New Jersey Department of Environmental Protection

**Transportation Oversight Unit** 

Bob Gomez, CHMM, Supervisor 300 Horizon Center P.O. Box 407 Trenton, New Jersey 08625-0407 (609) 584-4180

- Properly identify waste being shipped
- Complete the shipping paper (HW Manifest)
- Comply with training requirements
- Select an authorized package
- Properly mark the package
   > EPA & DOT marking requirements
   Comply with placarding requirements

§172.101 Hazardous Materials Table- Cont'd

Uniform Hazardous Waste Manifest is the Shipping Paper For Hazardous Waste

- Select basic shipping description from the 172.101 Table by:
  - Selecting proper shipping name (PSN)
  - Hazard Class
  - > ID number
  - Packing Group
  - Total quantity being shipped
  - If the PSN does not include the word "waste" & hazardous waste is being shipped the word waste must precede the proper shipping name

Uniform Hazardous Waste Manifest is the Shipping Paper For Hazardous Waste

Shipping Paper Cont.

- Check 172.203 (additional descriptions)
- Technical names for generic descriptions (n.o.s)
- Check App. A of 172.101 Table & determine if material is a "RQ"

Check App. B of 172.101 Table & determine if material is a Marine Pollutant (may not be applicable)

#### Uniform Hazardous Waste Manifest is the Shipping Paper For Hazardous Waste

Shipping Paper Cont.

- Provide Emergency Response Information
  - (E.R.G. # or MSDS form)
- Emergency Response Telephone number, see 172.604
  - Monitored at all times the material is in transportation (until it is accepted at TSD)
  - Person must have knowledge of material being shipped & have comprehensive ER information of the material or immediate access to someone who has this knowledge.

Uniform Hazardous Waste Manifest is the Shipping Paper For Hazardous Waste

Shipping Paper Cont.

Generator Certification 172.204

 By signing the manifest the generator is certifying the consignment is fully & accurately described, by the proper shipping name, & are classified, packed, marked, & labeled, & in all respects in proper condition for transport...

# Properly Packaged & In Proper Condition for Transportation?

- Training 172.704

Hazmat employers must provide training to its hazmat employees & shall include:

 <u>General awareness training</u> - enabling the employee to recognize & identify hazardous materials

#### - Training 172.704 - cont.

- <u>Function Specific</u> hazmat employee must receive specific training to the hazmat function(s) performed
- <u>Safety training</u> shall include emergency response information, methods of avoiding accidents such as proper handling procedures, & measures to protect themselves from exposure

#### Training 172.704 - cont.

- Security awareness & In-depth security training
  - Refer to Subpart I (172.800 & 172.804) for security plan specifics
- Initial & recurrent training
  - Initial completed within 90 days of hire or change in function, may work under <u>direct</u> supervision of knowledgeable hazmat employee until training is completed
  - Recurrent must be done at least every 3 years

#### Package Selection

- Determine how much waste is being generated?
  - Lab pack quantities, 55-gallon drum amounts, or cargo tank trailer quantities
- > What form is the waste in?
  - Liquid, solid, semi-solid (sludge), or gaseous

Once the quantity & form of waste has been determined refer to the 172.201 Hazardous Materials Table and refer to Column 8, & make to check Column 7 (Special Provisions)

§172.101 Hazardous Materials Table- Cont'd

- General Non-Bulk Marking Requirements 172.301
  - For hazardous waste EPA marking required at 40 CFR 262.32 must be on package & include:
    - Generator's name & address, manifest document #, proper shipping description, technical names, special permit #, or DOT-E # issued prior to 10/1/07 are authorized

Other prescribed DOT markings shall be used, <u>where</u> <u>required</u>, such as package orientation arrows for liquids, inhalation hazard, marine pollutant for vessel transportation (where applicable), or Biohazard

- Labeling Requirements Subpart E
  - Label(s) selection, Column 6 of 172.101 Table
     Label placement on package 172.406
    - Same surface of package and near PSN
    - Primary & subsidiary labels, when required, must be next to each other (within 6 inches of each other)
    - As of 10/1/05, all subsidiary labels must contain a hazard class or division number in the lower corner

**DOT Requirements Applicable to** Hazardous Waste Generator's Placarding Requirements - Subpart F Placard selection, Column 3 of 172.101 Table Generator's responsibility 172.506 Each person offering a motor carrier a hazardous material for transportation by highway shall provide to the motor carrier the required placards for the material being offered prior to or at the same time the material is offered for transportation, unless the carrier's motor vehicle is already placarded for the material as required by this subpart
