APPENDIX A:

FACULTY PUBLICATIONS BIBLIOGRAPHY
Dear WPU Community,

The David and Lorraine Cheng Library is pleased to present its annual author bibliography in a new format, which we hope you will find attractive. With this edition, we have introduced the practice of using book jacket images to highlight the books authored or edited by our faculty and staff.

Our collaboration with the Senate Research Council and our participation in Research and Scholarship Day continues to be rewarding. It is the perfect opportunity to showcase research that has resulted in the publication of scholarly work. It is here that the impact of libraries is most evident – when reading leads to ideas, which lead to research, which leads to publications and standing in the profession.

This edition also marks the beginning of a permanent, comprehensive database that will include the citations of all publications authored or edited by our faculty and staff. Again, we will depend on the authors themselves to self-report. Please look for the database to be unveiled by September 2010.

We are pleased to honor our colleagues with this bibliography and our annual recognition reception and we look forward to similar celebrations in the future.

Sincerely,
Anne Ciliberti, Ph.D.
Director of Library Services
