

**–New Jersey Marine Fisheries Council**  
**March 4, 2021**  
**Webinar protocol**

Today’s meeting will start at 5:00 PM. The meeting room will open at 4:30 PM to allow Council members and attendees to test their connection and audio.

All meeting attendees are automatically muted by the system when they join the meeting.

During the meeting, Council members will be unmuted but are asked to self-mute when not speaking to cut down on background noise.

All public attendees will remain muted throughout the meeting. During periods of public comment, any public who would like to provide comment should use the “raise hand” function. You will be called on individually and unmuted when it is your turn.

Comments/questions submitted through the “Chat” and “Questions” will not be recorded as public comment.

Inappropriate behavior will be grounds for dismissal from the meeting by the meeting administrator.

Thank you for your patience as staff and Council adjust to the online meeting format.
