The term "transition services" means a coordinated set of activities for a child with a disability that—
(A) is designed to be within a results-oriented process, that is focused on improving the academic and functional
achievement of the child with a disability to facilitate the child's movement from school to post-school activities,
including post-secondary education, vocational education, integrated employment (including supported employment),
continuing and adult education, adult services, independent living, or community participation; (B) is based on the
individual child's needs, taking into account the child's strengths, preferences, and interests; and (C) includes
instruction, related services, community experiences, the development of employment and other post-school adult living
objectives, and, when appropriate, acquisition of daily living skills and functional vocational evaluation.

20 U.S.C. §1401(34)

"Beginning at Age 14" Transition Statement

Beginning with the IEP in place for the school year when the student will turn age 14, or younger if determined
appropriate by the IEP team, one of the components that must be included in the IEP are strategies and/or
activities that are consistent with the student’s strengths, interests, and preferences, and are intended to assist the
student in developing or attaining postsecondary goals. The following pages of this document contain examples of
activities/strategies that can be used to assist students who are unsure of their future plans to further identify and
clarify their preferences and interests for the development of postsecondary goals. These sample activities
/strategies are identified by an asterisk (*).

Another component of the IEP that must be included in the “beginning at age 14” transition statement is a
statement of any needed interagency linkages and responsibilities. Sample interagency linkages are included at the
end of this document.

Beginning with the IEP in place for the school year when the student will turn age 14, or younger if determined
appropriate by the IEP team, and updated annually: i. A statement of the student’s strengths, interests and preferences; ii.
Identification of a course of study and related strategies and/or activities that: (1) Are consistent with the student’s
strengths, interests, and preferences; and (2) Are intended to assist the student in developing or attaining postsecondary
goals related to training, education, employment and, if appropriate, independent living; ......... iv. As appropriate, a
statement of any needed interagency linkages and responsibilities; N.J.A.C. 6A:14-3.7(e)11i, ii, and iv.

"Beginning at Age 16” Statement of Transition Services

Beginning with the IEP in place for the school year when the student will turn age 16, or younger if determined
appropriate by the IEP team, the IEP must include a statement of transition services. The statement of transition
services includes a multi-year plan of strategies/activities that will assist the student to prepare for post-secondary
activities such as post-secondary education, vocational training, integrated employment (including supported
employment), continuing and adult education, adult services, independent living, and community participation.
The “beginning at age 16” statement of transition services does not replace the “beginning at age 14” transition
statement, but rather builds upon it to form a complete plan for the future.

For each activity/strategy specified in the “beginning at age 16” statement of transition services, IEP teams should
specify the expected date of implementation, (i.e. Spring 2016, Fall 2017). The dates of implementation can be
from the date of the IEP meeting to any date prior to the student’s expected date of high school graduation. The
person or agency responsible for arranging, providing and/or implementing each activity/strategy should also be
specified, and responsibilities should be shared among IEP meeting participants (student, parent, school staff, etc.).

The following pages contain examples of activities/strategies that can be used to assist students to prepare for their
desired post-school goals. The activities/strategies are organized by the seven areas contained in the
“age 16” statement of transition services; instruction, related services, community experiences, employment, post-
school adult living, daily living skills, and functional vocational evaluation. Whenever spaces are included in a
sample activity, provide information needed to individualize the activity to the needs of the student.
### Sample Transition Activities/Strategies

**INSTRUCTION**

1. Use the following tools/methods to gather information regarding (the student's) desired post-secondary educational involvement: ____________________________________________ *

2. Visit the following college campuses and meet with student support services: ________________________________________________________________ *

3. Enroll in career awareness course entitled ______________________ in the __ grade*  

4. Enroll in adult living course entitled ______________________ in the __ grade*  

5. Tour post-school occupational training programs*  

6. Obtain, complete, and submit applications to the following colleges: ______________  

7. Obtain, complete, and submit applications for tuition assistance  

8. Learn about Section 504 of the Rehabilitation Act  

9. Explore admission requirements for enrollment at Vocational/Technical School  

10. Learn about the process for accessing apartments for rent  

11. Obtain information on continuing and adult education opportunities  

12. Learn about the Americans with Disabilities Act by attending a workshop at ______  

13. Learn about students' rights under IDEA and N.J.A.C. 6A:14  

15. Enroll in Internship/Apprenticeship program in the __ grade  

16. Participate in the following extra curricular activities: ____________________________  

17. Enroll in the following Adult/Continuing Education courses: ____________________________  

18. Enroll in the following Community College Courses: ____________________________  

19. Enroll in “parenting” classes in the __ grade  

20. Learn about time management strategies  

21. Enroll in SAT prep course in the __ grade  

22. Learn about community agencies that provide services and support to people with disabilities by ____________________________  

23.  

24.
### RELATED SERVICES

1. Use existing information and gather new information to determine if (the student) is likely to need transportation assistance, a type of therapy, or other related service after graduating high school*

2. Obtain a driving evaluation from ________________________________

3. Explore county transportation options on the web at:

5. Obtain sources of support for coping with difficult life situations by contacting ______

6. Visit the community mental health agency ______________________________ located at ________________________________________________________

7. Identify potential post-school providers of recreation therapy

8. Identify potential post-school providers of occupational therapy and potential funding sources

9. Visit potential post-school providers of physical therapy

10. Learn about potential post-school providers of speech therapy

11. (If student is receiving SSI) Write a Plan for Achieving Self-Support (PASS) and submit to SSA to set aside income and/or resources for transportation to and from a job

12.
