Final Charge® Global Extended Life Coolant features a patented Organic Acid Technology (OAT) formula that delivers total cooling system protection for 600,000 miles of on-road use (6 years or 12,000 hours of off-highway use) without the use of Supplemental Coolant Additives (SCAs). The only maintenance required is the addition of Final Charge Extender at approximately 300,000 miles of on-road use (3 years or 6,000 hours of off-highway use). When required, top off the cooling system with Final Charge or Final Charge 50/50 Pre-Diluted Global Extended Life Coolant.
