## CONTINUING EDUCATION SEMINARS

The Center for Government Services (CGS) at Rutgers University assists the Division of Codes and Standards in the New Jersey Department of Community Affairs in offering more than 325 seminars required by law for Construction Code Enforcement Officials, Technical Assistants, and Multiple Dwelling Inspectors.

The mission of the Continuing Education Program is to further the professional development of code enforcement personnel by providing quality educational offerings through continuing education programs for licensed inspectors and their support staff. Together, our state and local governments are committed to protecting the health, safety, and welfare of all people throughout our communities to ensure that New Jersey continues to be a safe and desirable place to live.

### HOW TO USE THIS BROCHURE

For your convenience, we have included a grid of the seminars organized by the course number. It indicates duplicate and reciprocal credits, as well as if the seminar is available online. Credit is applicable only to those areas marked in the grid or noted in the course description. If you are unsure of the credit available and its applicability to your license, please confirm with the DCA prior to registering. The table also contains the page number where you can find full seminar descriptions along with dates and locations. The course descriptions are organized alphabetically by the seminar name.

### REGISTRATION INFORMATION

If your code enforcement license expires on July 31, 2019, please keep in mind that the fall semester runs from March through June and you must complete your continuing education requirements during this time period. All continuing education requirements must be met within the regularly scheduled program.

***Make sure you are selecting seminars that meet CEU requirements for your license.***

**Seminar Limits:** Unless your license expires on July 31, 2019, you will be limited to either two seminars or one per subcode in which you hold a license (whichever is greater). This will give everyone an equal opportunity to register. If you are interested in registering for additional seminars, you should call one week before the seminar start date.

**Unlicensed Registrants:** Architects, engineers, builders, and other unlicensed interested parties may attend seminars for a fee of \$125 for one-day seminars and \$250 for two-day seminars. Those interested parties who wish to participate may call anytime after the third week of registration.

**Registration Procedure:**

1. Select a first and second choice from the seminars offered. In case your first choice is filled, you can register for your alternate selection. The DCA staff person responding to your email or phone call can answer questions about the fulfillment of your education requirement for the current licensing cycle.

2. Email the DCA Education Unit at [education.unit@dca.nj.gov](mailto:education.unit@dca.nj.gov). Be sure you indicate your full name, your code enforcement license number, the course code, location and date of each seminar you have selected. Please note first and second choices. You will receive an emailed confirmation of your registration.

3. You may also call the DCA Education Unit at 609-984-7820 between the hours of 9:00 AM and 4:00 PM. Be sure to have the following information ready: your code enforcement license number, the course code, location and date of each seminar you have selected.

**Confirmation:** Confirmations are mailed approximately two weeks before the date of each seminar. If you have not received the confirmation one week prior to the seminar, call the Education Unit at 609-984-7820 to ensure that your name is on the roster. Walk-in registrations are not permitted.

**Duplicate Credit:** You have the option of receiving duplicate credit for certain seminars designated with a D prefix. At sign in, you will be asked to indicate whether or not you wish to receive duplicate credit.

**Reciprocal Credit:** *The Division of Fire Safety* will award reciprocal credit for those seminars marked with . In order to receive reciprocal credit, you must provide your Division of Fire Safety certification number at sign in. *The Board of Electrical Contractors* will award reciprocal credit for those seminars marked with . For some electrical seminars, the approval of the Board of Electrical Contractors is currently pending. Online GoToTraining electrical seminars are not approved by the Board for reciprocal credit. In order to receive reciprocal credit, you must provide a picture ID and your current contractor's license at sign in.

**Online Seminars:** Seminars marked with  are available online. Online GoToTraining seminars are identical in content and timing to our in person training programs (5 hours, 0.5 CEUs). Registration for the full day seminars will begin at 8:00 AM; the seminar instruction will begin at 8:30 AM and conclude no later than 4:00 PM. Evening sessions are scheduled between 6:30 PM and 9:00 PM with registration starting at 6:00 PM. Be sure that you can allot that entire period of time to attend. **You MUST log into GoToTraining at least ½ hour prior to start.**

All seminars are conducted entirely over the internet. **You MUST have operating microphone and speakers** on your computer to receive credit (no telephone participants), as you will not only need the speakers to hear the presentation, but also will have the opportunity to ask questions of the instructor and have them answered live as with any of our other seminars. To register for the online seminars and for more information, please visit: <http://tiny.cc/UCCOnline>

**Save the Date:** Seminars marked with asterisks (\*) will also be offered at the 2019 Building Safety Conference in Atlantic City on May 1, 2, 3. Please plan your spring semester accordingly.

**Special Inspector Certifications:** Certified special inspectors should register only for specific seminars meeting the continuing education requirements for their area of certification. Courses applicable to and counting towards renewal of a Structural Welding and/or Steel Bolting special inspector certification are identified by “**SS**” as noted in the grid. Likewise, Structural Concrete and Masonry special inspector seminars can be identified by “**SC**,” EIFS special inspector courses will be noted as “**SE**,” and, finally, Spray-Applied Fireproofing special inspector courses are denoted by “**SF**” in the grid. They are also specifically identified in the course descriptions.

