

ADDITION OF PARTIAL CARE AND OUTPATIENT TREATMENT FOR MENTAL HEALTH AND SUBSTANCE USE SERVICES TO THE CSOC CONTINUUM

Last fall, DCF/CSOC and Medicaid posted a notice on MMIS Medicaid announcements online regarding the addition of partial care and outpatient treatment for mental health and substance use services to the CSOC continuum of care as of July 1, 2019. The notice was subsequently removed to allow for additional stakeholder input and planning.

DCF/CSOC is announcing that the scheduled July 1, 2019 start date for this integration is being changed and all scheduled forums are cancelled and will be rescheduled. A revised target date for integration of outpatient and partial care services for youth within the CSOC Continuum of care as well as new forum dates will be posted at this site in the future.
