray Samulis, the use of the mobile home for a portable poultry house is an acceptable agricultural management practice.
11. The Board duly considered the Objectors' position that it take into account the type of structure that is being used and recognize the structure as a mobile home, not an agricultural management practice.
12. The Board recognizes that it has no authority to supersede any federal or state regulations.
13. The Board finds that there is a legitimate agricultural reason for the local zoning regulations to be pre-empted.
14. The Board finds that the use is not a direct threat to public health and safety.

NOW, THEREFORE, BE IT FURTHER RESOLVED that, based on the aforesaid findings of fact, the Burlington County Agricultural Development Board finds that the operation of the property by Abbott, specifically the use of a mobile home as a portable poultry house, constitutes a generally accepted Agricultural Management Practice.

NOW, THEREFORE, BE IT FURTHER RESOLVED that, the Board finds it shall be the responsibility of Abbott to ensure compliance with all federal and state laws.
