SECTION 5: Experience (initial applications only)

“Projects” are described as:

Corrosion Protection Specialist: The design, installation and testing of a corrosion protection system.

Corrosion Protection Tester: CP test, either sacrificial anode or impressed current systems. All testing conducted at the same site is 1 project.

Installation – Entire: Installation of a tank system from the time the ground is broken to the restoration of finished grade at the site. Multiple tanks at the same site are considered 1 project.

Installation – RDM: Installation of a release detection system including the installation of the monitoring system panel, wiring and all sensors and probes.

Installation – Service Technician: Replacement of ancillary equipment; including but not limited to liquid sensors, drop tubes, ATG risers, LLDs and/or containment sump repairs.

Closure: Removal or abandonment of a tank system from the time the ground is broken until the excavation is filled, or until a determination is made that subsurface evaluation is necessary and the site falls under the supervision of a subsurface evaluator. Multiple tanks at the same site are considered the 1 project.

Tank Testing: Tank, line, monitoring system, containment, spill prevention and/or overfill prevention tests. All testing conducted at the same site is 1 project.

The experience may be in one of the following timeframes: (Experience list must be provided for each category of service)

25 Projects in a 9 month period (no project older than 12 months)

5 Projects per year over a 2-year period (no project older than 3 years)

SECTION 6: Exam (initial applications only)

CP – Specialist and Tester. No exam; NACE and STI certification is used.

All other categories: exams are given through the International Code Council.

Register for your exam online at <https://www.iccsafe.org/certification-exam-catalog/>

- Installation Entire and RDM – ICC test “UST Installation/Retrofitting -U1”
- Installation – Service Technician – ICC test “NJ UST Service Technician”
- Closure – ICC test “UST Decommissioning – U2”
- Tank Testing – IIC test “Tank Tightness Testing – U3”

SECTION 7: Certifications

(Before certifying, all applicants should review the UST Rules at N.J.A.C 7:14B-13 to ensure they meet all the qualifications)

I certify under penalty of law that the information provided in this document is true, accurate and complete. I am aware that there are significant civil penalties for knowingly submitting false, inaccurate or incomplete information and that I am committing a crime of the fourth degree if I make a written false statement which I do not believe to be true. I am also aware that if I knowingly direct or authorize the violation of any statute, I am personally liable for the penalties.
[Certification pursuant to N.J.A.C. 7:14B-1.7(d)]

All new applicants applying for an initial license are required to take the re-certification course within the first year of certification. Failure to provide a course certification will result in the license being revoked at the one-year anniversary of the license being issued. Email certifications to ust@dep.nj.gov