**Cancellation Policy:** If you are unable to attend a seminar for which you registered, you must call the Education Unit to cancel your reservation as soon as possible. Failure to inform of your cancellation may result in future registrations being restricted.

**Digital/Electronic Devices:** The use of cell phones is disruptive in seminars. Digital/electronic devices are permitted only if you are using them for class work.

**Seminar Times:** All seminars begin at 8:30 a.m. and conclude by 4 p.m. You must arrive before 9 a.m. in order to be admitted to the seminar. Students who miss a substantial portion of a seminar or who leave early, for any reason, will not receive credit. Please bring your seminar confirmation card and UCC/HMD licenses with you to the seminar.

**Dress Code:** All seminar participants should follow a business-casual dress code. Many of the conference facilities will not allow students wearing shorts and flip-flops on their premises. Violating a facility dress code may be cause for dismissal from the course.

**ICC Preferred Provider Program:** The DCA/RU educational program is now an approved preferred provider with the International Code Council (ICC). The goal of the program is to support our licensees and other interested parties who also maintain ICC certifications. The use of ICC or Preferred Provider training is required as a condition of all ICC certification renewals. Our participation in the program will mean that our courses will be approved to also meet the ICC certification renewal requirements. Program participants need not do anything different: our seminar completion certificates will include our provider number (1091) as well as the ICC course number associated with the approval. If you have any questions regarding the Preferred Provider Program, please visit [iccsafe.org](http://iccsafe.org).

**Directions:** For directions to the seminars, please visit [www.cgs.rutgers.edu/codeenforcement](http://www.cgs.rutgers.edu/codeenforcement) or <http://tiny.cc/dca-directions>

**Please note that GPS and online maps might provide inaccurate directions. We strongly recommend that you visit one of the links above and follow the provided directions.**

- V** Boiler, pressure vessel and refrigeration technical credit

## SPRING 2019 SEMINARS

### **B820 NEW** **2018 IRC WALL BRACING MADE SIMPLE\***

**Instructor: Richard Perlman**

*Credit: building*

This seminar is designed to present the provisions of the 2018 International Residential Code sections R602.10 to R602.12 in a simple and easy to understand format. Participants will review such topics as braced wall lines, intermittent and continuous sheathing methods, simplified wall bracing, alternate braced walls, portal frames, attachment methods, and spacing criteria with clear and simple explanation of the associated text and tables. 0.5 CEU

Fri, Apr 5 - RWJ Conference Center, Hamilton

Fri, May 31 - Middlesex Cty Fire Academy, Sayreville

### **E308 ✎(pending) NEW** **2017 NATIONAL ELECTRICAL CODE UPDATE AND ANALYSIS OF CHANGES AND REVIEW TO ARTICLES 500-516 (CLASSIFIED) HAZARDOUS LOCATIONS AND WHAT TO LOOK FOR IN AN INSPECTION**

**Instructor: Stephen Norako**

*Credit: electrical*

This seminar covers the administration and enforcement activities as per N.J.A.C. 5:23 Electrical Subcode (a) (1) by reviewing NEC Articles 500-516 changes and identifying key installation pitfalls common to these locations. Changes and updates to the 2017 National Electrical Code Article 500 - 516 are addressed reinforcing what to look for during an inspection. The seminar provides participants with a clear understanding of an often misunderstood and confusing subject matter and includes useful tools to use on the job. 0.5 CEU

Tues, May 21 - Holiday Inn, Budd Lake

Fri, June 14 - Rutgers Continuing Education  
Center at Atrium, Somerset

### **E307 NEW** **2017 NEC ARTICLE 690, SOLAR PHOTOVOLTAIC SYSTEMS**

**Instructor: Brian Mitchell**

*Credit: electrical*

The Solar Photovoltaic industry is evolving rapidly. This seminar provides a broad based understanding of the codes, standards, systems, inspection requirements, materials, research base, and major players in the industry. In addition, this seminar interprets and reviews the most significant elements of the National Electrical Code Article 690, related codes, standards and regulations, and safety for the inspector. Interaction with the adopted model Building and Fire Protection codes, as well as safety issues with relation to NFPA-70E are also discussed. Students will gain a well-rounded understanding of the electrical and physical requirements of a compliant installation. This 5 hour seminar is comprised of two sessions, each 2.5 hour long. Participants have to attend both 2.5 hours evening sessions in order to obtain a credit. 0.5 CEU

