TELEPHONE & INTERNET REGISTRATION

Registration into courses will be exclusively through the Web-based Course Registration Process. Phone registration will not be accepted. To register for courses using the Internet, go to the Fire Safety home page (www.state.nj.us/dca/dfs) and click away! Log-on instructions are in this brochure. For those of you who have previously created a DFS account, simply log-on and enter yourself into the courses!

REGISTRATION PERIODS

FIRST REGISTRATION - The first registration period begins **Tuesday, September 7, 2010**, and will continue up to the Open Registration begin date. The first registration period is open for all individuals regardless of their appointment status. Registration will be limited to two (2) courses.

OPEN REGISTRATION - The open registration period begins on **Monday, September 20, 2010**, and continues through the semester. You may register for additional courses at this time. During the Open Registration period, you may register into an additional four (4) courses, for a combined maximum total of six courses.

You may register for additional classes over the maximum limit; however, registration will be permitted for additional courses on a space-available basis. You must obtain Division's permission for entry into additional classes by contacting our office staff at (609) 777-1461. Credit will not be issued for repeated courses which have already been completed within your active certification cycle, with the exception of Code Update. The Division of Fire Safety reserves the right to limit the number of enrollments per person.

WITHDRAW FROM A COURSE - You must contact the Division by phone to Withdraw from a course. You cannot withdraw via the internet. Our office phone number is (609) 777-1461 between the hours of 9 a.m. and 3 p.m., Monday through Friday. Please provide the course name, date, location and your DFS six-digit Fire Service Identification Number (1xxxxx) when you call to withdraw from a course. A withdraw notice will be automatically mailed to you for your records.

COURSE CONFIRMATION NOTICE - IF YOU DO NOT RECEIVE A REMINDER WITHIN TWO DAYS OF THE COURSE DATE, PLEASE CALL THE DIVISION OF FIRE SAFETY TO VERIFY YOUR REGISTRATION AT (609) 777-1461. You may change and/or verify your address at any time on-line through your account personal information screen.

MULTIPLE DWELLING INSPECTOR INFORMATION - UCC Fire Inspectors/Officials who also hold a Multiple Dwelling Inspector license may use any ONE of the Code Enforcement courses per three year license cycle for renewal of a multiple dwelling license. Further information may be obtained by calling (609) 984-7834.

TELEPHONE & INTERNET REGISTRATION

WWW.STATE.NJ.US/DCA/DFS

REGISTRATION INSTRUCTIONS 2

WWW.STATE.NJ.US/DCA/DFS

WEB-BASED REGISTRATION - New features added to the Division of Fire Safety website give fire personnel more control over the process of registering for courses. You will be able to access and update your personal information, review and print your course enrollment list, review and print your completed course list, obtain a certificate of attendance for any course you have completed, review and print your current certification list, and review and print your courses completed for certification. You can register for courses and/or access your records any time – day or night – from anywhere in the world. Before you can start using the new system, you will need to establish your user ID and password. The following three-step procedure only needs to be performed once. For online technical support, please contact Kean University at 908-737-0230.

STEP 1: AUTHENTICATION CODE - At the Division of Fire Safety home page (<http://www.state.nj.us/dca/dfs>), scroll down the page to Web-based Course Registration and click the arrow button to select “Get Authentication Code.” Follow the instructions on your screen.

STEP 2: USER ID AND PASSWORD - At the Division of Fire Safety home page (<http://www.state.nj.us/dca/dfs>), scroll down the page to Web-based Course Registration and click the arrow button to select “Logon to Portal” Follow the instructions on your screen.

STEP 3: ENTER AUTHENTICATION CODE - At the Division of Fire Safety home page (<http://www.state.nj.us/dca/dfs>), scroll down the page to Web-based Course Registration and click the arrow button to select “Enter Authentication Code.” Follow the instructions on your screen.

FOR ALL STUDENTS - If you are unable to attend a course, please call 609-777-1461 to cancel as soon as possible so that someone else may use your space. Failure to cancel will be recorded and action may be taken. Do not call the academy where the course is being held to cancel. Credit will not be given for repeating a course within a three-year period. Although computer records are kept, you should keep a record of the courses you have completed. All courses begin promptly at 8:30 am and conclude at approximately 3:00 pm, unless otherwise indicated. In order to receive course credit, you must be present prior to the start of class and in the classroom for the entire course. Credit may not be granted if you arrive late, return late from lunch and breaks, leave early, or if you are not in the classroom while the course is in session.

CONFIRMATION OF ATTENDANCE - Students can receive same-day confirmation of attendance at a course. If you are interested in receiving verification on the day you attend a course, you must bring your **Confirmation Notice** with you to class. After the class has concluded, the facilitator will stamp this notice as proof that you attended the course.

DRESS CODE - The Division of Fire Safety has instituted a dress code for attendance at courses. Appropriate dress includes long pants, shirts with sleeves, and shoes. Facility representatives will enforce this dress code, and those who do not comply may be dismissed from the course and/or lose credit.

THE DIVISION OF FIRE SAFETY RESERVES THE RIGHT TO CANCEL A COURSE FOR ANY REASON RELATED TO PROGRAM DELIVERY. FOR EXAMPLE, A COURSE MAY BE CANCELED DUE TO LOW ENROLLMENT.

MORRIS COUNTY PUBLIC SAFETY TRAINING ACADEMY

MORRIS COUNTY PUBLIC SAFETY TRAINING ACADEMY **500 West Hanover Avenue, Parsippany, NJ 07950, 973-285-2979**

The Morris County Public Safety Training Academy began as the Morris County Fire School in 1950 by offering courses at various fire houses. In 1969, the Morris County Fire Fighters Training Academy was constructed at the present location with both fire and police classes starting in 1975.

The academy consisted of offices, classrooms, an all-purpose apparatus room, lecture hall and pistol range. The training grounds include a five-story training/burn tower, draft pond and a vehicle fire area. An addition in 1984 included the Emergency Management Center, Communications Center, more classrooms and a gym. Also constructed was a two-and-a-half-story cement block burn building with a basement used for Class A materials. Although the burn building was converted to propane, in early 2002 it was converted back to Class A materials.

A major expansion in the 1990's, added state-of-the-art classrooms, a firing range and an administrative area. The fire grounds were also updated to include a spill pad, car pad, and Life Safety Complex with six fireplaces. Most recently, the fire grounds have been updated with a six-bay Fire Training Center, which includes service rooms and a classroom.

The Academy is under the Director of the Public Safety Training Academy with a full-time Fire Training Coordinator and support staff for all operations. The Academy offers many courses that benefit the emergency services of Morris County including Firefighter 1 and 2, Junior Firefighter 1, Engine and Truck Company Operations, Fire Officer 1 and 2, Pump Operations, Foam operations, the NIMS courses, Rope 1 and 2, Vehicle Rescue 1 and 2, Fire Service Harness, and Rapid Intervention Crew / Safety and Survival Courses.

SEPTEMBER

**NEW JERSEY FIREMAN'S ASSOCIATION
PRE-CONVENTION SEMINARS
SEPTEMBER 16 & 17, WILDWOOD, NEW JERSEY
8 HOUR H.O.T. (HANDS ON TRAINING)
THURSDAY, SEPTEMBER 16**

Please visit the web site <http://www.cmcfirechiefs.com/> for registration information or contact us via e-mail at <mailto:Speigel@verizon.net> or hot@cmcfirechiefs.com (Deputy Chief Daniel Speigel, Wildwood FD – 609-846-2033)

The classes will be filled on a first come/first-served basis. You must select classes you would like to take in order of preference. Based on availability, you may not be placed in your primary request.

Please complete the registration/waiver form in its entirety. Also, please print your name legibly as this is how your name will appear on the certificate.

PAYMENT IN FULL (\$150 per person), the registration form, including the Waiver of Liability and signatures from your Fire Chief/Training Officer must be received no later than September 10, 2010.

All Participants must bring Full PPE:

NFPA compliant PPE including SCBA

Failure to bring full PPE will result in a forfeit of your seat and your payment will not be refunded.

Check in will be 7 a.m. at the Wildwood Fire Company, 111 East Pine Avenue, Wildwood, NJ. There is limited parking so please try carpooling. Lunch will be provided.

Classes being offered are a joint effort between: Cape May County Fire Chief's Association
New Jersey Division of Fire Safety
Everyone Goes Home Life Safety Initiative Program

FIREGROUND SURVIVAL

Instructor: Lieutenant Daniel DiRenzo, Cherry Hill, NJ FD/Safety & Survival Training, LLC

Every firefighter must have the ability to overcome fireground emergencies which they may encounter on any given incident. Firefighters routinely risk their lives to save savable lives from extremely dangerous situations. This hands-on program will teach the students to identify situations that get firefighters injured/killed, how to take measures to avoid these situations, and learn self-rescue procedures to ensure their survivability. Techniques learned will include situational awareness, Mayday vs. Urgent radio transmissions, dis-entanglement procedures, upper floor egress options and SCBA confidence skills. You need to be able to rescue yourself before you can rescue anyone else, so everyone goes home!

