

Homeland Security Exercise and Evaluation Program (HSEEP) Training Course and Train-the-Trainer Course

HSEEP Training Course and Train-the-Trainer

What is the HSEEP Training Course?

The HSEEP Training Course incorporates exercise guidance and best practices from the HSEEP Volumes. Throughout the course, participants will learn about topics including exercise program management, design and development, conduct, evaluation, and improvement planning.

The HSEEP Training Course is an interactive course that allows participants to share personal lessons learned and best practices while gaining practical experience. In addition to the instructor-led course presentations, the course includes small group activities, videos, and group discussions. The course also provides overviews of HSEEP-related initiatives such as technology (e.g., the HSEEP Toolkit) and capabilities-based planning (e.g., Target Capabilities List [TCL]). This blended approach will give participants hands-on experience that readily translates to real-world exercise skills. Activities include creating exercise documentation, conducting exercise planning conferences and briefings, and practicing exercise evaluation.

The course has been developed by the U.S. Department of Homeland Security (DHS) using input from Federal partners, subject matter experts (SMEs), and State and local representatives.

HSEEP is a capabilities-based exercise program that includes a cycle, mix, and range of exercise activities of varying degrees of complexity and interaction. The purpose of HSEEP is to build self-sustaining exercise programs and provide a standardized methodology for designing, developing, conducting, and evaluating all exercises.

Note: This training course is an expansion of the Volume II Exercise Evaluation and Improvement Training Course and includes more details on exercise program management, planning, and conduct, as well as evaluation and improvement planning.

HSEEP Training Course Modules and Objectives

This HSEEP Training Course is organized into seven modules. All seven modules will be delivered during the course. The TtT includes an additional half-day Train-the-Trainer session.

Module 1: Introduction

Participants will learn the purpose, background, and scope of the HSEEP Training Course.

Module 2: Exercise Program Management

Participants will learn exercise program management fundamentals to provide the foundation necessary to successfully develop and manage a self-sustaining HSEEP.

Module 3: Foundation

Participants will learn how to build a foundation for an HSEEP exercise, including organizing the Exercise Planning Team, scheduling planning conferences, and outlining a project management timeline.

Module 4: Design and Development

Participants will learn the conceptual and logistical differences between the design and development phases of discussion-based and operations-based HSEEP exercises.

Module 5: Conduct

Participants will learn how to successfully execute discussion-based and operations-based HSEEP exercises.

Module 6: Evaluation

Participants will learn how to evaluate discussion-based and operations-based HSEEP exercises to identify areas for improvement.

Module 7: Improvement Planning

Participants will learn how to develop and implement Improvement Plans to increase preparedness.

Train-the-Trainer

Participants will review adult learning principles, perform teach backs, and learn strategies for delivering the HSEEP Training Course to others within their agencies.