Wed, May 29 - Online - Go To Training

Wed, June 5 - Online - Go To Training

### **E305 ✎(pending) NEW** **2017 NEC SWIMMING POOL REQUIREMENTS - BASED ON IAEI'S SWIMMING POOLS - NEC ARTICLE 680**

**Instructor: Keith Lofland, IAEI**

*Credit: electrical*

This seminar focuses on accurate, thorough and safe installations and inspections in and around swimming pools and similar installations. It takes a look at such topics as the requirements for GFCI protection in a wet environment, grounding and equipotential bonding, underwater lighting requirements, motors and other requirements of NEC Article 680. This seminar explains in clear, concise language the installation, design and inspection of the electrical systems involving swimming pools, spas, hydro massage bathtubs, and similar installations based on Article 680 of the National Electrical Code. 0.5 CEU

Tues, Apr 16 - Rutgers Continuing Education  
Center at Atrium, Somerset

Tues, May 21 - Atlantic Cape Community College,  
Rutgers Building Q, Mays Landing

**E306** ✂ (pending) **NEW**  
**2017 NEC UPDATE/IAEI'S ANALYSIS OF CHANGES**

**Instructor: Keith Lofland, IAEI**

*Credit: electrical*

This seminar analyzes the major changes to the NEC. Members of the nineteen NEC Code-making panels contributed to the development of the authoritative text, which covers more than 250 of the most significant changes and includes interpretations by the group that enforces the NEC. The four-color book, which the seminar is based upon, offers plenty of illustrations, photos, and text that clearly identify and explain the changes and their impact. This program assists attendees in making more accurate, thorough, and safer installations and inspections of electrical systems. 0.5 CEU

Thurs, June 13 - Ocean Cty Fire and EMS  
 Training Center, Waretown

Thurs, June 27 - Holiday Inn, Hasbrouck Heights

**D332** ☹ **NEW**  
**2018 IBC ESSENTIALS**

**Instructor: International Code Council**

*Credit: building, fire protection*

This seminar focuses on the basic concepts of the 2018 International Building Code (IBC). These concepts provide a basis for the correct utilization of the code. A clear understanding of the identified requirements allows the code user to apply the IBC in specific situations and helps to build an understanding of the intent of the code when asked to make a judgment on code compliance. This seminar also helps the code user to correctly locate code requirements by addressing the organization of the code and how it relates to the IBC family of International Codes. 0.5 CEU

Tues, Apr 9 - Kean University, Science, Technology  
 and Mathematics Building, Union

Thurs, May 16 - Fire-Rescue Station 221, Evesham

Wed, May 22 - Clarion, Toms River

**D333** ☹ **NEW**  
**2018 IBC MIXED OCCUPANCIES**

**Instructor: International Code Council**

*Credit: building, fire protection*

Based on the provisions of IBC Section 508, this seminar addresses special requirements applicable to buildings containing two or more occupancy classifications. The three mixed-occupancy options are presented along with examples and exercises that illustrate the proper application of the provisions. Specific topics include: occupancy classification, mixed occupancy conditions, accessory occupancies, nonseparated occupancies, separated occupancies, and multi-story conditions. 0.5 CEU

Fri, Apr 12 - Ocean Cty Fire and EMS  
 Training Center, Waretown

Wed, May 15 - Executive Inn, Fairfield

**D334** ☹ **NEW**  
**2018 IBC SIGNIFICANT CHANGES\***

**Instructor: International Code Council**

*Credit: building, fire protection*

This seminar overviews the changes from the 2015 to the 2018 IBC. It identifies changes in organization and code requirements and the applicability of these requirements to design, plan review and inspection. 0.5 CEU

Thurs, May 9 - Rutgers EcoComplex, Bordentown

Wed, June 19 - Executive Inn, Fairfield

Fri, June 21 - Foundation for Educational  
 Administration, Monroe

**D335** ☹ **NEW**  
**2018 IMC COMBUSTION AIR AND VENTING**

**Instructor: International Code Council**

*Credit: building, fire protection, plumbing, mechanical, boiler, pressure vessel and refrigeration*

This seminar reviews and analyzes selected requirements for combustion air & venting systems. It summarize the purpose and content of combustion air and venting systems contained in the 2018 IMC and 2018 IFGC. In addition, this seminar describes the intent and application of combustion air and venting sections within the 2018 IMC and 2018 IFGC and explains the application of combustion air and venting sections within the 2018 IMC and 2018 IFGC through inspection, plan review and enforcement. 0.5 CEU

Wed, Apr 10 - Ocean Cty Fire and EMS  
 Training Center, Waretown

Fri, May 10 - Holiday Inn, Hasbrouck Heights

**D336** ☹ **NEW**  
**2018 IMC DESIGN AND PLAN REVIEW**

**Instructor: International Code Council**

*Credit: building, fire protection, plumbing, mechanical, boiler, pressure vessel and refrigeration*

This seminar reviews and analyzes selected requirements for commercial design and plan review of mechanical systems. The seminar provides participants with a thorough understanding of key areas of the 2018 International Mechanical Code (IMC) and related standards. 0.5 CEU

