Board Of Public Utilities

Attn: Energy Master Plan

Dear Governor Murphy,

New Jersey has the ability to be a national leader on clean energy. First we have to stop making things worse. Please urgently impose a moratorium on all new fossil fuel projects while we figure out what our state's clean energy future looks like.

Additionally, the final Energy Master Plan must:

- Amend clean energy definition to only include renewables like solar and wind not fossil fuels
- Aggressively pursue emission reductions for all climate pollutants to meet IPCC recommendations by 2030
- Utilize total life cycle economic, social, and health costs of burning fossil fuels
- Accelerate new jobs in the green economy, especially with job training and a just transition

It is important that we make a difference now and act before it gets to a tipping point of no return. Our children deserve a future with clean water.

Sincerely,

Hattie Comer

Dear Governor Murphy,

New Jersey has the ability to be a national leader on clean energy. First, we have to stop making things worse. Please urgently impose a moratorium on all new fossil fuel projects while we figure out what our state's clean energy future looks like.

The Master Plan of Energy must include:

- amend clean energy definition to only include renewable + solar + wind not fossil fuels.
- aggressively pursue emission reductions for all climate pollutants to meet IPCC recommendations by 2030
- utilize total life cycle economic, social, health costs of burning fossil fuels
- accelerate new jobs in the green economy, especially with jobs

I am a mom of 2 young girls and want them to enjoy our mother Earth's beauty.

Dear Governor Murphy,

As you know New Jersey has the ability to be a national leader on clean energy. First we have to stop making things worse. Please urgently impose a moratorium on all new fossil fuel projects while we figure out what our state's clean energy future looks like.

Additionally, the final Energy Master Plan must:

- ① amend clean energy definition to only include renewables like solar & wind, not fossil fuels
- ② Aggressively pursue emission reduction for all climate pollutants to meet IPCC recommendations by 2030
- ③ Utilize total life cycle economic, social and health costs of burning fossil fuels
- ④ Accelerate new jobs in the green economy, especially with job training and a transition that works for the workers

Thank you for taking the time to read this and think about it and act on it, again THANK YOU

Sincerely, Maurice Gagner

Dear Governor Murphy,

New Jersey has the ability to be a national leader in clean energy. Please don't make things worse. Please evaluate all new fossil fuel projects until we figure out what our clean energy looks like!

The final energy Master Plan must:

- Amend Clean energy definition to include renewables
- Aggressively pursue emission reductions
- Utilize total life cycle economic, social & health cost of burning fossil fuels.

We have control over our waters & our future depends on it!

Sincerely,

Heather & Rob Rotondi

Board of Public Utilities
Energy Master Plan

Dear Governor Murphy,

New Jersey has the opportunity to be a leader on clean energy.

The Energy Master Plan should include a comprehensive cost-benefit analysis to get the most carbon avoidance at the most cost-effective way, particularly energy efficiency.

Also, Electric Vehicles to reduce dependence on oil/gasoline, the biggest source of emissions in the state.

Sincerely,

Scott + Kristin Johnson

Dear Governor Murphy,

New Jersey has the ability to be a national leader on clean energy. First we have to stop making things worse. Please urgently impose a moratorium on all new fossil fuel projects while we figure out what our state's clean energy future looks like.

Additionally, the final Energy Master Plan must: Aggressively pursue emission reductions for all climate pollutants to meet IPCC recommendations by 2030. We need large-scale changes to the way our world produces and consumes food, including agricultural measures, moving towards plant-based diets and reducing food and agricultural waste.

Sincerely,

DEAR GOVERNOR MURPHY,

NEW JERSEY HAS THE ABILITY TO BE A NATIONAL LEADER ON CLEAN ENERGY. FIRST WE HAVE TO STOP MAKING THINGS WORSE. PLEASE URGENTLY IMPOSE A MORATORIUM ON ALL NEW FOSSIL FUEL PROJECTS WHILE WE FIGURE OUT WHAT OUR STATE'S CLEAN ENERGY FUTURE LOOKS LIKE.

SINCERELY,

John Schumacher
