Instructions:

- **Current Marital Status** - Print an "X" in the box that represents the applicant's current marital status. Print an "X" in only one box
- **NOTE:** If an applicant is separated from his/her spouse, the applicant should contact PAAD and request an 'Affidavit of Separation' form, which must accompany the application.

Question 7: Income Part I (Yearly Railroad Retirement, Veterans, Other Pensions, Annuities, Other Income)

PAAD will use this information to determine PAAD income eligibility. **NOTE:** This question does **NOT** ask the applicant or spouse (if applicable) to include income from Social Security Benefits, Wages, Self-Employment, Interest, or Dividends. These sources of income will be asked for in Questions 10 and 14.

Social Security will compare the information on this application with data obtained from other Federal agencies and Social Security's own benefit records to determine LIS eligibility. They may contact the applicant to resolve discrepancies.

Instructions:

Question 8: Decrease in Income

Since the data Social Security obtains from other Federal agencies may not be as current as the information on this application, Question 8 may enable Social Security to resolve discrepancies without contacting the applicant. Income information available to Social Security may be up to two years old. This question will help Social Security obtain more updated income information.

Instructions:

Indicate if any of the income amounts that were listed in Question 7 have decreased in the last two years by printing an “**X**” in the **YES** or **NO** box.

Question 9: Has the applicant or spouse worked in the last two years?

This question is included for the same purpose as Question 8.

Instructions:

- If the applicant and/or the spouse if married and living together have worked in the last 2 years, put an “X” in the appropriate box (es).

Question 10: Income Part II (Yearly Wages and Self-employment)

Question 10 collects information about the applicant's and spouse's wages or self-employment income (or loss). PAAD will use this information to determine PAAD income eligibility. Social Security will compare the information on the PAAD application with data obtained from other Federal agencies. If Social Security identifies any discrepancies, they may contact the applicant to resolve them.

Instructions:

Question 11: Decrease in Wages or Self-employment

Similar to Question 8, Question 11 may enable Social Security to resolve discrepancies between the earned income amounts listed on this application and the data available in our records and from other Federal agencies without contacting the applicant.

Instructions:

- Indicate if any of the amounts that were listed in Question 10 have decreased over the last two years by printing an “X” in the **YES** or **NO** box.

Question 12: Has The Applicant/Spouse Recently Stopped Working or Plan To Stop Working?

- Indicate the month and year that applicant and/or the spouse has recently stopped working or plans to stop working in the boxes provided. Use two digits for the month and four digits for the year. For example, if the applicant plans to stop working in August of 2013, enter 08/2013.

Question 13: Work Related Expenses for the Disabled and Blind

Under the applicable SSI rules, certain work-related expenses of individuals who are disabled or blind and under age 65 may be excluded from their earned income. If an applicant whose Social Security's records indicate he/she is disabled or blind checks "Yes" to this question, Social Security will automatically exclude a standard amount of work expenses. Furthermore, Social Security will notify the applicant of the amount that Social Security has used and give him/her the opportunity to provide evidence that the expenses (and thus the amount excluded) are higher. This question will notify Social Security if the applicant is entitled to impairment related work expenses (IRWE) or blind work expenses (BWE). Social Security will exclude the average amount of IRWE and BWE from the applicant's wages or self-employment income.

NOTE: PAAD does **NOT** take work-related expenses into account when making PAAD eligibility determinations.

Instructions:

- If the applicant is single, divorced, separated or widowed and 65 or older, skip this question.
- If the applicant is married and living with his or her spouse and both are 65 or older, skip this question.
- **NOTE:** According to Social Security, applicants 65 or older are classified as aged applicants and are no longer classified as disabled applicants. Therefore, Social Security does **NOT** exclude work related expenses for applicants who are 65 or older. Refer to Question 13 on the PAAD application for examples of what qualifies as work-related expenses and indicate if the applicant and/or the spouse (if applicable) must pay for these expenses by printing an "X" in the **YES** or **NO** box(es).

Question 14: Income Part III (Yearly Social Security, Medicare Part B, Medicare Part D, Interest, Dividends, IRA distribution)

These questions enable PAAD to identify income sources counted towards PAAD eligibility determinations. Instructions:

For all income figures, do **NOT** include cents. Round up to the nearest dollar.

Question 15: Asset Screening

This is a screening question to determine eligibility for federally funded extra help with prescription drug costs. It is used by Social Security to quickly screen applicants who are not eligible for the federally funded extra help based on assets (defined here as savings, investments and real estate other than the applicant's home and property on which it is located). The asset levels listed in the question (\$13,300) for a single person and \$26,580 for a couple) are the maximum asset levels for 2013 defined by law after allowing for the \$1,500 burial exclusion (\$3,000 for a couple). **NOTE:** PAAD does **NOT** use asset information for PAAD eligibility determinations.

Instructions:

- Calculate the total value of all assets that the applicant (and the applicant's spouse if married and living together) have. Compare that total to the asset limit of \$13,300 for a single person and \$26,580 for married couples.
- Remember that liquid assets are counted. Liquid assets are cash and investments that normally can be converted to cash within 20 workdays. In addition, property other than primary residence is counted.
- Some examples of liquid assets are stocks, bonds, mutual fund shares, promissory notes, and mortgages on property other than your principal place of residence.
- **DO NOT** include the applicant's home, vehicles, burial plots or personal possessions in this answer.

In this question, the applicant attests to the value of the major categories of assets that he/she owns. Social Security will compare the information on the PAAD application with data obtained from other Federal agencies. In addition, this information will be used to screen applicants for Medicare Savings Programs (MSP): Specified Low-income Medicare Beneficiary (SLMB) and Qualified Individual 1 (QI1). **NOTE:** PAAD does **NOT** use asset information for PAAD eligibility determinations.

Instructions:

- Each spouse must complete his/her own PAAD application and list the combined total of assets on both applications.

Question 18: Money Set Aside for Funeral Expenses

Social Security uses this question to determine if a portion of the assets listed in Question 16 can be excluded. Social Security excludes up to \$1,500 of the asset entered in Question 16 (\$3,000 for a couple), if the applicant and/or spouse indicate that they expect to use the asset for funeral or burial expenses. **NOTE:** PAAD does **NOT** count funds set aside for funeral expenses when determining PAAD eligibility.

Instructions:
