1035 Parkway Avenue, PO Box 600, Trenton, New Jersey 08625-0600

Baseline Document Change Announcement

ANNOUNCEMENT: BDC19S-04

DATE: August 26, 2019

SUBJECT: Value Engineering Proposal
- Revision to the 2019 Standard Inputs, Subpart 104.02.01

Subpart 104.02.01 of the 2019 Standard Inputs has been revised in order for the Project Manager to include a list of Value Engineering Proposals the Department will not consider. The reason is that for certain large complicated projects where the Department has placed a great deal of effort into a particular aspect of the design, the Department does not want the Contractor to initiate a VE proposal.

The proposed changes to Standard Input, SI2019 are as follows:

104.02 VALUE ENGINEERING

104.02.01 Purpose and Scope

1*****1

**INCLUDE THE FOLLOWING LIST OF VE PROPOSALS THE DEPARTMENT WILL NOT CONSIDER,
OTHERWISE DELETE**

SME CONTACT – PROJECT MANAGER

THE FOLLOWING IS ADDED:

The Department will not consider the following as (a) VE Proposal(s):

1*****1

Implementation Code R (ROUTINE)

Changes must be implemented in all applicable Department projects scheduled for Final Design Submission at least one month after the date of the BDC announcement. This will allow designers to make necessary plan, specifications, and estimate/proposal changes without requiring the need for addenda or postponement of advertisement or receipt of bids.