SEPTEMBER

8 HOUR H.O.T. (HANDS ON TRAINING)

THURSDAY, SEPTEMBER 16

BASIC ENGINE & LADDER COMPANY OPERATIONS: CONVENTIONAL FORCIBLE ENTRY & SAFE INTERIOR SEARCH OPERATIONS

Firefighter Nate DeMarse, FDNY/Brotherhood Instructors

ALL members will force a moderate to heavily secured door with the irons and immediately conduct an interior search under zero-visibility conditions.

VENT, ENTER & SEARCH (VES) OPERATIONS: ALL members will safely conduct a VES operation under zero-visibility conditions while using SCBA. Don't wait until 3 a.m. with a mother screaming and pointing, "My daughter is in that room!" to "try" this operation for your first time!

FLAT-ROOF OPERATIONS: ALL members will operate a power saw to conduct at least a 3'x5' ventilation opening on a flat-roof prop.

ENGINE COMPANY OPERATIONS: Stretching the Initial Attack Line: ALL members will participate and discuss various options for preconnected and static hose beds. Members will perform long stretches from a static hose bed, in an effort to "think outside of the pre-connect." Estimating the stretch will also be stressed.

ADVANCING THE INITIAL ATTACK LINE: ALL members will advance a 1 3/4" attack line (while flowing water) through a multiple room fire scenario. Tips and techniques for operating and managing the attack line will be stressed as the line is pushed in.

AGGRESSIVE 2 1/2" ATTACK LINE OPERATIONS: ALL members will advance a 2 1/2" attack line (while flowing water) through a multiple room fire scenario. Many firefighters approach this evolution saying, "Not possible!" We show you the tips & techniques that make it possible. You and ONE other member will advance the line through this scenario. Teamwork between the Nozzle and Back-up is stressed heavily.

BEHAVIOR CHANGE...IT'S NOT IN A VIDEO!

Sponsored by: New Jersey Division of Fire Safety & NJ Chapter- IAAI

Course length: Two 7- Hour Days

Target Audience: Youth Firesetting Interventionists

Suggested Pre-requisite: JFIS Level I

Registration: \$75.00 for the two-day event which will include a continental breakfast and hot lunch each day. Registration will be processed through the IAAI for more information please contact **Charlie Luxton via email at cluxton@dca.state.nj.us**

Course Description:

A teacher goes to school for a minimum of four years to learn not-so-much what to teach, but how to teach. The basics of how to teach, begins with understanding how human behavior develops. Human behavior is shaped by biology and environment. NFPA 1035 general requisite knowledge for JFIS I professionals, recommends an understanding of human development and family dynamics. Educating families starts here. There is no canned education program or one-size-fits all video that can alter risky behaviors in families. A good foundation, however, in child development (typical and atypical) and healthy parenting strategies can help us design more effective education and referral strategies.

Participants in this course will:

1. Identify thinking errors in risk-taking using the interview process
2. Identify differences between typical child development and developmental differences using the interview process
3. Identify appropriate vs. inappropriate parenting skills using the interview process
4. Develop an education and referral strategy given child development, thinking errors and parenting dynamics. The course will include activities designed to help participants apply the knowledge gained within the context of the firesetting interview process.

REQUEST FOR COURSE PROPOSALS

The NJ Division of Fire Safety strives to provide its service professionals and volunteers with access to timely, informative and effective training and education. To stay current with changing demands and requirements placed on all first responders, the Division, in cooperation with Kean University, issues this Request for Course Proposals for upcoming semesters from qualified professionals interested in teaching and training the Fire Service community.

Specifically, the Division of Fire Safety requests proposals for continuing education courses related to training, education and communications issues relevant to fire service personnel throughout New Jersey. New proposals can cover a myriad of topics ranging from management and leadership skills to inspections and instructor specific courses. Current hot topics, including operations as well as fire service safety, also will be considered.

The Division encourages potential instructors to submit new ideas, teaching methods and programs as part of this call for proposals. Ultimately, these proposals will be judged on their timeliness, effectiveness, quality and relevance to the fire service. All proposals must include a detailed fee structure for development and execution.

This Request for Course Proposals is detailed and comprehensive. To be reviewed and/or considered for an upcoming teaching assignment, please submit all materials outlined in the Course Proposal checklist attached to this notice. Submissions that do not include all items referenced on the checklist will not be reviewed.

Please mail completed materials to:

Ms. Karen A. Grant
Program Director
Fire Safety Training Program
1000 Morris Avenue, T-106
Union, NJ 07083

For more information, contact the Fire Safety Training Program at (908) 737-0230 or via email at firesafety@kean.edu.

FIRE SAFETY TRAINING PROGRAM 2010/2011 REQUEST FOR COURSE PROPOSAL

COURSE PROPOSAL CHECKLIST

TO ENSURE THE HIGHEST EVALUATION POSSIBLE, PLEASE COPY AND RETURN THE COMPLETED CHECKLIST AND ALL REFERENCED ITEMS ALONG WITH YOUR COURSE PROPOSAL.

- Course title is clearly identified in materials
- Course objectives are clearly defined
- Target audience and sub-codes to be addressed are indicated
- Detailed Course abstract is included
- Sample and/or description of audio-visual materials is provided
- Resume and/or statement of qualifications are attached
- References and/or statement of experience are attached
- Detailed cost breakdown is included
- Two (2) copies of completed proposal are enclosed

ADMINISTRATIVE COURSES

CULTURAL SENSITIVITY

CE021

NEW

Instructor: Gabrielle Wanamaker, TrustWorks

Today's Fire Service Professionals are required to be culturally competent in order to be successful in their roles. The men, women and children in the communities you serve come from a wide variety of backgrounds, cultures, races and religions. The cultural norms that govern acceptable behavior may differ for the Fire Service Professionals and public. These differences may cause frustration for all involved. Through this highly interactive workshop, students will gain a better understanding of their own views and acquire new approaches to communicate more effectively with all kinds of people while encouraging their compliance to maintain safety.

HANDLING DIFFICULT SITUATIONS

CE148

Instructor: CAM Consulting Group

Everyone encounters at least one difficult person or situation to deal with at some time. In this session, participants will learn the skills needed to change interactions from ones of confrontation to those of communication. Upon completion, attendees will be able to identify various behavior styles, understand and control their emotions, apply conflict resolution techniques, and communicate assertively to manage difficult situations. They will leave knowing how to keep issues and people from having a negative and stressful effect on them.

Thursday

October 7

Monmouth County Fire Academy

INTERGENERATIONAL WORKPLACE**C1C29****NEW***Instructor: Gabrielle Wanamaker, TrustWorks*

The experiences of each generation shape its values and ways of seeing the world. Generational differences at work, especially between Baby Boomers, Generation Y and now the Millennials, can be sources of frustration, conflict and even lulls in productivity. This course will shed light on common generational differences. Through discussion and activities, participants will develop an understanding of the sources of conflict that often occurs when different generations work together. Participants will receive practical tools for addressing the differences with the intent of creating more cohesive and productive teams in the workplace.

Wednesday**November 17****Gloucester County Academy****LEADERSHIP: A SELF ANALYSIS****CE061***Instructor: Michael J Corbo, Deputy Chief (Ret.), Pleasantville Fire Department
Director, Atlantic County Fire Training Center*

This course will provide students with the opportunity to look at the leadership qualities they already possess and the qualities they need to develop to become better leaders. We will examine the 11 characteristics that effective leaders possess and the traits that make up each characteristic. Each attendee will work through exercises to determine if they already exhibit any of the 11 characteristics and which traits they need to develop in order to become a more effective leader.

Saturday**October 9****Morris County Public Safety Training Academy****Wednesday****November 10****Mercer County Fire Academy****LEMONS TO LEMONADE:
A LEADERSHIP JOURNEY****N2N38****NEW***Instructor: Dennis L. Rubin, Chief, District of Columbia Fire & EMS Department*

Please join Fire Chief Dennis L. Rubin of the District of Columbia Fire & EMS Department as he discusses the needed leadership traits to be successful. By way of several case studies, Chief Rubin will cover a wide range of situations that posed serious challenges to his organization. Rubin will discuss what it takes to turn negative situations into positive ones. This presentation will be completed with a component that he calls "Rube's Rules" that has helped him be effective in managing one of America's largest Fire & EMS Departments. All of the information that Chief Rubin is providing can be applied to the discipline of firefighter health and safety. If you are serious about improving your department's safety programs, you won't want to miss this dynamic presentation.

