**Subject:** [EXTERNAL] IEP Feedback

**With global scientist reporting that arctic ice is already melting at what was thought would be 2090 rates and with New Jersey one of the fastest warming most greenhouse gas emitting states in the union, and new fossil fuel infrastructures in the offing that emit filthy methane gas, dirtier to our atmosphere than even filthy coal, New Jersey can and should be a global leader in addressing our climate emergency. NJ has high rates of cancer and asthma. Earth Justice says it is literally criminal not to address the following issues with more vigor. From a family of top scientists of Yale and Columbia U., *I am aghast* at the findings presented in the Integrated Energy Plan. We of myriad top environmental non-profit orgs. *of and for the people*, demand you take all steps to address these critical structural deficiencies before finalizing the IEP and EMP. Improvements to the IEP should include:**

- any modeling scenarios that cut NJ's emissions 45% before 2030 as recommended by IPCC 2018 report **and as other states are doing.**
- modeling for a goal of carbon-free energy for New Jersey as other states, NY, Idaho, Wash. State, Colorado, CA.etc. are doing. No excuses.
- **modeling for immediate moratorium on any new fossil fuel infrastructure *which would be criminal to allow***
- front loading emission reductions to have the most significant impact on our **climate CRISIS emergency**
- accurately estimating the global warming potential of short-lived climate pollutants like methane and black carbon
- counting social **and literal LIFE costs** of continued reliance and use of fossil fuels **which are now utterly murderous of the children's future.**
- flexibility to use the best of some plans now and others later
- **valuing VITAL public input**
- consideration of potential impact of future regulatory and technological changes
- any mechanisms or recommendations of how to decrease fossil fuel use **by 2030 as the Republican Governor of Idaho and the Democrat Governors of New York and Washington State have pledged to do. (What's wrong with overheating NJ's gov't reps. and gov. What's keeping them from being moral on this VITAL, DEATH DEFYING, CLIMATE CRISIS EMERGENCY ISSUE. There is ONLY 8 1/2 yrs. to expend completely the emissions budget before there is NO CORRECTION of the climate as it reacing a tipping point of no correction THIS IS SCIENTIFIC TRUTH. Earth Justice finds the IEP immoral and unethical to the survival of life. Good green jobs can save life in NJ. No excuses. )**  
**Thank you if you will actually pay attention to this message.**

*Earthly Blessings,*
