Baitfish	In waters herein to be stocked with trout during 1999, it is prohibited to net or trap any species of baitfish for the period March 2 to June 15th, except where the taking is otherwise provided for. In 1999 from January 1 to March 21 and after June 15, any species of baitfish may be taken from these waters provided they are limited to 35 per person per day. Any seine used cannot be greater than 10 feet long and 4 feet deep, and any minnow trap used may not be larger than 24 inches long, nor have a funnel mouth greater than 2 inches in diameter. Note: A fishing license or entitlement to fish without a license is required.			
<p>* See separate regulations for wild trout streams, fly fishing only, trout conservation areas, no kill, holdover trout lakes, trophy trout lakes. Delaware River and Greenwood Lake.</p> <p>** See separate regulations for Delaware River.</p> <p>*** Eels may not be taken from non-tidal waters by use of eel baskets, fykes or traps of any kind, except that eel weirs may be operated under permit from the division.</p>