Tuesday**November 16****Ocean County Fire Academy**

PUBLIC EDUCATION
DEVELOPING A FIRE SAFETY PROGRAM
FOR PRESCHOOL & ELEMENTARY STUDENTS

CE129

Instructor: Joseph Vallo, Jersey City Fire Department

This course is designed to provide fire personnel insight into developing a fire safety program for preschool and elementary students. Attendees will learn how to utilize personnel, apparatus, equipment and additional resources effectively to create a memorable and informative program.

FIRE SAFETY AND PREVENTION PROGRAMS FOR FAMILIES AND SENIORS

Instructor: Joseph Vallo, Jersey City Fire Department

Developing a fire safety and prevention program for families and seniors requires the careful consideration of many factors. Seniors - individuals over 65 years of age - make up the fastest growing segment of the population and they have a variety of special needs. The traditional family unit is also changing to a growing diversity and may include multiple generations and even multiple families in one building. Attendees will learn to develop and implement a program focused on the varying needs of these groups. This course will emphasize preparedness, communication and consistency in educating families and the senior community. Information will be given on how to utilize volunteer and professional organizations as well as draw upon internal personnel, equipment and other resources. Attendees will also be provided with tips and drills to use in the field.

JUVENILE FIRESETTER INTERVENTION AND AWARENESS

Instructors: Helge Nordtveit, Captain, Cranford Fire Department

This course deals with identifying juvenile firesetters and successful intervention and prevention approaches to address the problem. Motivation and legal issues on juvenile firesetting will be discussed. There will be an emphasis on how to establish a community-based program, as well as how to work within the framework of existing programs. The mechanics of how to report statistical information on juvenile firesetters to the Division of Fire Safety also will be provided.

TECHNICAL COURSES

BASIC FIRE PREVENTION INSPECTIONS

CE506

NEW

Instructor: James Foley, Fire Official, Deputy Fire Chief (Ret.), Atlantic City Fire Department

Basic Fire Prevention Inspections is a seminar designed to refresh and expand the knowledge, skills and abilities of a Fire Inspector in accordance with the basic requirements of NFPA 1031 PROFESSIONAL QUALIFICATIONS FOR FIRE INSPECTORS AND PLANS EXAMINERS Chapter 4 - Fire Inspector I. This course will assist the student in preparing reports and written communications, identifying fire hazard and permit requirements, understand court procedures and the methods of conducting a fire inspection in a systematic manner

Friday

November 5

Middlesex County Fire Academy (FO/FI Retreat)

BASIC INSPECTION OF HAZARDOUS MATERIALS

CE508

Instructor: James Foley, Fire Official, Deputy Fire Chief (Ret.), Atlantic City Fire Department

The goal of this course is to introduce the Fire Inspector to basic chemistry and Code requirements for dealing with hazardous materials. The course will provide a fundamental understanding of the relationship between the Code, NFPA standards, and State and Federal OSHA regulations relating to hazardous materials.

Friday

October 22

CAUSE AND ORIGIN: A SYSTEMATIC AND COMPREHENSIVE INVESTIGATION

CE753

Instructor: Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group; Detective Sergeant (Ret.), Arson Investigation Unit, Bergen County Prosecutor's Office.

The "students as investigators" approach focuses on actual fire investigation scenes, coupled with interactive classroom dialogue, and an exchange of ideas that enhance the students' skills in examining the fire scene. This is a "from the time of the call, to the time you leave the scene" outline of the components and essential elements which should be part of every fire scene examination. The program focuses on the elements necessary for documenting the entire scene, the examination and documentation of all potential sources of ignition, determining the fire's origin, and ultimately identifying the actual heat source, origin and cause of the fire in a thorough, complete and systematic manner. The resulting comprehensive investigation report will be suitable for use in criminal or civil litigation proceedings.

Wednesday October 20 Mercer County Fire Academy

CODE UPDATE

CE501

*Instructors: Patrick W. Bigoss, Camden County College, Coordinator Fire Science Program
Steve Taylor, Burlington County ESTC, Senior Fire Instructor*

This seminar will prepare the working code official for the Chapter 3 change from BOCA 1996 to the 2006 International Fire Code, NJ Edition. The course will include an overview of each chapter of the 2006 IFC and appropriate comparisons to the current Code including specific language to be used under the new code.

Friday October 15 Burlington County ESTC
Friday October 22 Monmouth County Fire Academy
Thursday November 4 Middlesex County Fire Academy (FO/FI Retreat)
Friday November 19 Morris County Public Safety Training Academy

ELEVATOR RESCUE & EMERGENCIES

C1D33

Instructor: Captain Daniel F. Spiegel, Fire Captain, City of Wildwood Fire Department

Emergency personnel with inadequate training in responding to stalled elevators are exposed to an increases risk of injury and death to both the victims and themselves. Learn how to safely and effectively remove passengers from stalled elevators as well as basic elevator procedures. Topics include nomenclature, safety, how an elevator functions, construction, elevator safety devices, possible equipment needed, initial response steps, lock-out/tag-out procedures, elevator doors use of hoist way door keys / pick tools, poling, firemen service (phase 1/phase 2) and manually lowering a hydraulic elevator. Current UCC and UFC regulations regarding elevators will also be discussed.

Friday October 29 Bergen County Fire Academy
Saturday November 13 Middlesex County Fire Academy

FDNY BLACK SUNDAY'S BRONX FIRE**C1D60**

*Instructor: FDNY Firefighter Eugene Stolorski, FDNY Rescue 3, Operations Manager
Fire & Family Transport Foundation*

This presentation tells the story of the tragic day that the New York City Fire Department suffered on January 23, 2005 in the Bronx, NY. A total of six Firefighters were trapped above the fire floor in the rear of a tenement. To avoid getting caught in the flash over that was about to occur, the firefighters were forced to bail out windows without the help of ropes and fall five stories to the alley below. Two firefighters were tragically killed with the four others critically injured. Along with another fatal fire in Brooklyn, NY, the day is now known throughout the fire service as the Black Sunday's Bronx Fire. The presentation gives a step by step detailed experience of a fire that went from normal to unimaginable conditions in the blink of an eye. Numerous lessons are shared from this day from two of the firefighters who survived to talk about it. The presentation includes audio of the radio transmissions that day along with video and photos of the building.

Tuesday**October 26****Morris County Public Safety Training Academy****Friday****November 19****Mercer County Fire Academy****Wednesday****December 8****Camden County ETC****FIRE INVESTIGATION: CONSIDERING THE ROLE OF NATURAL GAS AND/OR ELECTRICITY****CE760****NEW**

*Instructor: Adrian J. Cales, Asset Protection Manager, Public Service Enterprise Group,
Detective Sergeant (Ret.), Arson Investigations Unit. Bergen County Prosecutor's Office*

This program is designed to provide you with a thorough, comprehensive and complete understanding of the properties of both natural gas and electricity, and the steps necessary for the examination of a fire scene where there is the potential that natural gas or electricity were involved in either the origin or the cause of the fire. The emphasis of the program will be on how any and all components associated with either natural gas or electricity services must be subject to a detailed examination at every scene to either eliminate them, or attribute them, as to having any role or involvement in the origin or the cause of the fire, and what steps are necessary for this process to be completed.

Thursday**November 4****Middlesex County Fire Academy (FO/FI Retreat)****FIRE RATED DOORS AND HARDWARE:
A GUIDE TO FIELD INSPECTION****CE748**

Instructor: Door Security and Safety Foundation

This course is based on the changes in the 2007 edition of NFPA 80 Standard for Fire Doors and Other Opening Protectives. Due to these changes, fire rated doors must now be inspected on an annual basis. In a perfect world, fire doors will contain fires and provide time for sprinkler systems to extinguish flames and occupants to safely evacuate. But, doors are subject to wear and tear over time and will eventually need to be repaired or replaced. Building owners and facilities management personnel may not fully understand their role in properly maintaining the fire door assemblies within their structures and may rely on code officials and inspectors to identify problems. The objective of the course is to teach the updated NFPA 80 Standard, which includes the installation, operation, features, basic criteria, and maintenance of fire rated doors.

Tuesday**November 30****Bergen County Fire Academy****Tuesday****December 7****Ocean County Fire Academy**

FLAMMABLE AND COMBUSTIBLE LIQUIDS**CE590***Instructor: James Foley, Fire Official, Deputy Fire Chief (Ret.), Atlantic City Fire Department*

The objective of this course is to introduce the Fire Inspector to the basic hazards, general properties and characteristics of both flammable and combustible liquids. NFPA 30 and the Code requirements for storage, handling and use will be addressed, as well as environmental and firefighting needs for a proactive approach to storage facilities.