Thurs, March 28 - Bergen Cty Law and Public  
 Safety Institute, Mahwah

Tues, May 21 - Grand Hotel, Cape May

Thurs, June 27 - Clarion, Toms River

### **D337** **NEW** **2018 IMC DESIGN INSTALLATION AND INSPECTION PRINCIPLES**

**Instructor: International Code Council**

*Credit: building, fire protection, plumbing, mechanical, boiler, pressure vessel and refrigeration*

This seminar highlights key provisions of the 2018 International Mechanical Code (IMC) and provides practice in applying key requirements. It reinforces learning by supplying immediate feedback or clarification, walks participants through the content outline of the code book, and describes key sections. 0.5 CEU

Wed, Apr 10 - Kean University, Science, Technology  
and Mathematics Building, Union

### **D330** **NEW** **2018 IMC SPECIAL TOPICS: ACCESS AND PROTECTION OF EQUIPMENT AND INSTALLATION OF SPECIFIC APPLIANCES**

**Instructor: IAPMO**

*Credit: building, fire protection, plumbing, mechanical*

This seminar identifies access requirements to get to and safely service appliances on roofs with emphasis on ladder, platform, and roof hatch requirements. Other topics include access to equipment in attics, crawlspaces and other locations along with other special requirements such as walkways, service platforms, ceiling heights, lighting and certain energy code issues to watch for. In addition, participants will walk away with a better understanding of the proper installation requirements per the 2018 IMC and other related code provisions that guide these installations. 0.5 CEU

Fri, Apr 5 - Executive Inn, Fairfield

Fri, June 14 - Ocean Cty Fire and EMS  
Training Center, Waretown

### **D338** **NEW** **2018 IMC/IFGC SIGNIFICANT CHANGES\***

**Instructor: International Code Council**

*Credit: building, fire protection, plumbing, mechanical, boiler, pressure vessel and refrigeration*

This seminar introduces participants to the major changes from the 2015 IMC and IFGC to the 2018 IMC and IFGC. Participants will discuss the changes, reasons for the changes, and take part in the knowledge review activities. Information presented will allow participants to apply new code requirements to design, plan review, and/or inspection. 0.5 CEU

Fri, March 29 - Bergen Cty Law and Public Safety Institute,  
Mahwah

Thurs, Apr 11 - Middlesex Cty Fire Academy, Sayreville  
Wed, June 26 - Clarion, Toms River

### **D339** **NEW** **2018 IRC ESSENTIALS**

**Instructor: International Code Council**

*Credit: building, fire protection*

This seminar examines basic concepts of the 2018 International Residential Code (IRC). These concepts provide a basis for the correct utilization of the code. A clear understanding of the identified requirements allows the code user to apply the IRC in specific situations and helps to build an understanding of the intent of the code when asked to make a judgment on code compliance. This course also helps the code user to correctly locate code requirements. 0.5 CEU

Thurs, Apr 11 - Ocean Cty Fire and EMS  
Training Center, Waretown

Fri, May 10 - Rutgers EcoComplex, Bordentown

Thurs, June 20 - Executive Inn, Fairfield

### **D340** **NEW** **2018 IRC PERFORMING RESIDENTIAL MECHANICAL INSPECTIONS\***

**Instructor: International Code Council**

*Credit: building, fire protection, plumbing, mechanical, boiler, pressure vessel and refrigeration*

This seminar focuses on the key changes from the 2018 International Residential Code (IRC). The details provided enhance participants' understanding of mechanical terminology, equipment, materials and methods of installation as related to residential construction. This seminar concentrates on the mechanical portion of the IRC along with the appropriate portions of the International Fuel Gas Code and the International Energy Conservation Code. It covers the minimum requirements for residential mechanical inspections. Participants will also discuss major portions of a residential plan. This seminar provides information necessary for the residential mechanical inspector to perform inspection tasks that are consistent with the requirements in the 2018 IRC. 0.5 CEU

Thurs, May 9 - Holiday Inn, Hasbrouck Heights

Wed, May 22 - Atlantic Cape Community College,  
Rutgers Building Q, Mays Landing

**D341**  **NEW****2018 IRC SIGNIFICANT CHANGES\*****Instructor: International Code Council***Credit: building, fire protection*

This seminar reviews and analyzes selected significant changes from the 2015 IRC to the 2018 IRC. It familiarizes participants with many of the significant changes in the 2018 IRC and assists code users in identifying the specific code changes that have occurred, and more importantly, understanding the reason behind the change. Finally, it focuses on those code changes selected due to their frequency of application, special significance or change in application. 0.5 CEU

Tues, May 14 - Executive Inn, Fairfield

Fri, May 17 - Fire-Rescue Station 221, Evesham

Thurs, May 23 - Clarion, Toms River

**P256** **NEW****2018 NATIONAL STANDARD PLUMBING CODE AND ICC CODE CHANGE UPDATE\*****Instructor: Fritz Reuss***Credit: plumbing*

