These financial statements are the responsibility of the school’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

As described in Note 3, these financial statements were prepared in conformity with the accounting practices prescribed by the Division of Finance, Department of Education, State of New Jersey which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material aspects, the assets, liabilities and retained earnings of ABC School for Students with Disabilities, in the County of ____________, State of New Jersey, as of June 30, 20__, and its revenue, expenses, and changes in fund balances for the fiscal year then ended on the statutory basis of accounting described in Note 2, and also presently fairly allowable costs, certified actual cost per student, and the final tuition rate charged in accordance with N.J.A.C. 6A:23-4.1 through 4.16.
Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the ABC School for Students with Disabilities basic financial statements. The accompanying supplementary information listed in the foregoing table of contents is presented for the purposes of additional analysis as required by the Division of Finance, Department of Education, State of New Jersey and in accordance with N.J.A.C. 6A:23-4.1 through 4.16 regarding allowable costs, certified actual costs per student and the final tuition rate charged and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all materials respects, in relation to the financial statements taken as a whole.

This report is intended for the information and use of the audit committee, management of the ABC School for Students with Disabilities, the New Jersey State Department of Education and other state and federal awarding agencies and pass-through entities for the purpose of determining the certified actual cost per student and the final tuition rate charged public school districts for services to disabled students and is not intended to be and should not be used by anyone other than these specified parties.

AUDITOR’S REPORT ON INTERNAL CONTROLS

To the Board of Directors
ABC School for Students with Disabilities

We have audited the financial statements of the ABC School for Students with Disabilities in the County of ____________________, State of New Jersey, as of and for the fiscal year ended June 30, 20__, and have issued our report hereon dated ____________________, 20__. As described in Note 2, these financial statements were prepared in conformity with accounting principles and practices prescribed by the Division of Finance, Department of Education, State of New Jersey which is a comprehensive basis of accounting other than generally accepted accounting principles. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered ABC School for Students with Disabilities internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the ABC School for Students with Disabilities’ internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the ABC School for Students with Disabilities’ internal control over financial reporting.

A control deficiency exists when the design or operation of control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity’s ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity’s financial statements that is more than inconsequential will not be prevented or detected by the entity’s internal control.
A material weakness is a significant deficiency, or combination of deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity’s internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial statements that we consider to be material weaknesses, as identified above.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the ABC School for Students with Disabilities financial statements are free of material misstatement, we performed tests of its compliance with certain provision of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under the audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey.

This report is intended solely for the information and use of the audit committee, management, the ABC School for Students with Disabilities, the New Jersey State Department of Education and other state and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
