

Instruction and Program Indicators

Directions for Indicators 1 through 7: A school district will receive points for each item up to the maximum points listed below, which varies by school district grade configuration (i.e., kindergarten through grade eight (K-8) or any span within K-8; kindergarten through grade 12 (K-12) or any span within K-12 that is not K-8 or grades nine through 12 (9-12); and grades 9-12 or any span within the high school grades). This grade configuration variation accounts for school districts that contain only high schools and, therefore, do not have student growth measures, and school districts that do not have high schools and, thus, lack graduation data.

Indicators 1 through 3, 6, and 7 reflect percentages (e.g. percent proficient, percent graduated) and each school district percentage will be multiplied by the maximum possible point value to determine the points earned for the indicator by the school district.

For example, “School District A” has an English language arts (ELA) achievement score of 80 percent, or .80. The achievement score is based on a number of factors identified in the indicators below. The points earned by School District A for the ELA achievement indicator would vary based on School District A’s configuration and would be calculated as follows:

- If School District A is any composition of K-8, the achievement score (.80) would be multiplied by the maximum possible point value of 10, which would earn the school district eight points for the ELA achievement indicator (.8 x 10 = 8).
- If School District A is any composition of K-12, the achievement score (.80) would be multiplied by the maximum possible point value of 7.5, which would earn the school district six points for the ELA achievement indicator (.8 x 7.5 = 6).
- If School District A is any composition of 9-12, the achievement score (.80) would be multiplied by the maximum possible point value of 15, which would earn the school district 12 points for the ELA achievement indicator (.8 x 15 = 12).

Indicators 4 and 5, which are indicators of academic progress, are based on school district’s median student growth percentiles (mSGP). Each school district’s mSGP is converted to a score that ranges from zero to one. School districts can refer to *the Median Student Growth Percentile Conversion Chart for NJQSAC* to find their scores. This approach is similar to the mSGP conversion method used for the AchieveNJ system, although the scale and point allocation differ in the NJQSAC application to account for the mSGP distribution properties at the school district level. The calculation for Indicators 4 and 5 are treated the same as the example above because the scores ranges from zero to one. The mSGP converted score that is a decimal from zero to one, is multiplied by the maximum value of the indicator which will yield the NJQSAC score.

The school district is comprised of any composition of:	K – 8	K – 12	9 – 12

b.	Submission of [[the]] data collection applications [[located on]] via the Department’s website by the established deadlines.	3
4.	The school district has policies and procedures that require the use of multiple sources of data to monitor student achievement and progress and to evaluate the effectiveness of programs, initiatives, and strategies.	3
5.	The district board education adopts and annually distributes to staff, parents, and students, policies and procedures to address the equitable application of a code of student conduct that establishes expectations for academic achievement, behavior, and attendance. The policy provides comprehensive tiered behavioral supports and responses to violations that include positive disciplinary practices that minimize exclusionary practices, such as suspension and expulsion; and details students’ due process rights. (N.J.A.C. 6A:16-7.1)	5
6.	Twice per year, the CSA presents to the district board of education a summary of violence, vandalism, substance abuse, and harassment, intimidation and bullying (HIB) incidents submitted on the Department’s incident reporting system. The CSA or designee submits the final data verification to the Department by July 15. (N.J.A.C. 6A:16-5.3)	5
7.	The school district implements a process to ensure the school safety/school climate team in each school, with support from the CSA: (1) reviews and takes action to strengthen school climate policies; (2) educates the community, including students, teachers, staff, and parents, to prevent HIB; (3) provides professional development opportunities that address effective practices of successful school climate programs or approaches; and (4) completes the HIB self-assessment. The CSA submits to the Department the statement of assurance and the district board of education approval date for the HIB self-assessment for each school in the school district by September 30. (N.J.S.A. 18A:17-46 and 18A:37-14 through 18 and N.J.A.C. 6A:16-7.7)	7