All code changes to the 2018 National Standard Plumbing Code as compared to the 2015 NSPC are reviewed. In addition, applicable code changes within the 2018 International Mechanical Code and International Fuel Gas Code, for which the Plumbing Code Official is responsible, are also evaluated. The reason behind the change is presented to better understand the code change. 0.5 CEU

Tues, Apr 16 - The Inn at Lambertville Station, Lambertville

Thurs, May 16 - Executive Inn, Fairfield

Tues, June 25 - Atlantic Cape Community College,  
Rutgers Building Q, Mays Landing**L069** **NEW****A17.1-8.6, MAINTENANCE REPAIR REPLACEMENT AND TESTING (MRRT). ASME17.6 SUSPENSION STANDARD****Instructor: NAESA***Credit: elevator*

This seminar gives students an overview of the maintenance rules and efforts of defining Maintenance Repair and Replacement (MRRT). These rules occurred in the A17.1-2000 code, detailing the Maintenance Control Program (MCP) requirement as they exist in the 2013/16 safety code. This seminar covers the general MCP requirements which fall under the A17.1 scope; category one, three and five testing; special provisions to familiarize the attendees with section 8.6 requirements in the field. In addition, a brief history of the A17.6 Suspension standard was created is covered. Participants

will also discuss manufacturing and suspension designs, nomenclature, ordering, inspecting and replacement criteria. 0.5 CEU

Tues, March 26 - Holiday Inn, Clark

**L070** **NEW****ACCESSIBILITY REQUIREMENTS OF ANSI A117.1 AS RELATED TO LULA AND RESIDENTIAL ELEVATORS, PLATFORM LIFTS AND CHAIR LIFT****Instructor: NAESA***Credit: elevator*

This seminar addresses two separate code updates A17.1-2016 as it pertains to LULA and residential elevators. Then a review of ASME A18.1-2017 including the new requirement for maintenance is presented. Finally, participants can expect to take an in depth look at ANSI A117.1-2009 as it interacts with LULA, residential elevators and platform lifts. Participants will discuss where the requirements for accessibility begin in the elevator and building codes and what technical document of A117.1 are necessary. Also incorporated into A117.1- is a code update material from the 2015 edition. 0.5 CEU

Wed, March 27 - Cumberland Cty College Conference  
and Events Center, Vineland**A480** **ADMINISTRATIVE TOOL KIT FOR THE UCC****Instructor: Richard Osworth***Credit: administrative*

In today's world, local officials are required to multi task and to do more with less. This seminar reviews current regulations and methodologies to assist the local official with establishing a comprehensive management tool kit. The specific tools are personnel management, cost analysis, staffing allocations, working within different organizations, interlocal cooperation, and conflict of interest and ethics. Seminar participants will build an organizational chart, develop job descriptions, conduct personnel evaluations, and evaluate staffing requirements for a medium sized local enforcing agency. The basic tools of these tasks will be presented and discussed with samples based on current laws and regulations. 0.5 CEU

Tues, Apr 2 - Executive Inn, Fairfield

Wed, June 19 - Fire-Rescue Station 221, Evesham

Fri, June 7 - Cumberland Cty College Conference and Events Center, Vineland

**D009** 🏠 📄

**BARRIER FREE 2019**

**Instructor: Jack Boekhout Consulting, LLC**

*Credit: administrative, building*

ONE TIME mandatory requirement for Building Inspectors. This course reviews each of the amendments to the NJ Barrier Free Subcode, including the revisions to access requirements for multi-family residences and the C.O.A.H. (now known as Low and Moderate Income Housing) requirements for townhouses. Provisions of the revised Barrier Free Subcode that provide compliance with Federal Americans with Disabilities Act regulations are also covered. Emphasis is placed on ensuring that code officials understand where their enforcement authority lies and also on showing where in Subchapter 7, IBC Chapter 11 and ICC/ANSI A117.1 standard the provisions and requirements of the Barrier Free Subcode can be found, including the Low and Moderate Income Housing rules. 0.5 CEU

**L071 NEW****HOW TO USE ASME A17.2 GUIDE FOR INSPECTION OF ELEVATORS, ESCALATORS AND MOVING WALKS. INSPECTION METHODS.****Instructor: NAESA***Credit: elevator*

This seminar presents key components of the ASME A17.2 guide. Topics include format, function and layout of the book, a comprehensive review of the eleven parts of the guide, overview of the eight appendices, and links to ASME A17.1. Additional topics to be discussed include a review of the Quality Elevator Inspector code (QEI-1), an overview of the types of inspections (acceptance, periodic tests, periodic inspections and accident investigation), and the inspection process. A review of Authority Having Jurisdiction (AHJ) expectations, reporting, and writing citations are reviewed using practice scenarios. 0.5 CEU

Tues, Apr 23 - RWJ Conference Center, Hamilton

**D285** **HVAC DUCT SYSTEM INSPECTIONS****Instructor: Sheet Metal Workers Local 22, David Castner***Credit: building, fire protection, plumbing, mechanical*

