

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
SIGNIFICANT INDIRECT USER DISCHARGES

A. INDIRECT USER INFORMATION

User Name: _____ User ID# _____ DEP NJPDES-SIU # _____

User's Previous Name (if changed): _____

Location:

Mailing Address:

1. Industrial Processes: Describe all of the industrial processes that affect or contribute to the SIU's discharge.

2. Principal Product(s) and Raw Material(s): Describe all of the principal products and raw materials that affect or contribute to the SIU's discharge.

Principal product(s): _____

Raw material(s): _____

3. Flow Rate:

- a. Process wastewater flow rate. Indicate the average daily volume of process wastewater discharged into the collection system in gallons per day (gpd) and whether the discharge is continuous or intermittent. _____ gpd (continuous or intermittent)
- b. Non-process wastewater flow rate. Indicate the average daily volume of non-process wastewater flow discharged into the collection system in gallons per day (gpd) and whether the discharge is continuous or intermittent. _____ GPD (continuous or intermittent)
- c. Received via: Collection system Dedicated pipeline Truck or Rail

4. Pretreatment Standards: Indicate whether the SIU is subject to the following:

- a. Local limits Yes No
- b. Federal Categorical pretreatment standards (40 CFR 404 et seq.)
 Yes No To Be Determined

If subject to categorical pretreatment standards, which category and subcategory?

5. Problems at the Treatment Works Attributed to Waste Discharged by the SIU:

Has the SIU caused or contributed to any problems (e.g., upsets, interference) at the treatment works in the past three years? Yes No

If yes, attach description of each episode, and indicate if any penalty was assessed or collected.

INSTRUCTIONS FOR SIU-1 Non-DLA FORM

SUBMITTAL OF INFORMATION ON THIS FORM IS MANDATORY. The SIU-1 Non-DLA form is intended for use when applying for a NJPDES permit renewal for Non-Delegated Local Agencies. The submittal of this form will eliminate the requirement to submit an annual pretreatment program report. It shall also be used to report proposed new or significantly changed discharges into the sewage treatment plant during the permit term.

All local agencies receiving discharges from significant indirect users (SIUs) shall submit one form for each SIU. If more than one such facility discharges to the treatment works, you may copy this form as needed.

Local agencies receiving wastewaters from multiple SIUs may prefer to tabulate data and/or generate the data from existing database programs. Please contact the Bureau of Pretreatment and Residuals at (609) 984-4428 if you wish to use other submittal methods.

Federal Categorical pretreatment standards should be indicated as applicable to SIUs if the SIU has the potential to discharge into a local agency sewage treatment plant any wastewaters which are subject to "Pretreatment Standards for New Sources" or "Pretreatment Standards for Existing Sources", as applicable, unless the relevant standard consists entirely of a requirement to comply with General Pretreatment Standards (see 40 CFR 403.6). If in doubt, include known information and respond "To Be Determined" to question 4.b.

The **User ID#** may be assigned by the POTW. Its purpose is to assure that the remaining information is understood to refer to the correct indirect user if the user name changes, if multiple users have similar names (e.g., independent operating entities under a single corporation), or simply if pages are shuffled during preparation / transmission. Many, but not all users have Department-assigned "Masterfile Id" numbers which you may request and use if available.
