|-------------------------------------------------------------------------------------|---------|-------------------------------------------------------------------------------------|----------|
|  | 0 - 10  |  | 30 - 40  |
|  | 10 - 20 |  | 40 - 100 |
|  | 20 - 30 |                                                                                     |          |

A number line illustrating the conversion from miles to kilometers. The top scale is labeled in miles (mi) with major tick marks at 0, 0.15, 0.3, and 0.6. The bottom scale is labeled in kilometers (km) with major tick marks at 0, 0.25, 0.5, and 1. The line is divided into segments by smaller tick marks, showing the relationship between the two units.