This seminar utilizes materials developed by the International Training Institute and SMACNA Standards for the fabrication and installation of HVAC system components. The purpose of the presentation is to familiarize building inspectors with proper methods of inspecting HVAC systems, which is critical to the safety, health and comfort of the general public. The basic science of heating, ventilating and air conditioning systems is covered, including the principals of airflow as it relates to duct design. 0.5 CEU

Thurs, Apr 18 - The Inn at Lambertville Station, Lambertville

Thurs, May 30 - Foundation for Educational Administration, Monroe

**B525****INSPECTION OF METAL PLATE-CONNECTED WOOD TRUSSES AND A COMPONENT MANUFACTURING PLANT TOUR****Instructor: Structural Building Components Association***Credit: building*

This session provides attendees with a better understanding of the manufacturing of structural building components by touring a manufacturing plant. Attendees will gain knowledge about the products and how the design and manufacturing process affects the installed products that inspectors see daily on construction sites. The seminar gives attendees the tools to perform comprehensive framing inspections of metal plated connected wood roof and floor trusses. It acquaints attendees with various applications involving trusses, repair, and correct installation procedures focusing on truss design documentation. The tour gives participants an in-depth look at a business that designs, supplies, and provides technical support for these products. Participants will learn various applications involving trusses, including design documentation and design responsibilities. 0.5 CEU

**P252** **NEW****PLASTIC DISTRIBUTION AND DWV PLUMBING SYSTEM MATERIALS AND INSTALLATIONS****Instructor: International Code Council***Credit: plumbing*

This seminar provides an overview of the modern plastic materials and methods used in building applications, including water distribution and drain, waste and vent piping. Special attention is given to PPFA documents, including the Apprentice Training Manual. Green and sustainable building applications are also discussed. 0.5 CEU

Fri, Apr 12 - Middlesex Cty Fire Academy, Sayreville

Fri, May 24 - Atlantic Cape Community College,  
Rutgers Building Q, Mays Landing

**A712****PREMANUFACTURED CONSTRUCTION - TODAY'S BUILDING TECHNOLOGY****Instructor: Richard Osworth***Credit: administrative*

This seminar explores the law as it relates to premanufactured construction. Participants will discuss the ways in which the regulations allow for the acceptance of these systems while insuring compliance with the adopted national codes. The acceptance of building components or an entire building is based on the concept of quality control and quality assurance in the manufacturing process. The seminar focuses on the basics of quality control and assurance programs and the methods used to ensure that the product meets the code. The various premanufactured building programs controlled by federal, interstate and state jurisdictions are also presented. 0.5 CEU

Wed, Apr 3 - Grand Hotel, Cape May

Wed, Apr 24 - Cumberland Cty College Conference and Events Center, Vineland

**A726 NEW****PRIOR APPROVALS - A REFRESHER COURSE\*****Instructor: Valerie Waricka***Credit: administrative*

The purpose of this seminar is to define the responsibilities and duties in the prior approval review process. Prior approvals are discussed in detail, as well as how each component comes together when issuing a permit. Actual examples of documents are used to explain their role in the permit process and to ensure better understanding of information. 0.5 CEU

Wed, Apr 3 - Executive Inn, Fairfield

Wed, June 5 - Brookdale Community College, Western Monmouth Building, Freehold

**D331 NEW****SELECTION AND INSTALLATION OF THE PROPER TYPE OF CROSS-CONNECTION CONTROL REQUIRED AND THE FIELD TESTING PROCEDURES FOR THIS PROTECTION\*****Instructor: IAPMO***Credit: fire protection, plumbing*

This seminar explains the theory and principles of backflow prevention and cross connection control. It discusses code requirements and state and federal regulations related to the proper selection of backflow prevention protection along with installation procedures and necessary testing and maintenance of this protection. Participants will review a wide range of methods, devices, and assemblies available for use with

domestic water systems, irrigation systems, fire protection systems, and mechanical systems to provide cross connection control and backflow prevention. 0.5 CEU

Thurs, March 28 - Cumberland Cty College Conference and Events Center, Vineland

Wed, May 15 - Somerset Cty Emergency Services Training Academy, Hillsborough

**A587****STATUTORY DUTIES OF THE SUBCODE AND CONSTRUCTION OFFICIAL****Instructor: James Foran***Credit: administrative*

This seminar is designed as a refresher for licensed Subcode and Construction Officials. Additionally, other inspectors will benefit from becoming more familiar with the duties and powers of the Subcode and Construction Official positions. The limiting factors of the Subcode and Construction Official's statutory power is also discussed. 0.5 CEU

Thurs, Apr 18 - Atlantic Cape Community College, Rutgers Building Q, Mays Landing

**D322****THE ACT, THE REGS AND TORT CLAIMS****Instructor: David Greenhill, No Shorts Electrical Seminars***Credit: administrative, electrical*

