# NOTES

## Confluence by Artist Clyde Lynds

Our cover design features the recently completed fountain seen from the entrance to the New Jersey State Capitol Plaza. The artist created a 35-foot high fountain constructed of stainless steel, aluminum and granite; a granite observation platform engraved with an historic map of Trenton; an oval seating wall with the names of every city and town in New Jersey etched in granite; and two entrance sculptures of stainless steel and cast concrete with fiber-optic embedments that depict the night sky when Trenton became the state capital.

Entitled *Confluence*, this project for the New Jersey State Capitol Plaza was created to be an unique experience that would embody the concept of Trenton as the heart of New Jersey and acknowledge its importance as the capital. Located between the State House Annex and the New Jersey State Library, the artist's design relates visually to the classically informed buildings of the State House and the Annex in an updated, modern way.

Rooted in tradition, the entry sculptures and fountain use technology to make a distinctive contemporary statement. With variety and movement they create an experience both powerful and beautiful to see. Every New Jersey resident will discover some personal relevance here through the naming of their cities and towns on the 500-foot granite seating wall. Others will see a declaration of pride in New Jersey and an affirmation of its future.

**Commissioned by:**

- State Capitol Joint Management Commission
- New Jersey Building Authority
- New Jersey State Council on the Arts
- Division of Property Management and Construction

The artwork was made possible through the Public Building Arts Inclusion Act of 1978, which provides up to 1.5% of construction costs on new or renovated State buildings for fine artwork. The New Jersey State Council on the Arts/Department of State administers the program.