Saturday
Wednesday**October 16**
November 3**Sussex County Fire Academy**
Gloucester County Fire Academy**HEALTH-CARE FACILITIES****CE749****FIRE INSPECTIONS AND ITS IMPACT
FOR A FIRE DEPARTMENT RESPONSE***Instructor: Jack Murphy, Jr., JJM & Associates, LLC*

Health-care facilities are a challenge for both a fire inspection and a fire department response. This course will provide a comprehensive review of various health-care facilities such as a hospital, nursing home, assisted living and ambulatory health-care occupancies. The life safety aspects will include, but are not limited to: defend-in-place strategy as well as emergency escape and rescue procedures, fire protection systems that are both active and passive, classification of hazardous building contents, special provisions such as accessibility issues with a multi-building complex, nuclear medicine, building systems such as medical gases for oxygen, nitrogen and nitrous oxide piping systems, laboratories, various medical equipment, and how the health-care structure interrelates with the NJ Uniform Code.

Friday
Saturday**October 8**
November 20**Atlantic County Fire Training Center**
Somerset County ESTA**HOT ISSUES IN FIRE CODE ENFORCEMENT****CE758***Instructor: Paul T. Dansbach, Fire Official, Borough of Rutherford*

The program will present material on means of egress requirements of the NJ Uniform Fire Code and the NJ Uniform Construction Code for special locking devices and door hardware. An understanding of how the installation of special locking devices and door hardware will provide the fire inspector with the understanding of how the devices shall be maintained to ensure the compliance with the requirements of Chapter 10 of the NJ IFC. ESFR sprinkler systems and residential sprinkler systems are systems which the fire inspector will encounter more frequently during inspections. Understanding the technology and the basic code requirements for these unique systems will ensure the systems are maintained in accordance with the applicable codes and standards. Commercial cooking operations present some inspection challenges to the fire inspector. The course will present the latest code changes and requirements for cookline exhaust systems and fire protection systems as well as reviewing previous codes and standards to which many of the existing systems have been installed. Inspection principles and a review of common violations will be presented.

MANAGING FIREWORKS DISPLAYS**CE750***Instructor: Ronald E. Kanterman, Fire Chief/Fire Marshal, Mohegan Tribal Fire Department*

If, as a Fire Inspector or Fire Official you are required to inspect, approve or review a fireworks permit application, this course is for you. The presentation focuses on the code requirements for the public display of fireworks and the main purpose of the course is preparation to properly handle such displays. The material presented will include the chemistry of pyrotechnics, related equipment, site selection, display safety, authorities having jurisdiction, post display inspection, insurance and other related aspects.

NFPA 1620: A NEW STANDARD ON PRE-INCIDENT PLANNING**CE585****NEW***Instructor: Jack Murphy, Jr., JJM & Associates, LLC*

NFPA 1620 is a new Standard for Pre-Incident Planning (2009 edition). Over the years, the need for pre-incident building information has been cited in many National Institute for Occupational Safety and Health (NIOSH) line-of-duty death reports. Construction and building features such as lightweight construction, hybrid building, and the “Green” built environment are becoming more difficult to clearly identify from the street. Gathering building intelligence prior to an incident will enhance firefighters’ tactical capabilities in structures. A building reconnaissance survey for buildings under construction and vacant buildings will also be discussed.

Friday**November 5****Middlesex County Fire Academy (FO/FI Retreat)****PRINCIPLES OF MODERN BUILDING CONSTRUCTION****CE547***Instructor: Michael S. Scardino, Deputy Chief, Winslow Fire Department*

Principles of Modern Building Construction is designed to raise the awareness of Fire Service personnel of the dangers inherent in the construction methods and materials prevalent today, and compare them with the construction methods of old. A brief review of construction types and methods is used as a platform to introduce new lightweight materials and methodology. Factors such as high-heat-release fuel loading, energy efficiency, thermo pane windows, tighter building envelopes, and the impacts these have on the time temperature curve will be introduced. This course encourages students to document new construction using digital photography. This will afford the firefighter advanced knowledge of vulnerabilities and exposures, and will hopefully facilitate better tactical decision-making and outcome prediction.

PROTECTIVE SYSTEM ESSENTIALS FOR FIRE PREVENTION PERSONNEL

CE732

Instructor: Michael S. Scardino, Deputy Chief, Winslow Fire Department

Are you overwhelmed by new technology? Protective Systems are now commonplace in our buildings and are more sophisticated. Do you have a solid understanding of how these systems operate? This course reviews and details Protective Systems design, operation, applications and code requirements for both installation and maintenance. This course is designed to provide inspectors with a working knowledge of these systems and reduce some of the mystery behind the technology. Topics covered include Automatic Fire Detection, Automatic Fire Sprinklers, Foam Systems, Clean Agent Systems, Deluge Systems and Range Hood Suppression. If you want to get to know these systems a little better or just want a refresher, this course is for you.

RETROFIT - SUBCHAPTER 4

CE755

*Instructor: Paul T. Dansbach,
Fire Official, Borough of Rutherford*

The course will present the selected requirements of NJAC 5:70-4 - Fire Safety Code. Requirements that have been in effect for a number of years as well as recently adopted regulations and recently published Division of Fire Safety Bulletins will be discussed. The course will review how to determine if violations of Subchapter 4 exist and how to achieve compliance with the applicable regulations. This course deals with specific situations when strict compliance with the regulations is not practical. The Fire Code Variance process will be reviewed in detail. The relationship between the NJ Uniform Fire Code and the NJ Uniform Construction Code also will be presented.

UNDERSTANDING THE COMPLEXITY OF HIGH-RISE BUILDINGS **CE681**

Instructor: Jack Murphy, Jr., JJM & Associates, LLC

This course will include: lessons-learned for high-rise emergency incidents, core construction, types of occupancies, elevator issues, various types of all-hazard emergency evacuation modes to meet today's threats, fire protection features, areas of rescue assistance, basic Incident Management System protocols from the Lobby Command Post to the forward Operations, Staging and Rehab floors, the highlights of the NJ Uniform Fire Code with a high-rise building as well as new technologies.

Friday **December 10** **Kean University, Bruce Hall, Room 204**

UTILIZING ACCELERANT K-9's IN FIRE ARSON INVESTIGATIONS **CE708**

*Instructors: State Fire Marshal Fire/Arson Investigation K-9 Unit
New Jersey Division of Fire Safety*

This seminar is designed to give the Fire Official or fire/arson investigator a thorough understanding of the utilization of accelerant detection K-9s during fire investigations. Topics will include capabilities and limitations of K-9s, types of ignitable liquids able to be detected, interaction with laboratories, and an overview of K-9 training processes.

Wednesday **October 13** **Middlesex County Fire Academy**

WATER-BASED FIRE PROTECTION SYSTEM, NFPA 25-02 **CE593**

Instructor: Paul T. Dansbach, Fire Official, Borough of Rutherford

This course has been updated to reflect the revised and updated edition of NFPA 25-02. The revised and updated edition of NFPA 25-02 will be referenced in the anticipated adoption of the 2006 IFC NJ Edition. The course will provide technical information to the students to ensure the requirements of NFPA 25-02 for the inspection, testing and maintenance of water-based fire protection systems are uniformly enforced.

Wednesday **December 1** **Somerset County ESTA**

CHUBB SPRINKLER LAB COURSES

*Instructors: Tom LaCorte, CFPS, Assistant Vice President, Mid-Atlantic Zone
Senior Property Specialist,
Rich Luongo, PE, Property Specialist*

The Chubb Services Corporation Loss Control Training Center is located in Warren, New Jersey. This facility is equipped with state-of-the-art fire protection equipment including sprinkler systems, fire pumps and fire detection systems. All courses at the Chubb training facility are hands-on.

MODULE 1 IS A PREREQUISITE FOR ALL OTHER CHUBB MODULES.

MODULE ONE: WET PIPE AUTOMATIC SPRINKLER SYSTEMS AND WATER SUPPLIES

CE553

This hands-on class will cover the basics of automatic sprinkler systems including the wet pipe sprinkler system, the most common sprinkler system found in NJ. The components of the sprinkler system will be reviewed including piping, sprinklers, fire department connections, alarm check valves, and sprinkler control valves. Testing requirements of the UFC and NFPA 25 will be demonstrated including valve inspection, testing of sprinklers, and the main drain test. Water supplies for sprinkler systems will be overviewed including fire pumps, gravity tanks, and city water mains. A fire hydrant water flow test will be conducted by students and test results analyzed to determine adequacy for fire protection systems.

Tuesday

October 5

Chubb Loss Control Training Center

**MODULE TWO:
DRY PIPE, DELUGE
AND PRE-ACTION SPRINKLER SYSTEMS****CE554**

This course builds on Module 1 and covers the remaining sprinkler systems found in NJ. This course will overview and demonstrate the dry pipe valve; single, double and cycling on-off preaction valves; and the closed and open deluge systems. Topics covered will include the operational components, trip testing and resetting of valves, and occupancies where this equipment is found. The testing requirements of the UFC and NFPA 25 will be reviewed and demonstrated.