This seminar addresses the issues of uniformity as it relates to the understanding, interpreting and enforcing of the Uniform Construction Code. This seminar helps participants fully understand why the codes are written. Special attention is given to the introduction to N.J.S.A 52:27D The Construction Code Act and The Tort claims Act N.J.S.A. 59:1-1. Participants will discuss N.J.A.C. 5:23 the Uniform Construction Code. 0.5 CEU

Fri, Apr 5 - Grand Hotel, Cape May

Thurs, May 30 - Ukrainian American Cultural Center of NJ, Whippany

**A606** **THE ANNUAL PERMIT****Instructor: Richard Osworth***Credit: administrative*

Local officials are always looking for ways to streamline processes, and local companies are looking for ways to be more effective and efficient. However, the annual permit process is a concept that is overlooked and not necessarily seen as a potential savings to all concerned. This seminar takes the participants through the UCC Act and Regulations with both a historic and current presentation of the annual permit process. The presentation fully explains the concept of a construction permit, its origins in the law and how it has been amended over time. The seminar focuses on the annual permit process with a full explanation of the approval process, the inspection process, the training requirements and the facility manager's responsibilities. Participants will leave with a full understanding of the annual permit process including sample documents for potential clients. 0.5 CEU

Tues, Apr 23 - Holiday Inn, Clinton

Thurs, June 20 - Foundation for Educational  
Administration, Monroe**A724**  **NEW****THE CODE OFFICIAL PLAYBOOK****Instructor: Dennis Pino, Nick Fabiano, Fritz Reuss***Credit: administrative*

This seminar is a play-by-play overview of agency operations and procedures. It expounds upon the many roles and responsibilities of Construction Officials, Subcode Officials and Technical Assistants. From ordinary maintenance to new construction; this seminar busts the myths, challenges misconceptions and provides the facts in a positive-proactive manner. Featuring the "counter of doom," where participants will analyze NJUCC regulations in action and take part in critical decision making and verification activities specifically produced to highlight UCC compliance; including rehabilitation subcode elements. 0.5 CEU

Thurs, Apr 18 - Rutgers Continuing Education  
Center at Atrium, SomersetThurs, Apr 25 - Cumberland Cty College Conference  
and Events Center, Vineland**D347**  **NEW****THE DAILY FUNCTIONS OF THE BUILDING SUBCODE OFFICIAL****Instructor: Richard Perlman***Credit: administrative, building*

The role and functions of the Building Subcode official is one of the most complex and wide-ranging in the construction code compliance process. It encompasses such diverse areas as plan review, inspections, air balance reports, res checks and soil bearing reports. The Building Subcode official must help homeowners, conduct special inspections, understand mechanical requirements and energy compliance, generate permit fees, and train inspectors. This seminar focuses on practical applications and procedures that lead to daily success. 0.5 CEU

Fri, June 7 - Brookdale Community College,

Western Monmouth Building, Freehold

Wed, June 12 - Ocean Cty Fire and EMS

Training Center, Waretown

**D185** **THE HOTEL/MULTIPLE DWELLING CODE AND UFC RETROFIT PROVISIONS****Instructor: John Daniels***Credit: building, fire protection, hotel/multiple dwelling*

This seminar is designed to explain and identify the Uniform Fire Code Subchapter 4 Retrofit provisions as they relate to Hotels and Multiple Dwellings. The background, purpose and intent is discussed, identifying the minimum requirements within an existing structure, such as sprinklers, fire/carbon monoxide alarms, means of egress, vertical shafts and interior finish. Students will learn to recognize when and how to apply the minimum requirements of the Retrofit code. 0.5 CEU

Wed, May 29 - Ukrainian American Cultural Center of NJ,  
Whippany

Thurs, June 20 - Fire-Rescue Station 221, Evesham

**D310**  **THE NJ REHABILITATION SUBCODE - ADVANCED ANALYSIS**

**Instructor: James Foran**

*Credit: administrative, building, fire protection*

This seminar focuses on construction scenarios and illustrations which include some, or all of the pertinent areas of concern which are regulated by the New Jersey rehabilitation subcode. The participants will learn how to determine which portions of the Rehab Code to apply and how to apply those sections. 0.5 CEU

Thurs, Apr 4 - Grand Hotel, Cape May  
 Thurs, May 16 - Somerset Cty Emergency Services  
 Training Academy, Hillsborough

**D174**  **THE RELATIONSHIPS OF THE ENFORCING REGULATIONS\***

**Instructor: John Daniels**

*Credit: administrative, fire protection, hotel/multiple dwelling*

This seminar is designed to enhance the participants' knowledge of the relationship between the regulations. These changing regulations require an understanding of how they connect to each other and how they ultimately have an effect on everyone. A review of the direct and indirect references will show this relationship. A resource method is shown that will enable participants to identify other enforcing agencies and their contact information. 0.5 CEU

