

# **Annual Institutional Profile Report 2012**

**Center for Institutional Effectiveness** 

## **Preface**

I am pleased to submit the 2012 Annual Institutional Profile (AIP) for Bergen Community College.

Submission of the attached report fulfills the 1994 Higher Education Restructuring Act mandate to "prepare and make available to the public an annual report on the condition of the institution." The form and content of the report is established by the Office of the Secretary of Higher Education, and the performance indicators and institutional information in the AIP have been compiled and arranged by the Center for Institutional Effectiveness at Bergen Community College. The Annual Institutional Profile provides a summary of the relevant institutional data, as well as the College's accomplishments and contributions to our community.

#### **College Overview**

Bergen Community College was founded in 1965 to provide accessible, affordable, and comprehensive community education services for the Bergen county region. Construction of the permanent campus began in 1969 in Paramus, and over the past 42 years, the college expanded its main campus to include an expansive library, theater, student center, and new buildings housing additional classroom space, and state-of-the-art technology, art, music, and communications facilities. In 1970, the Ciarco Learning Center in Hackensack, NJ was founded to provide non-credit education and counseling services including GED and adult ESL courses. Most recently, in an attempt to expand its offerings to the southern portion of Bergen County, a new satellite site, Bergen Community College at the Meadowlands, began offering courses at a newly-purchased facility in Lyndhurst, NJ. As of Fall 2011, Bergen Community College enrolled over 17,000 students in degree programs, with an additional 10,000 more enrolled in continuing and adult education programs.

#### **Mission Statement**

Bergen Community College educates a diverse student population in a supportive and challenging academic environment that fosters civility and respect. The College offers a comprehensive set of accessible, affordable, high-quality credit and non-credit courses as well as degree and non-degree programs. Bergen provides life-long learning opportunities for all members of the community. The College responds to community needs through work force training and continuing education, and by developing programs for employers.

#### Statement of Vision

As a college of choice, Bergen Community College provides a comfort level that enables students of all abilities to mature as learners and engaged citizens. A leading community college in the nation, the College creates a stimulating, rigorous, and inclusive learning environment. Use of innovative technology enhances learning experiences and widens access to learning media. Community and business leaders value the College as a reliable partner and principal provider of work force development. Bergen County residents of all ages and cultural backgrounds appreciate the College as the hub of their educational and cultural activities.

All information supplied in the following Institutional Profile, prepared by the Center for Institutional Effectiveness at Bergen Community College, is accurate and complete to the best of my knowledge.

Dr. B. Kaye Walter
