### V-A. Explanation of Need for Transitional Aid

**Application Year: CY 2013** 

Explain the circumstances that require the need for Transitional Aid in narrative form. Include factors that result in a constrained ability to raise sufficient revenues to meet budgetary requirements, and if such revenues were raised, how it would substantially jeopardize the fiscal integrity of the municipality. If this application is being submitted due solely to expenditure and revenue impacts of Superstorm Sandy, please skip this section.

The City of Beverly, for the past several years, has utilized as much fund balance as possible to offset recurring expenditures in the budget. December 31, 2007, the City had a Fund Balance (Reserve) of \$1,004,016, of which, \$448,893 was used in the CY2008 budget. December 31, 2008 the City had a Fund Balance of \$1,024,050, of which, \$440,000 was used in the CY2010 budget. December 31, 2009, the City had a Fund Balance \$852,458, of which, \$622,000 was used in the CY2011 budget. December 31, 2010, the City had a Fund Balance of \$443,379, of which \$358,579 was used in the CY2011 budget. December 31, 2011, the City had a Fund Balance of \$334,496, of which \$270,065 was used in the CY2012 budget. December 31, 2012, the City had a Fund Balance of \$126,980, of which, the City is anticipating the use \$75,000 in the CY2013 budget.

In addition to the above, there are several line items that will increase in the CY2013 budget. Administration Salary and Wages will see an increase of -\$33,731; part of which is due to the restructuring of the City Administrator/Public Safety Director positions that will now be funded mainly through the Administration line item instead of charged to the Police line item and due to an overlap of payment to the former City Administrator and the new Acting City Administrator. Group Insurance will increase -\$76,201 due to the addition of employees eligible to be enrolled and increases in the SHBP. Liability and Workman's Comp Insurance will increase -\$38,762 due to normal increases in insurance coverages and due to the number of claims submitted by the City. Pensions, PERS, PFRS, and DCRP will have increases in the CY2013 Budget of at least \$30,000. The auditor has identified 7 employees who need to be enrolled in the pension system. The City will have to pay a penalty for two employees who should have been enrolled in pensions over two years ago. In CY2011 the City issued BANs in the amount of \$1,628,205 in addition to an existing general bond of \$37,500. In CY2012, the City issued another BAN in the amount of \$500,000 for a total of \$2,165,705 outstanding. The introduced budget for CY2013 anticipates a payment of \$100,000 towards the outstanding BANs, which is the first payment (excluding the first interest payment of \$32,473.64) to pay down these BANs.

Litigation and claims continue to be an ongoing issue with the City of Beverly. In the 2012 fiscal year, Over \$154,000 was spent on legal fees and an additional \$18,000 in a judgment was rolled into the 2013 fiscal year. These legal fees represent fees normally charged by the City Solicitor in addition to defense attorney costs related to lawsuits and claims against the City. It is anticipated these legal fees will continue in the 2013 fiscal year until the outstanding claims have been satisfied. Currently there are 11 open claims against the City.

The City of Beverly is the smallest incorporated city in the State of New Jersey, with only 2,500 residents, is approximately ½ square mile, has few commercial ratables, has a defunct central business district, a low to mod population of 86.8% according to the 2000 Census, over 70% of the school children qualify for free or reduced breakfast/lunch, is home to a federal housing project, ranks 36 on the MDI and currently is the highest tax rate in Burlington County. Approximately thirty percent of the population is senior citizens and approximately 28% of the housing stock is rental units. The city was hit very hard with the recession and we have many abandoned and/or vacant properties as a result. If revenues were increased to the extent necessary, it would only further the unaffordability of homeownership and increase the transient population that is negatively affecting home values and the school system of the city. The City has already taken advantage of shared services with several surrounding communities and the City is expanding these services this coming year.

### V-C. Actions to Reduce Future Need for Aid

Detail the steps the municipality is taking to reduce the need for aid in the future. Include details about long-term cost cutting and enhanced revenue plans, impact of new development, potential for grants to offset costs, and estimated short and long-term annual savings. Use additional pages if necessary. (Items included in a Transition Plan submitted by a current recipient need not be repeated here.) If this application is being submitted due solely to expenditure and revenue impacts of Superstorm Sandy, please skip this section.

	recipient need not be repeated here.) If this application is being submitted due solely to expenditure and revenue impacts of Superstorm Sandy, please skip this section.
	The City is anticipating utilizing \$75,000 of Fund Balance to offset expenditures, implementing across the board cuts for all departments, reduction of personnel, increasing shared services with neighboring municipalities, raising the local municipal tax levy to the maximum allowed by law, re-examining fees charged for other City services with the intent to raise fees that are not consistent, submit for and receive all outstanding grant monies due to the city for all projects, reduce all BANs to the lowest amounts possible, seek long-term bonding through the Burlington County Bridge Commission for the balance of the BANs that cannot be paid off in the near term.
	The City has discussed its fiscal issues with the Department of Community Affairs and met with several members of the department, including the Director of Shared Services. With guidance and assistance from the Department, the City is currently discussing a shared service agreement with a neighboring municipality. The City is confident an agreement can be reached this year that will negate the need for continued assistance from the State in the form of Transitional Aid. Depending on the timing of approvals and the negotiation process, the savings may be reduced for this year however future annual savings will offset if not entirely eliminate the need for ongoing assistance.
