

Selecting Focal Species

New Jersey's Native Wildlife
(Approximately 3,700 species)

New Jersey's Species of Greatest Conservation Need (SGCN) (656 species)

Priority Species of Greatest Conservation Need (Priority SGCN) (351 species)

"Upper Tier" Priority SGCN
(107 species)

Focal Species

These species will serve as a primary basis for assessing threats and developing actions in our revision of the New Jersey Wildlife Action Plan
