David P. Shields, Executive Director
Gloucester County Improvement Authority
109 Budd Boulevard
Woodbury, NJ 08096

Dear Mr. Shields:

The Department of Environmental Protection's Solid and Hazardous Waste Management Program is in receipt of the February 7, 2006 request for administrative action. This administrative action proposes to include a Research, Development and Demonstration (RD&D) project to be conducted by Innovative Recovery Products, LLC (IRP) at the Gloucester County Solid Waste Complex, South Harrison Township, New Jersey. Specifically, IRP will remove and recover metals from incinerator ash, prior to disposing the ash in the Gloucester County Improvement Authority landfill. This removal of the metals from the ash will ultimately preserve landfill space as well as the benefits associated with recycling this material.

Pursuant to N.J.A.C. 7:26-6.11(b) 13., the inclusion of the operation of a RD&D project pursuant N.J.A.C. 7:26-1.7 constitutes an approvable administration action. Therefore, this request is hereby approved as an administrative action pursuant to N.J.A.C. 7:26-6.11(f).

If you have any questions relative to this action, please contact Najwa N. Ali of my staff at (609) 984-9773 or email at Najwa.Ali@dep.state.nj.us.

Sincerely,

Guy Watson, Chief
Bureau of Recycling and Planning

Cc: Emmett E. Primas Jr., Assistant County Counsel
