System Overview

The Appointment System enables the User to perform the following functions:

- New Patient Registration
- Retrieve User Name
- Retrieve Password
- Schedule Appointment
- Manage Appointment
- Cancel Appointment
- Profile Update
- Feedback

Menu Options

- Schedule Appointment
- Manage Appointment
- Profile Update
- Feedback

Application Access

1. Open the browser and enter the URL:
   URL to Application in separate email
2. Press Enter or click Go
3. The login page of the application appears as in Figure 1.1 Login Screen

![Figure 1.1: Login Screen](image-url)
1. Click **I am a new User** radio button on the login screen.

2. This will open the **Patient Registration - Contact Information** as shown in Figure 2.1

3. Fill in the details in the fields marked with asterisk.

4. For the Email Address and Confirm Email Address, you can’t copy and paste the content. **IMPORTANT: You must enter a valid email address in order to receive confirmation and reminder emails.**

5. If you wish to register for your spouse, then you need to click on **Do you want to register your spouse** check box as shown in Figure 2.2. Note: this feature may not be available to you.
6. Click on **Register** button to get registered. This will take you to **Manage Credential Screen** where you will give the Security Question and Answer as seen in **Figure 2.3**

7. Select the Security Question and answer and click on Update Security Question Information. This will take you to Schedule Appointment Page.

**Schedule Appointment**

1. After successful login you will get the Schedule Appointment page as shown in **Figure 3.1**
2. The values for Client Name and Program will be grey out and fixed.

3. Select the value for State from **State** dropdown menu.

4. The corresponding value for City and Site will be populated. Select the value of City from **City** dropdown and for Site from **Site** dropdown menu as shown in Figure 3.2

5. Here **Click to Manage Appointment** button will be disabled as there is no appointment in the name of this user to manage or reschedule.

6. After selecting the **Site** the values for the **Clinics** available will be populated.

7. The list of **Clinics** associated with that particular Site will be populated with the radio button as shown in Figure 3.2. This shows the list of clinics which are going to take place in the future. This does not show the expired clinics.

8. Select the value of Clinic by clicking on the radio button against the clinic.

9. Click on **Click To Schedule Appointment** button. This will open the Clinic Layout with the Appointments Available and color Legends to indicate **Available, Unavailable, Waitlist** and **Your Schedule Slot** as shown is Figure 3.3
10. Click on the space with text as “Click here to schedule a time slot” on the time slot as desired to schedule the appointment.

11. This will lead to Appointment Confirmation page Figure 3.4
12. Answer the various questions by selecting the radio buttons and checkboxes and click on Confirm Appointment button. (Note: there may not be any questions to answer depending on the program)

13. This will confirm your appointment on the desired slot and show the message as “Your appointment has been booked. A confirmation email has been sent to your email Address. Your Appointment Date: 07/30/2010, Appointment Start Time: 10:00 AM, Appointment End Time: 10:30 AM” as shown in Figure 3.5. Here you will receive the email from Admin regarding your appointment confirmation.

14. When you click on Cancel Appointment button, this will take you back to the Schedule Appointment page.

15. When you hit on Print button, this will print the screen of the appointment scheduled.

16. Click on Exit button, this will make you logout of the application.
Manage Appointment

1. Select the **Manage Appointment** tab under **Appointment** menu as shown in *Figure 4.1*

![Figure 4.1 Manage Appointment](image)

2. Screen as in *Figure 4.2* appears displaying the current appointment

![Figure 4.2 On selecting Manage Appointment](image)

3. Click on Reschedule button. This is show an alert message “*Do you want to Reschedule this appointment?*” as shown in *Figure 4.3*

![Figure 4.3](image)
4. Click on **Cancel** button to remain on the same page.

5. Click on **OK** button, this will open the Reschedule Appointment page as shown in Figure 4.4. Here the user can **Reschedule** his/her appointment time for the same clinic based on the availability of the slots. The **green strip** shows user’s already **Scheduled slot**. This also shows the number of appointments available out of total number of Appointment Available in a particular time slot.

6. Click on the space with text as “**Click here to schedule a time slot**” on the time slot as desired to schedule the appointment This shows the **Appointment Confirmation** page as shown in Figure 4.5.
7. Answer the various questions by selecting the radio buttons and checkboxes and click on **Confirm Appointment** button. This will show the message as “Your appointment has been booked. A confirmation email has been sent to your email Address. Your Appointment Date: “Date”, Appointment Start Time: “Time”, Appointment End Time: “Time””

8. Click on **Cancel Appointment** button. This will navigate back to **Reschedule Appointment** page.

9. Reselect the desired slot, this will again take to Appointment Confirmation page.

10. Select the various questions and click on **Confirm Appointment** button.

11. When the user hit on **Print** button, this will print the screen of the appointment scheduled.

12. Click on **Exit** button, this will make the user to logout of the application.

### Cancel Appointment

1. Select Manage Appointment from Appointment menu. This will show the Manage Appointment page as shown in **Figure 5.1**
1. Click on **Cancel** button. This will show the alert message as *Do you want to cancel this appointment* with Ok and Cancel button.

2. Click on **Cancel** button to keep the appointment as scheduled.

3. Click on **Ok** button.

4. This will cancel the appointment with the message as *The Appointment is Successfully Canceled and email sent to the user.* As shown in Figure 5.2