Friday October 29 Chubb Loss Control Training Center

**MODULE THREE:
WAREHOUSE FIRE PROTECTION
AND FIRE DOOR TESTING****CE564**

This class will review the NFPA fire protection standards for warehouses including NFPA 13, 1999 edition. Topics covered will include hydraulically calculated sprinkler systems, commodity classification, storage configurations i.e. rack and pallet, common problems found in warehouse occupancies, idle wood and plastic pallet storage, specialty sprinklers including ESFR, Large Drop, and ELO sprinklers will be demonstrated. Common types of fire doors and problems found in warehouses will be overviewed. Annual fire door testing procedures required by the UFC will be reviewed including a demonstration of a rolling steel fire door drop test.

Thursday November 18 Chubb Loss Control Training Center

**MODULE FOUR:
AUTOMATED FIRE PUMPS****CE581**

This course will provide an overview of various fire pumping system components commonly found in automatic sprinkler and standpipe systems. Booster and fire pumps will be overviewed as well as vertical and horizontal centrifugal pumps. Fire pump diesel and electric controllers and drivers will be highlighted, including the testing requirements of the UFC and NFPA 25 which will be reviewed and demonstrated. Participants will conduct an annual fire pump test and review and analyze results.

2010 FIRE OFFICIAL AND FIRE INSPECTOR RETREAT

GENERAL INFORMATION

The New Jersey Division of Fire Safety and Kean University are pleased to announce that the Annual FO/FI Retreat will be held on November 4-5, 2010 at the Middlesex County Fire Academy in Sayreville, NJ. The retreat is open to all certified Fire Officials and Fire Inspectors.

START AND END TIMES

Registration for seminars will begin at 7:45 a.m. Please arrive at the academy no later than 8:15 a.m. to register. The sessions will begin at 8:30 a.m. and end by 3:30 p.m. Friday's schedule includes a plenary session which will extend the day's events to 4:15 p.m.

REGISTRATION INSTRUCTIONS

Complete the registration form on Page 25 and mail it with your payment. Please print clearly. The fee for registration is \$65 for two days. The fee for a single day is \$35 and subject to seminar availability.

Please make your check or money order payable to **Kean University**.

Note: Please include the name of participant(s) on all checks and money orders.

No vouchers or purchase orders will be accepted. A fee will be charged for returned checks.

ALL PAYMENTS MUST BE MADE BY CHECK OR MONEY ORDER.

FAXED AND TELEPHONE REGISTRATIONS WILL NOT BE ACCEPTED.

The registration form must be received by Kean University with proper payment by October 22, 2010. A confirmation notice will be mailed to you prior to the retreat. No refunds will be given after October 22, 2010.

Registration will be on a first-come, first-served basis for all certified fire officials and inspectors. If you do not receive a confirmation notice by October 29, 2010, please call the Division of Fire Safety at (908) 737-0230 to confirm registration.

Registrants may select one (1) all-day course or one (1) half day morning and one (1) half day afternoon session. See course descriptions for requirements.

ALL-DAY SESSION:

Safety and Survival/Rapid Intervention

HALF-DAY MORNING SESSIONS:

Women in the Fire Service: Are We Our Own Worst Enemies

Vehicle Extrication

HALF-DAY AFTERNOON SESSIONS:

Fireworks Operations

Vehicle Extrication

Certified Fire Instructors will receive 0.5 CEU Credits for the completion of both a morning and afternoon session.

COURSE DESCRIPTIONS

FIREWORKS OPERATIONS

C2T07

(0.25 CEU Instructor)

Instructor: John Thomas, Pyro Technician & Fire Investigator, Fire Inspection Services

The Fireworks Operation course was developed for the first responder in mind. The course explains how pyrotechnic shows are set up and fired. The Instructor will also cover what responsibilities the first responder will have if something goes wrong. The course will also talk about the interaction with the Local and State Fire Marshal's office.

RAPID INTERVENTION/ SAFETY AND SURVIVAL

C2T08

(0.5 CEU Instructor)

Instructors: Joel Lipman, Charles Maria and Academy Instructors

This eight-hour course will cover some of the latest techniques in Rapid Intervention of saving our brothers or sisters as well as Safety and Survival techniques to save yourself. These hands-on courses will be the hardest work you have ever done within the scope of training in the fire service. There will be several stations covering several subjects. Some of the subjects being covered will be: Managing the Mayday, Ladder Bailout, Mask Course, Below Grade Rescue, Upper Floor Rescue, and Several Victim Removal Techniques.

This course will meet some of the state guidelines for Rapid Intervention Crews.

Prerequisite for Class: Firefighter 1

The Following equipment will be needed to participate in the class:

Full PPE including SCBA unit and Spare Cylinder.

VEHICLE EXTRICATION

C1T88

(0.25 CEU Instructor)

Instructors: Alan Querec and Academy Instructors

The class will give an overview of Vehicle Rescue practices in relation to safety and multi – agency operations. It will be followed by a practical exercise in powered rescue tool operations used in vehicle rescue.

Prerequisite: Firefighter I. Equipment: Full PPE.

WOMEN IN THE FIRE SERVICE... ARE WE OUR OWN WORST ENEMIES?

C1W19

(0.25 CEU Instructor)

Instructor: Gail Patterson, Certified Empowerment Coach, The Wise Woman's Way

How true is it that we create our own reality? As women in a very "non-traditional" role, we are constantly breaking new ground. As pioneers in this area, how are we creating the image of the female firefighter? Are we happy with how we are perceived and received? Join us for a presentation and round-table discussion of this vital topic as it pertains to us all.

FIRE SERVICE WOMEN OF NEW JERSEY CONFERENCE AGENDA

Friday, November 12, 2010

FSWNJ CONFERENCE DRIVING DIRECTIONS

SOMERSET COUNTY EMERGENCY SERVICES TRAINING ACADEMY
402 Roycefield Road, Hillsborough, NJ 08844, 908-725-5070

From the East: I-78 West to I-287 South. Take Bridgewater Exit 17 (202/206 South). Take Route 206 South around the Somerville Circle toward Princeton. Travel for approximately 2.5 miles and turn right onto Dukes Parkway West. Travel approximately 1 mile and turn left onto Roycefield Road. Go approximately 0.5 mile and turn left into the Somerset County Public Works facility. Go through the gates and make an immediate right. Follow this road to the Training Academy.

From the South: Garden State Parkway or New Jersey Turnpike to I-287 North. Take Exit 14B to Route 22 West. Go approximately 2 miles and take Route 202/206 South. Take Route 206 South around the Somerville Circle toward Princeton. Travel for approximately 2.5 miles and turn right onto Dukes Parkway West. Travel approximately 1 mile and turn left onto Roycefield Road. Go approximately .5 mile and turn left into the Somerset County Public Works facility. Go through the gates and make an immediate right. Follow this road to the Training Academy.

From the South (via Route 206): Take Route 206 North onto Hillsborough Township. Travel for approximately 6 miles and take the jug handle for Dukes Parkway West. Travel approximately 1 mile and turn left onto Roycefield Road. Go approximately .5 mile and turn left into the Somerset County Public Works facility.

From the North: From I-287 South. Take Bridgewater Exit 17 (202/206 South). Follow the directions from the East.

From the West: I-78 East to I-287 South. From I-287 South take Exit 17 (202/206 South). Follow the directions from the East.

FIRE INSTRUCTOR CERTIFICATION PROGRAM

The Fire Service Instructor Safety courses are components of the New Jersey State Fire Service Instructor Certification Program. Information regarding the requirements for certification for Instructor Level I, Instructor Level II, and Special Instructor Certificate for Drill Ground Instructor can be obtained from the New Jersey Division of Fire Safety, Office of Training and Certification at 609-777-3552. The Drill Ground Instructor safety program replaces the General Safety, SCBA/Smokehouse and Live Burn Safety programs. Contact your local fire academies for additional course offerings of the Drill Ground Instructor program.

Completion of the Drill Ground Instructor program is a prerequisite for admittance into the Fire Service Instructor Level I Certification Examination. It is strongly suggested that individuals first complete the Fire Service Instructor Level 1 course prior to taking this examination. Turnout gear is not required for the Drill Ground Instructor program or the written examination. The courses needed for Fire Service Instructor Certification are being offered to those interested in certification as a Fire Service Instructor Level I or Level II. There are two paths currently available to meet the educational methodology criteria for credentialing; the first path includes the completion of a 16-hour Instructional Techniques for Company Officers or 40-hour Educational Methodology program of instruction which meets the educational methodology requirements for Instructor Level I and II respectively. The second path (recommended) includes completion of a program of instruction that meets the requirements of NFPA 1041, Standard for Fire Service Instructor Professional Qualifications, 2002 edition, utilizing the International Fire Service Training Association (IFSTA) publication titled "Fire and Emergency Services Instructor, 7th Edition. This publication is used for both the Level I and Level II instructional programs. This path will eventually replace the two Educational Methodology courses for credentialing.

