

AmeriCorps

SWP Position 900 Hour Part Time

2023-2024 Position Description

The New Jersey Watershed Ambassadors Program (NJWAP) is an environmental stewardship-oriented AmeriCorps program designed to raise awareness about water concerns. The New Jersey Department of Environmental Protection (DEP) has hosted NJWAP since 2000, and while the Program has evolved over the last 23 years, its main goals have remained the same: promote watershed stewardship through education and direct community involvement and monitor the health of our waterways through conducting stream assessments. Source water protection includes actions that are aimed at maintaining or improving the quality and quantity of the sources of drinking water and their contributing areas.

Members, also referred to as Source Water Protection or **SWP** Ambassadors, will engage in outreach and education campaigns that will lead to the protection of drinking water sources. These members will focus on increasing public knowledge and awareness of sources of drinking water, drinking water quality and water conservation.

Throughout the Program, Members grow professionally and interpersonally. Extensive training in highly sought-after skills in the environmental field is provided, including GIS (NJ Geoweb and AGO applications) , project management, and science communication. Members will exit the program better prepared to further their career in the environmental field. Interested applicants for the 2023-2024 program year should apply via the My AmeriCorps portal by July 20, 2023. To apply for one of the **3** part time **900 Hour** positions, indicate in your application interest statement that you are interested in serving as a **SWP (Source Water Protection) Ambassador**, and a location preference of North, Central, or Southern NJ region. Please note: Applications are evaluated as they are received. Enrollment is contingent on the DEP receiving the grant award.

Eligibility to Serve with the NJWAP:

- Must have a bachelor's degree or higher
- Desire to serve your community
- A valid driver's license, dependable car for service assignment travel
- Must be a U.S Citizen or provide required documentation of permanent residence
- Must commit to a 900-hr. term (25-30 hrs. per week)

6/21/2023

Member Duties:

Over the course of this 900-hour term of service (September- April), Members will perform the following service tasks:

Educational Presentations and Trainings (Subject to Change per grant year)

- 30 presentations with a focus on protecting and conserving drinking water
- Serve as project leads for Implementation of Water Conservation curriculum

Partnership Projects

- Minimum of 3 Partnership Projects with a focus on water conservation and protection.
- 1 Host Agency Project mutually chosen to best suit the Member's interests and the Host Agency's needs

Member Development/Community Outreach

- Attend Environmental Commission Meetings or Green Team Meetings to promote drinking water protection, conservation, and education.
- Conduct 2 Career/Profession of Interest Interviews with professional of choice.

Program Benefits: Education award upon successful completion of service. A living stipend up to \$13,235.00 will be evenly distributed bi-monthly, over the 8-month term of service. Receive a Segal education award of up to \$3,447.50 upon completion of all 900 hrs.
