

Fish Smart Eat Smart

Eating fish is good for you, but some fish and crustacean caught in New Jersey are contaminated with chemicals such as Dioxin, PCBs and Mercury.

WARNING!

Dioxin, PCBs and mercury may be harmful to everyone with a greater risk to babies and young children. For this reason it is important for women who are pregnant, or might become pregnant, breastfeeding women and young children follow the recommendations found in this flyer to reduce exposure.

Fish / Crustacea Under Advisory	General Population	High Risk **
Blue Claw Crab 	Do Not Catch, Do Not Eat!	Do Not Catch, Do Not Eat!
American Eel 	4 meals / year	Do Not Eat!
Bluefish greater than 6lbs/24" 	6 meals / year	Do Not Eat!
Bluefish less than 6lbs/24"  Striped Bass 	1 meal / month	Do Not Eat!
American Lobster 	Do Not Eat Green Gland (tomalley or hepatopancreas)	
Largemouth Bass  Smallmouth Bass  Chain Pickerel 	1 meal / week	1 meal / month
Sunfish (includes bluegill, pumpkinseed and redbreast sunfish)  Yellow Bullhead 	No Restrictions	1 meal / month
Brown Bullhead 	No Restrictions	1 meal / week
Common Carp 	1 meal / month	Do Not Eat!
Largemouth Bass  Chain Pickerel 	1 meal / month	Do Not Eat!
Brown Bullhead  Yellow Bullhead 	1 meal / week	Do Not Eat!
Sunfish (includes bluegill, pumpkinseed and redbreast sunfish) 	1 meal / week	1 meal / month

There are additional warnings for these and other fish in specific waterbodies. Check the contact information on this flyer or visit FishSmartEatSmartNJ.org For all freshwater fish without specific advisories, eat no more than:

General Population	High Risk**
1 meal/week	1 meal/month

** High Risk is defined as infants, children, pregnant women, nursing mothers and women of childbearing age.

NOTE: To reduce your exposure, eat those fish with the lowest meal restrictions. Do not combine meal restrictions. (For example, if you eat multiple fish species or catch fish from more than one area, the recommended guidelines for different species and different locations should not be combined.)

Reduce Exposure to Dioxin and PCBs

Eat only the fillet!

Cooking Fish:

- Bake, Broil, steam, fry or grill fish, and throw away the cooking juices.
- Use only fish fillets when preparing soups, stews and powders.

Cleaning Fish:

- Remove and throw away the head, guts, kidneys, and the liver.
- Remove the "backstrap meat" along with the skin, lateral line and belly meat.
- Cut away the fat, skin and belly area before cooking.

Development of this brochure was a cooperative project of the New Jersey Department of Environmental Protection and the New Jersey Department of Health