DRILL GROUND INSTRUCTOR

DGI01

*Instructor: Michael J Corbo, Deputy Chief (Ret.), Pleasantville Fire Department
Director, Atlantic County Fire Training Center*

This course updates and replaces the General Safety, SCBA/Smokehouse Safety and Live Burn Safety courses and is required for anyone wishing to obtain a Fire Instructor Certification issued by the Division of Fire Safety or to renew existing SCBA/Smokehouse or Live Burn Certificates. The intent of this course is to ensure that instructors understand the safety issues and adopted NFPA Standards inherent in SCBA/Smokehouse and Live Burn firefighting training. The students will be provided with a basic understanding of identifying and correcting unsafe situations as they occur, and will review various safety concerns regarding drill ground instructional activities and student performance criteria. Turnout gear is not required for this course.

FIRE INSTRUCTOR I AND II CERTIFICATION PROGRAMS

New instructor certification programs are being adopted which will meet the requirements of NFPA 1041, Standard for Fire Service Instructor Professional Qualifications, 2002 edition, utilizing the International Fire Service Training Association (IFSTA) publication titled “Fire and Emergency Services Instructor, 7th edition”. Both the Fire Service Instructor Level I and II programs are contained in this one publication. Students will be required to purchase the referenced textbook prior to attending the programs. Should a student take the programs after obtaining certification they will receive 3.5 CEU's Technical credit toward renewal of their fire instructor certification.

FIRE INSTRUCTOR I

E1C27

This program is approved by the Division of Fire Safety to satisfy the instruction criteria for certification as Fire Instructor Level I. The 35-hour program utilizes the IFSTA textbook referenced above, and is designed to present the student with basic skills to assemble course materials, use instructional aids and evaluation tools, review and adapt lesson plans, present a lesson from a prepared lesson plan, and review the administrative record keeping functions of the instructor. Successful completion of the program grants the student eligibility to take the State Fire Instructor Level I written examination.

FIRE INSTRUCTOR II

E1C28

This program is approved by the Division of Fire Safety to satisfy the program of instruction criteria for certification as Fire Instructor Level II. The 35-hour program utilizes the IFSTA textbook referenced above, and is designed to present the student with advanced skills to manage instructional resources, schedule training sessions, supervise and coordinate the activities of other instructors, evaluate subordinate instructors, develop and review lesson plans, develop evaluation instruments, and analyze the results of student evaluations. Successful completion of the program grants the student eligibility to take the State Fire Instructor Level II written examination.

**FIRE OFFICER 1 CHALLENGE
WRITTEN EXAMINATION**

FO1CH

New Jersey Division of Fire Safety

The Division of Fire Safety will accept the Fire Officer 1 Challenge Exam Completion Certificate to meet the "Written Examination" credentialing requirements established for the issuance of the Fire Officer 1 Certification. Below are listed the exam dates and locations. The exam is three hours in length. Each participant must show a photo ID to be admitted into the exam room. Registration is permitted through the NJ Portal System, or by calling the Office of Training and Certification. A confirmation notice will be sent to all who register. This announcement is not endorsed by the NJ Department of Personnel and will not substitute for their requirements. This examination will not be administered orally to a candidate. The exam questions have been validated by the Division of Fire Safety and meet the requirements of the NFPA 1021 Standard.

Please note that Fire Officer 1 written examination candidates will have "one" attempt to pass the "challenge" examination. A minimum passing score of "70" is required to pass the examination. The "challenge" Fire Officer 1 Written Examination will be offered to individuals who meet the following criteria:

Each person tested through this "challenge" examination must possess a valid "Incident Management Level 1" certification issued by the Division of Fire Safety, and have previously served, or currently be serving as a fire suppression fire officer within a fire company, fire department, fire district or fire brigade. To clarify, "Fire Officer" shall be a Lieutenant, Captain, Battalion Chief, Assistant Chief, Deputy Chief or Fire Chief. Fire Police line officer titles will not be accepted as meeting fire suppression line officer requirements.

FIRE SERVICE INSTRUCTORS CONTINUING EDUCATION COURSES

The NJ Division of Fire Safety requires Fire Instructor recertification. Part of the recertification program requires completion of Continuing Education Units (CEUs) courses. The Continuing Education courses are one method to meet the requirements. Certified Fire Service Instructors will be given preference in registration for these courses.

BASICS OF POWERPOINT© PRESENTATIONS

C1C18

Instructor: James M. Cline, Ed.D., Captain (Ret.), FDNY, EdCon Associates

This course is a Microsoft PowerPoint based presentation and is designed to acquaint the student with the software and its use. The course will involve visual presentations and interactive activities with laptop systems in training situations.

Thursday**October 7****Camden County ETC**

ADVANCED POWERPOINT© PRESENTATIONS

C1T47

Instructor: James M. Cline, Ed.D., Captain (Ret.), FDNY, EdCon Associates

This course is geared toward the intermediate and advanced users of Microsoft PowerPoint. This course is designed to better acquaint the instructor with the software and its use. Completion of Basics of PowerPoint Presentations is a prerequisite for this course.

Saturday**October 16****Kean University, CAS Building, Room 307
(Center for Academic Success)**

INSTRUCTING STUDENTS WITH LEARNING DISABILITIES IN THE FIRE SERVICE

T1C09**NEW**

Instructor: James M. Cline, Ed.D., Captain (Ret.), FDNY, EdCon Associates

This course is designed to familiarize students with the skills required to teach students with special needs. A review of the applicable terminology will be conducted. The various needs of the student will be explained, as well as the best methods of teaching to overcome a disability or special need.

Tuesday**November 9****Burlington County ESTC**

INTERGENERATIONAL WORKPLACE**C1C29****NEW***Instructor: Gabrielle Wanamaker, TrustWorks*

The experiences of each generation shape its values and ways of seeing the world. Generational differences at work, especially between Baby Boomers, Generation Y and now the Millennials, can be sources of frustration, conflict and even lulls in productivity. This course will shed light on common generational differences. Through discussion and activities, participants will develop an understanding of the sources of conflict that often occurs when different generations work together. Participants will receive practical tools for addressing the differences with the intent of creating more cohesive and productive teams in the workplace.

Wednesday**November 17****Gloucester County Fire Academy****TEAM TURNAROUND****CE125****NEW***Instructor: Gabrielle Wanamaker, TrustWorks*

Changes in priorities and team structures can cause upheaval, making for difficult working conditions. This course is designed to help teams move through challenges to improve workplace relationships and outcomes. Participants will examine various models for achieving high performing teams in this highly interactive workshop. Case studies and role play will be used.

TRAIN-THE-TRAINER COURSE OFFERINGS

Train-the-Trainer courses are being offered to increase the number of qualified instructors that are available to teach fire service personnel throughout the state.

Train-the-Trainer courses have a limited enrollment. Therefore, instructor selection will be made in the following priority:

1. **County, regional or local fire academy instructors**
2. **Fire department training officers/instructors**
3. **Other fire instructors**

The ability to impact the most students will be the primary factor for selecting qualified applicants. The Division of Fire Safety may opt to limit the number of attendees from any one training agency. To attend Train-the-Trainer courses, you must have attended the prerequisite course as a student and be certified as a Fire Instructor Level II.

THE COURAGE TO BE SAFE ... C1D15 SO EVERYONE GOES HOME

Instructor: Greg Collier, New Jersey Advocate, Battalion Fire Chief, Mount Laurel Fire Department

This presentation was originally developed in 2006 by the Firefighter Life Safety Initiatives Team and has been presented to hundreds of firefighters across the nation. In addition, numerous Train-the-Trainer classes have been held in order to strengthen the instructor base and facilitate program implementation at the local level. This updated version reflects the combined feedback of Regional and State Advocates, Instructors and Students who have participated in this program. The program promotes the courage to do the right thing in order to protect firefighters from illness, injury or Line of Duty Death - So that Everyone Goes Home®.

**I-300 TRAIN THE TRAINER
FOR INTERMEDIATE INCIDENT COMMAND
SYSTEM FOR EXPANDING INCIDENTS**

N1IT3

Instructor: Scott DiGiralomo, Deputy Coordinator, Morris County Office of Emergency Management

This course is designed to prepare the trainer to instruct the FEMA I-300 (April 2008) NIMS/ICS curriculum. Objectives are to describe the Incident /Event management process for expanding incidents. Implement the incident management process for a Type 3 incident and develop an Incident Action Plan (IAP) for the next operational periods. **(Prerequisite: Complete classroom-based I-200A ICS)**

Saturday

November 20

Bergen County Fire Academy

**RAPID INTERVENTION & AWARENESS
- THE FIRST STEP**

C2T02

Instructors: Robert G. Moran, Fire Chief, City of Englewood

John J. Lewis, Lieutenant, City of Passaic Fire Department

Rapid Intervention Crews are the most significant, readily available fireground resource utilized to enhance the safety of firefighters operating at emergency incidents. This program will address the needs assessment for an incident commander and for the fire department of who, what, where, when and how does a RIC get developed, staffed and deployed. This program will provide an outline for instructors to utilize in preparing fire departments in accomplishing their goals of having a readily available RIC. This course covers state and federal mandates, size up, team composition, deployment, operational responsibilities, terminology, and post incident analysis. The course will explore case studies as well as provide an emphasis on building construction, safety and size up to give students a better understanding of their roles and responsibilities when assigned as a RIC member on the incident scene.

