# Family and Community Partnership Services

The Family and Community Partnerships' Community Program Directory provides public access to statewide resources that are designed to support family success and keep children safe. The programs and services listed are funded by the New Jersey Department of Children and Families' Family and Community Partnerships (FCP). FCP is built on and comprised of best-practices and technical-assistance teams committed to building partnerships with the goal of developing a robust network of prevention support and services that are culturally responsive, strength-based and family-centered. This directory is updated regularly and available online at [www.nj.gov/dcf](http://www.nj.gov/dcf)

## Family Support Services

### Family Success Centers

Family Success Centers (FSC) are warm and welcoming, neighborhood-based gathering places that create home-like environments for community residents with the goal of strengthening families, providing family support, and the prevention of child abuse and neglect. There is at least one FSC in each of New Jersey's 21 counties. FSCs exist to assist families by providing free and voluntary prevention services that encourage family interaction, through workshops, activities, groups and linkages to services.

### Kinship Navigator Program

The Kinship Navigator Program aids caregivers, such as grandparents, other blood relatives, and family friends who have taken on the responsibility of taking care of children until age 18 or (21 if the child is disabled), maneuver through various government networks to find formal and informal supports and services, including providing referrals for child care, support groups, medical coverage, legal services and housing assistance. Caregivers can call 2-1-1 to locate the agency providing assistance in their area.

# Early Childhood Services

## Home Visitation Programs

Family and Community Partnerships (FCP) oversees the implementation of an array of evidence-based Home Visitation (HV) services that provide early support to families with infants and young children across the state. Eligibility criteria for HV services vary by model, but typically programs begin working with families during pregnancy and continue until the child is age 2 or 3. Home Visiting services are voluntary and free for all families. Families are matched with trained and qualified professionals who provide information and support related to child development, healthy parent-child interaction, and the importance of early learning and school readiness. Home Visitors partner with families to provide connections to community resources to enhance family self-sufficiency and provide early screening for the detection of developmental delays.

FCP HV models include:

- ▶ Healthy Families (HF-TIP) – pregnancy/birth to age three
- ▶ Nurse-Family Partnership (NFP) – first-time pregnancy to age two
- ▶ Parents As Teachers (PAT) – pregnancy/infancy to preschool

In addition, this directory includes federally funded Early Head Start programs that provide home-based services to families from pregnancy to age 3. For a directory of New Jersey's Head Start programs go to the Head Start Locator at <http://eclkc.ohs.acf.hhs.gov/hslc/HeadStartOffices>.

## Strengthening Families: A Protective Factors Framework

Strengthening Families is an evidence-based approach that provides training and guidance to child care providers, who in turn engage and support parents/families of infants and young children who are enrolled in the child-care/family-child care setting.

The Child Care Resource Referral agencies (CCR&R) in each county are the trainers who work with the child-care/family-child care providers to incorporate the five Protective Factors and seven program strategies in the program's daily activities. The child-care providers learn new approaches on how to partner with parents and families in protecting, educating and caring for young children while promoting their social and emotional development.

For more information on Strengthening Families in your county, contact the Strengthening Families trainer(s) under the Early Childhood Services section in the directory.

# Early Childhood Services

## County Councils for Young Children

All 21 counties have established a County Council for Young Children (CCYC). The Councils were created to strengthen cooperative collaboration between parents, families, and local community providers with health, early care and education, family support, and other service providers. CCYC is a community organization for social service planning. This body of community members which includes parents, community residents and community providers, come together and receive training and technical assistance in parent leadership and shared leadership models. These approaches embrace and encourage parents/community residents to be active partners with service providers and community leaders. Together they identify the needs, aspirations and success of collective efforts to positively impact the health, education and well-being of children from pregnancy/birth to age 8 and their families. CCYC participants work together using the Strengthening Families Protective Factors Framework to engage parents and develop mutual goals and recommend creative strategies/solutions that respect the views and priorities of diverse families in the community.

The CCYC does not provide direct services to families. Each CCYC has a local lead agency and designated project coordinator who guides and supports the planning process, committee and work-group structure, and implementation to address priorities and advocacy efforts. The CCYC works closely with the local Central Intake to provide input/feedback about the availability, responsiveness and effectiveness of the service array within the community; and makes recommendations to strengthen local program coordination and integration. All concerned parents, community residents and community service providers and leaders who want to make a difference to enhance the lives of young children and their families are welcomed to join and be a part of the local CCYC in their community.

For more information on CCYC in your county, contact the CCYC lead agency in the Family and Community Partnership directory Early Childhood Services.

The agencies also provide community education and networking within their counties.

## Address Confidentiality Program Services

The New Jersey Address Confidentiality Program (ACP) was designed to assist individuals who, as a result of domestic violence, have relocated for their safety. Abusers use many strategies to locate victims of domestic violence. In many cases they use public records to get the new address of the person they have abused. This program limits the ability of an abuser to access information that would reveal the new location of an ACP participant. ACP provides eligible victims of domestic violence with a substitute mailing address, which has no connection to their actual location. This substitute mailing address may be used when creating new records with state or local government agencies.

*For non-emergency referrals and information call: 1 (877) 218-9133*

## Culturally Specific Services

### **Bolo Behen (Speak Sister)**

South Asian women face distinct cultural challenges when confronting domestic and sexual violence. Most have little or no knowledge of English, since it is not their native language. This plays a pivotal role in creating socio-cultural barriers. South Asian women who become victims of domestic and sexual violence live within the confines of these barriers. They remain silent or unaware of the assistance they could have from the outside world. Bolo Behen works with different faith-based leaders throughout Hudson County. From Jersey City to Secaucus and Weehawken, they have collaborated with leaders of temples, mosques, Islamic centers, Gurudwaras and beyond.

Bolo Behen facilitates groups called Community Chai-where women can come and express their problems and concerns fearlessly, openly and comfortably. People listen to each other's story and offer support. Our services are based on a holistic approach that addresses the large range of clients' needs. Using culturally and linguistically appropriate methods, we build trust with clients and create an environment where South Asian women feel safe, respected and understood.
