

Request for National Provider Identifier (NPI) Provider Enrollment Application Insert

You must have an NPI number to bill electronically. To obtain an NPI number, please provide us with the information requested in the boxes below and return this form along with your completed enrollment application. Failure to do so will slow the enrollment process.

The Center for Medicare & Medicaid Services (CMS) established a May 23, 2007 deadline for implementing NPI provisions. On April 2, 2007, CMS extended the deadline to May 23, 2008. However, it is the intention of the State of New Jersey to establish a Statewide Deadline for requiring compliance with all NPI provisions before May 23, 2008. The Division of Medical Assistance & Health Services (DMAHS), in cooperation with other State agencies, will notify providers regarding the Statewide Deadline for compliance with NPI provisions when transmitting a health care claim for payment as a standard electronic HIPAA transaction or paper claim.

The NPI shall replace the billing and servicing provider number previously used to bill Medicare, New Jersey FamilyCare (NJFC)/Medicaid, and other health care payers.

All health care providers can apply for an NPI:

- Using the web-based application <https://nppes.cms.hhs.gov>; or
- Sending a paper application to the Center for Medicare & Medicaid Services' (CMS') NPI Enumerator, Fox Systems. A copy of the application can be downloaded at <https://nppes.cms.hhs.gov>. A health care provider can also contact the Enumerator at 1-800-465-3203 or TTY 1-800-692-2326.