COURSES OF INTEREST TO THE FIRE SERVICE

ARE YOU PREPARED FOR WAREHOUSE AND COMMERCIAL BUILDING FIRES? C1T34

Instructor: Deputy Chief James P. Smith (Ret.), Philadelphia Fire Department

Through lecture and student activities this course will review the various strategies needed for successful operations at fires in warehouses and commercial buildings. The instructor will intersperse his 41 years of fireground experience along with warehouse and commercial building fires that have occurred nationally. There will be modules on recognizing cues through the use of size-up factors along with interactive lectures. This course utilizes case studies and has a strong emphasis on safe incident scene operations.

Thursday **October 7** **Camden County ETC**

ARSON AWARENESS FOR LINE PERSONNEL C1D58

Instructor: Ronald E. Kanterman, Fire Chief/Fire Marshal, Mohegan Tribal Fire Department

How do you know the fire wasn't set intentionally? At what point should you call the investigator? How do you preserve the scene and the evidence? This course will take line personnel through the fire scene and the clues, cues and signs of arson and incendiary fires. Firefighter safety is also a key component of this class. This is not a fire investigation class. Fire Investigators need not apply!

Friday **October 15** **Somerset County ESTA**

BUILDING CONSTRUCTION AND COLLAPSE C1T28

Instructor: James Smith, Deputy Chief (Ret.), Philadelphia Fire Department

This course will increase the awareness of the different types of building construction and will review the strengths and weaknesses relevant to different types of building collapse and case studies, while stressing safe incident scene operations.

Wednesday **October 6** **Burlington County ESTC**

CREW RESOURCE MANAGEMENT C1D64

NEW

Instructor: Dennis L. Rubin, Chief, District of Columbia Fire & EMS Department

Crew resource management simply states that good leaders must always be able to effectively use various types of input from the crew that support them on the fire line. An excellent Incident Commander develops a system to seek out critically needed information to make the best call. Part of that system is teaching department members how to offer information without being offensive. The leadership and team building elements of CRM teach incident commanders how to set aside their egos and use the human capabilities that are readily available.

Thursday **November 18** **Bergen County Fire Academy**

CULTURAL SENSITIVITY**CE021****NEW***Instructor: Gabrielle Wanamaker, TrustWorks*

Today's Fire Service Professionals are required to be culturally competent in order to be successful in their roles. The men, women and children in the communities you serve come from a wide variety of backgrounds, cultures, races and religions. The cultural norms that govern acceptable behavior may differ for the Fire Service Professionals and public. These differences may cause frustration for all involved. Through this highly interactive workshop, students will gain a better understanding of their own views and acquire new approaches to communicate more effectively with all kinds of people while encouraging their compliance to maintain safety.

Wednesday**November 17****Gloucester County Fire Academy****LEADERSHIP, ACCOUNTABILITY
CULTURE AND KNOWLEDGE - L.A.C.K.****C1D65****NEW***Instructor: Greg Collier, New Jersey Advocate, Battalion Fire Chief, Mount Laurel Fire Department*

For individuals and organizations that have not yet embraced the 16 Life Safety Initiatives of Courage to be Safe®, this program provides an alternative path to change. This program is designed to reach fire officers, training officers and chief officers and provide them with the opportunity to learn how Leadership, Accountability, Culture and Knowledge can help them improve both their own and/or organizational skill set for what each letter represents. Modern safety attitudes and practices intended to reduce line-of-duty death to firefighters will also be examined.

Wednesday**December 8****Middlesex County Fire Academy****LEADERSHIP: A SELF ANALYSIS****CE061***Instructor: Michael J Corbo, Deputy Chief (Ret.), Pleasantville Fire Department
Director, Atlantic County Fire Training Center*

This course will provide students with the opportunity to look at the leadership qualities they already possess and the qualities they need to develop to become better leaders. We will examine the 11 characteristics that effective leaders possess and the traits that make up each characteristic. Each attendee will work through exercises to determine if they already exhibit any of the 11 characteristics and which traits they need to develop in order to become a more effective leader.

LEMONS TO LEMONADE: A LEADERSHIP JOURNEY

C1D31

NEW

Instructor: Dennis L. Rubin, Chief, District of Columbia Fire & EMS Department

Please join Fire Chief Dennis L. Rubin of the District of Columbia Fire & EMS Department as he discusses the needed leadership traits to be successful. By way of several case studies, Chief Rubin will cover a wide range of situations that posed serious challenges to his organization. Rubin will discuss what it takes to turn negative situations into positive ones. This presentation will be completed with a component that he calls "Rube's Rules" that has helped him be effective in managing one of America's largest Fire & EMS Departments. All of the information that Chief Rubin is providing can be applied to the discipline of firefighter health and safety. If you are serious about improving your department's safety programs, you won't want to miss this dynamic presentation.

METH LAB EMERGENCY RESPONSE TRAINING

C1D22

NEW

Instructors: Merit Training Program

Meth Lab Emergency Response Training focuses on the illegal manufacture of methamphetamine. This course is a multi-agency training program that instructs Fire and EMS personnel how to safely respond to methamphetamine labs, support the methamphetamine lab response teams that are on site, and treat victims and officers who are injured during a methamphetamine lab response. The threat of chemical exposure and hazards found within a methamphetamine lab are as dangerous as fighting fires, with devastating health issues that can have immediate or prolonged effects. This course will train students how to recognize people who are under the influence of methamphetamine, ask the right questions to safeguard from exposure and most importantly, how to recognize a methamphetamine lab before the exposure is deadly. **Please note, this class begins at 8:00 a.m. and continues until 5:00 p.m. both days. A sack lunch is suggested. Participants must attend both days for credit.**

NEW JERSEY INCIDENT MANAGEMENT

NEW JERSEY FOREST FIRE SERVICE

The New Jersey Division of Fire Safety and the Forest Fire Service of New Jersey have joined to provide Incident Command System training to the fire service. The Incident Management System, having roots in the Forest Fire Service, makes it logical that the Division of Fire Safety tap this resource. The Division thanks the Forest Fire Service for providing its expertise toward this effort.

The New Jersey Forest Fire Service is an agency within the New Jersey Department of Environmental Protection with the responsibility for the protection of life, property and natural resources from wildfire.

All training courses are Incident Management in nature and meet current National Wildfire Coordinating Group (NWCG) Standards that have been established for wildland firefighters across the United States. The delivery of these courses will be geared toward an all risk perspective with knowledge gained being applicable to any type of natural or human caused emergency or disaster. These courses also will assist agencies in becoming proficient in the adoption and use of the United States Department of Homeland Security's National Incident Management System (NIMS).

ALL HAZARDS OPERATIONS PLANNING CHIEF (4-Day Class)

N2N62

Instructor: T. Steve King, Deputy OEM Coordinator, Burlington County

This professional development course, 0440 All Hazard Planning Section Chief (PSC), was recently released by NFA/EMI and was developed for the emergency responders with duties and responsibilities of a PSC at a Type III incident and event. This 32 hour program is intended for City, County and State-level emergency responders who may be designated as PSC on their agency Incident Management Team. These responsibilities are managing the planning cycle, tracking resources, incident status and effectively fulfilling the position responsibilities of the Planning Section Chief on an All-Hazards ICS Incident Management Team. Exercises, simulations, discussions, and a final exam enable students to process and apply their new knowledge. DFS IM Level 3, Div/Group supervisor, Strike team Leader are prerequisites for this course.

Please note, this class begins at 8:00 a.m. and continues until 5:00 p.m. both days.

A sack lunch is suggested. Participants must attend both days for credit.

Saturdays and Sundays

November 6-7, 13-14

ATLANTIC COUNTY FIRE TRAINING CENTER**(Anthony "Tony" Canale Training Center)****5033 English Creek Avenue, Egg Harbor Township, NJ 08234, 609-407-6743**

From GSP Southbound and Northbound: Take GSP to Atlantic City Expressway, Exit 38 towards Philadelphia. On AC Expressway, take first exit, Exit 9, AC International Airport. Pay toll, go to stop sign at top of hill, make left onto Delilah Road. Go 1 mile to English Creek Avenue (CR 575) make left. Follow for 3.5 miles, Training Center is on the right.