Tues, May 21 - Clarion, Toms River  
 Wed, June 5 - Cumberland Cty College Conference  
 and Events Center, Vineland

**A725**  **NEW THE UCC CHALLENGE. 2019 EDITION\***

**Instructor: Dennis Pino, Nick Fabiano, Patrick Reardon**

*Credit: administrative*

This high-paced interactive seminar is developed for all disciplines and all agency staff. Participants will discuss numerous real-life UCC scenarios from ordinary maintenance to reconstruction projects. From construction permit requirements to certificate issuance; a positive proactive seminar featuring the "counter of doom" where we challenge the misconceptions, bust the myths and provide the facts with the intention to promote uniform compliance amongst our agencies. 0.5 CEU

Fri, June 14 - Morris Cty Public Safety Training  
 Academy, Parsippany  
 Fri, June 21 - Fire-Rescue Station 221, Evesham

**D179**  **UCC SPECIAL INSPECTIONS PROGRAM REQUIREMENTS**

**Instructor: John Daniels**

*Credit: administrative, building*

This seminar is designed to identify and explain the requirements and procedures of the Special Inspections Requirement within the UCC (N.J.A.C. 5:23-2.20) and NJ 2018 IBC. Topics include the statement of suspensions, the various types of special inspections, identification of when these inspections are necessary, the independent 3rd party inspection agency/inspectors, and the submission of reports and closing documents to the code official. Discussions will include the requirements relating to both new and rehabilitation projects. 0.5 CEU

Wed, March 27 - Bergen Cty Law and Public Safety  
 Institute, Mahwah

Tues, Apr 9 - Ocean Cty Fire and EMS Training  
 Center, Waretown

**E304**  (pending) **NEW UNDERSTANDING SHORT CIRCUIT, COORDINATION AND NFPA 70E REQUIREMENTS PER NEC**

**Instructor: Constantinos Papademas LLC**

*Credit: electrical*

Safety is the key to every electrical installation. This seminar provides participants with an understanding of the title terms; when and where the requirements of these terms apply during plan review and inspections. An introduction to NFPA 70E is also covered to define its importance and the requirements within. 0.5 CEU

Wed, Apr 24 - Holiday Inn, Clinton  
 Wed, June 19 - Foundation for Educational  
 Administration, Monroe

**A727**  **NEW VIOLATION NOTICES - THE ENFORCEMENT PROCESS**

**Instructor: Valerie Waricka**

*Credit: administrative*

Attendees will gain an understanding of the various violation notices and the proper way to process them. Participants will also discuss specific situations and different ways to handle them using the UCC to gain compliance. 0.5 CEU

Wed, Apr 17 - The Inn at Lambertville Station, Lambertville  
 Tues, June 18 - Fire-Rescue Station 221, Evesham

**D348** ↗ (pending) **NEW****WATTS UP!****Instructor: Dennis Pino, Nick Fabiano, Don Clare***Credit: building, electrical*

From plan-review of concrete encased electrodes to the final electrical inspection checking energy efficient lamp counts, this seminar bridges the transitional gaps between the NEC 2017, IRC 2018 and Uniform Construction Code. A comprehensive breakdown of UCC assigned Electrical and Building Subcode responsibilities for plan review and inspection of one and two family dwellings is presented. Existing codes, code changes and commentary are reviewed in a positive and interactive manner, including: rehabilitation subcode amendments, minor work and ordinary maintenance elements. 0.5 CEU

Thurs, Apr 4 - Executive Inn, Fairfield

Thurs, June 6 - Brookdale Community College,  
Western Monmouth Building, Freehold

**D308**

**WELDING TESTING AND INSPECTION. NON-DESTRUCTIVE TESTING PROCEDURES. PRACTICAL LIQUID PENETRANT, MAGNETIC PARTICLE AND ULTRASONIC TEST**

**Instructor: Alex Caploon***Credit: building, special inspector (steel), amusement rides*

The increasing demand for inspection of welding structures has resulted in an increased number of requests for proper identification of welding discontinuities and nondestructive testing (NDT). This seminar provides an overview of NDT inspection methods that permit evaluation of welds and related materials without destroying their usefulness. Special attention is given to such methods as visual examination, liquid penetrant testing (with demonstration), magnetic particle testing, and ultrasonic testing. Other methods of NDT are also briefly reviewed. 0.5 CEU

Tues, March 26 - Cumberland Cty College Conference  
and Events Center, Vineland

Tues, May 28 - Middlesex Cty Fire Academy, Sayreville

**B824** **NEW****WORKING WITH ENGINEERED WOOD****Instructor: Trust Joist***Credit: building*

This interactive seminar explains the do's and don'ts of working with engineered lumber. Participants can expect to learn about product identification, installation details, installation issues, damaged product protocol, substitutions, and methods of lumber grading. 0.5 CEU

Thurs, Apr 25 - Holiday Inn, Clinton

Fri, May 31 - Ukrainian American Cultural Center of NJ,  
Whippany