From AC Expressway Eastbound: Take Exit 9, make right at light after toll onto Delilah Road. Go .5 mile to English Creek Avenue (CR 575) make left. Follow for 3.5 miles, Training Center is on the right.

From AC Expressway Westbound: Take Exit 9, AC International Airport. Pay toll, go to stop sign at top of hill, make left onto Delilah Road. Go 1 mile to English Creek Avenue (CR 575) make left. Follow for 3.5 miles, Training Center is on the right.

BERGEN COUNTY FIRE ACADEMY**(Law and Public Safety Institute, Police, Fire & EMS)****281 Campgaw Road, Mahwah, NJ 07430, 201-818-7800**

Via Route 4 West: Route 4 West to Route 208 North (bear right at the split). 208 North to the Ewing Ave. exit (first exit in Franklin Lakes). At the end of the ramp turn right onto Ewing Ave. At stoplight, turn left onto Franklin Ave. Go approximately 0.5 mile and turn right onto Pulis Ave. (VFW is on the right at the intersection). Proceed on Pulis Ave. for 1 mile and turn left onto Campgaw Road. Institute is about 1 mile North on the right. Note: If you miss Ewing Avenue, the next exit is Summit Ave. Proceed East on Summit to the first light and turn left onto Franklin Ave. The next light on Franklin is at Pulis Ave. Turn Right onto Pulis Ave. (VFW is on the right at the intersection). Proceed on Pulis Ave. for 1 mile and turn left onto Campgaw Road. Institute is about 1 mile North on the right.

Via Route 17 from the South: Route 17 North to the MacArthur Blvd exit. Turn left at light onto MacArthur go to end. Turn right onto Darlington Ave. and make first left onto Seminary Road. Seminary Road to Campgaw Road. Turn left onto Campgaw Road. The Institute is about 0.5 mile on the left.

Via Route 17 from the North: Route 17 South to Route 202/Ramapo Valley Road. Route 202 (Ramapo Valley Road) South to Darlington Ave. Darlington Ave. North, Bear right at fork onto Campgaw Road. The institute is about 0.75 mile on the left.

Garden State Parkway, North and South: Garden State Parkway to exit 160. Left onto Paramus Road. Travel 0.25 mile, take Rte.4W/208N exit. Follow the directions "Via Route 4 West", above. **Alternate:** Garden State Parkway to exit 163, Oradell Ave., West. Turn right at the end of the ramp onto Oradell Ave. Oradell Ave. West to Route 17 North. Follow the directions "Via Route 17 from the South", above.

From 287 North: Route 287 North to Route 208 South. Route 208 South to Summit Ave. exit. At the end of the ramp turn left onto Summit Ave. Proceed East on Summit to the first light and turn left onto Franklin Ave. The next light on Franklin is at Pulis Ave. Turn Right onto Pulis Ave. (VFW is on the right at the intersection). Proceed on Pulis Ave. for 1 mile and turn left onto Campgaw Road. Institute is about 1 mile North on the right.

From 287 South and the New York State Thruway: Bear left onto Route 17 South. Route 17 South to Route 202/Ramapo Valley Road. Route 202 (Ramapo Valley Road) South to Darlington Ave. Darlington Ave. North, bear right at fork onto Campgaw Road. The institute is about 0.75 mile on the left.

BURLINGTON COUNTY EMERGENCY SERVICES TRAINING CENTER**53 Academy Drive, Westampton (Mt. Holly), NJ 08060, 609-702-7157 ext. 3900**

From NJ Turnpike: Take Exit 5 to traffic light. Turn right onto Route 541. Proceed East 2 miles. Before the second traffic light, turn into jug handle (Woodlane Road/County Facilities) and stay right. Turn right off jug handle onto Woodlane Road, (Route 630). Proceed 1 mile to second traffic light. Turn right at the light. Follow signs for Public Safety Center. Turn left after the Public Safety Center onto Academy Drive. Follow to the end.

From I-295 North or South: Take Exit 45A (Mount Holly/Willingboro). Proceed to third traffic light and turn left onto Irick Road for 0.5 mile. Turn right onto Woodlane Road, (Route 630). Turn left at next light into the complex. Follow signs for Public Safety Center. Turn left after the Public Safety Center onto Academy Drive. Follow to the end.

CAMDEN COUNTY EMERGENCY TRAINING CENTER**420 Woodbury/Turnersville Road, Blackwood, NJ 08012, 856-374-6167**

From NJ Turnpike: Take Exit 3 to Route 168 South, (Black Horse Pike). Proceed 5.2 miles through Blackwood. Turn right at the traffic light at Lakeland Road. Follow Lakeland Road 1.0 mile to the end. Turn right onto Woodbury/Turnersville Road. The Fire Academy is 0.4 miles down on the left, across from Health Services Center.

From I-295: Take Exit 28 to Route 168 South, (Black Horse Pike). Travel 6.1 miles through Runnemede and Blackwood. Turn right at the traffic light at Lakeland Road. Follow Lakeland Road 1.0 mile to the end. Turn right onto Woodbury/Turnersville Road. The Fire Academy is 0.4 miles down on the left, across from the Health Services Center.

CAPE MAY COUNTY FIRE ACADEMY**175 Crest Haven Road, Cape May Court House, NJ 08210, 609-465-2570**

From the GSP: Take Exit 11, turn left at first traffic light. Proceed .5 mile on Crest Haven Road; Fire Academy is on the right.

CHUBB SERVICES CORPORATION**Loss Control Training Center****15 Mountain View Road, Warren, NJ 07059, 908-903-2500**

From Route I-78: Take Exit 33. Take Route 525 South less than .25 miles. Turn left at traffic light onto Mountain View Road. On weekdays, proceed to the Guard House and enter right-hand lane. Guard on duty will sign you in. The Chubb cafeteria is open on weekdays. On Saturday, press the intercom button at the gate. Once past the gate, take the fifth right, labeled "Parking Lot F, Training Center." The Training Center is a one-story brick building. Attendees should bring their lunch on weekends and a refrigerator will be available.

CUMBERLAND COUNTY FIRE TRAINING CENTER**637 Bridgeton Avenue, Rosenhayn, NJ 08302, 856-455-8526**

From NJ Turnpike: Take Exit 7 (Route 206). Follow signs to I-295 South. Take I-295 South about 30 miles to Route 42 South. Take Route 42 South about 3 miles to Route 55 South. Take Exit 32B (Route 56 West). See below.

From Route 55: Take Exit 32B, (Route 56 West). Follow Route 56 West 3.3 miles. At the second traffic light, turn left onto Morton Ave., Route 634 South. After exactly 1.0 mile, turn right onto Bridgeton Ave. (Route 666 West). Training Center is 1.5 miles down on the left.

From Route 77 South: To Rosenhayn Ave., Route 659 East. Follow Rosenhayn Avenue to Bridgeton Avenue, Route 666 East. Training Center is on the right just past The Cumberland County Technical Education Center.

GLOUCESTER COUNTY FIRE ACADEMY**200 Shady Lane, Clarksboro, NJ 08020, 856-423-4127**

From I-295 Southbound: Take Exit 18 (Mt. Royal, Clarksboro). At the top of the ramp and at the traffic light, turn left. Pass the BuckThorn Traveler's Plaza on the right. Proceed through the next traffic light and travel 1.5 miles to the next traffic light. Proceed through the light and immediately bear to the right (County House Road). NOTE: The Mount Royal Fire Company must be on your left. The Fire Academy is about .5 mile on your left.

From I-295 Northbound: Take Exit 18 (Mt. Royal, Clarksboro, Paulsboro). At the top of the ramp and at the traffic light turn right. The Buckthorn Traveler's Plaza will be on your right. Follow directions as stated above.

From the Atlantic City Expressway or RT 322: From the AC Expressway take Exit 38 for Williamstown (RT 536 Sicklerville Road). Follow to large intersection (see Geets Diner on your right). Proceed through the intersection and follow all signs for RT 322 West. Proceed about 15 miles. You will pass over RT 55. Shortly thereafter you will pass through 2 traffic lights. Note a large WaWa on your left. Travel about 1 mile and bear right onto RT 667. Follow RT 667 for 4 miles. At the traffic light for RT 667 and RT 45, the name will change to Cohawkin Road. Continue straight for about another 4 miles. There will be a large cemetery on your left. Turn right onto County House Road. (There is a sign, "Shady Lane" Juvenile Shelter, Fire Academy). Proceed about 1 mile, the Fire Academy building can be seen on your right. It is the closest building to the road.

From RT 55: Exit RT 55 at RT 322 West and follow directions above.

This matrix is provided to assist you in determining which programs receive CEU credit toward renewal of Uniform Fire Code, Uniform Construction Code and Fire Instructor Certifications. An X indicates that credit will be issued to a specific certification discipline. Please note that more than one credit type can be issued for the same program. The CEU credit awarded is identified in the eighth column. Please use this matrix to assist your program selection.
