Order

Family

Carnivora Canidae--Nondomestic dogs

Ursidae--Bears

Felidae--Nondomestic cats

Artiodactyla Cervidae--Deer

(b) The Division, in its discretion, may issue a permit for possession of a potentially dangerous game animal or game bird only after a clear showing that the criteria for the possession of such potentially dangerous game animal or game bird have been met.

§ 7:25-10.11 Criteria for the possession of potentially dangerous species

(a) In addition to the general criteria enumerated in 7:25-10.8, every person applying for a permit to possess potentially dangerous species shall meet each of the following criteria to the satisfaction of the Division:

1. Education and background: Persons wishing to apply for a permit to possess a potentially dangerous species must have extensive experience in maintaining the species desired or related species;

2. Knowledge: Persons wishing to apply for a permit to possess potentially dangerous species must demonstrate a working knowledge and expertise in handling and caring for each of the species desired;

3. Other licenses and permits: Persons applying to possess potentially dangerous species must obtain, in addition to New Jersey Captive Game Animal or Game Bird Permit, all other applicable permits covering the possession of

such species. Any permit issued for the possession of such animal by the Division shall not exempt an applicant from compliance with any other law of the State, or subDivision of the State, any municipality, or the Federal government, regarding construction necessary to house the animal, or other local requirements;

4. Purpose and intent: Persons applying to possess potentially dangerous species must submit a written statement of the purpose and intent of keeping the species;

5. Housing and feeding: Persons applying for a permit to possess a potentially dangerous species must supply a written description of the housing and caging facilities for the species required including a summary detailing a continuous source of food appropriate for the specific diet of the animals. Facilities must be constructed to prevent the possible escape of the animal. Division personnel may inspect the completed facilities to determine if the facilities are suitable for the game animal or game birds; and

6. Protection of the public: The housing facilities must also be constructed to prevent public access to, and contact with, the animal. The potentially dangerous species may not be kept as a household pet except when compelled by the infancy of the animal. The public must not be allowed access to the animal, including animals used for exhibition purposes.

§ 7:25-10.12 Denial, suspension, revocation, and hearings

(a) The department may suspend the permits described in 7:25-10.7 and 7:25-10.10 for periods of time up to their duration upon the violation of any permit condition or any regulation appearing in this subchapter. The department may revoke the permits described in 7:25-10.7 and 7:25-10.10 upon finding in any five-year period two or more violations of any permit condition(s) or any regulation appearing in this subchapter. After revocation, no permit shall be issued to the violator within two years from the date of the second violation, or within three years from the date of the third or subsequent violation.

(b) In the event the department determines the necessity for denial of a permit application for, suspension of, or revocation of, any permit described in 7:25-10.7 and 7:25-10.10, the department shall issue a notice of intent to deny, suspend, or revoke, setting forth the reasons for such action. Where appropriate, a compliance directive shall accompany the notice of intent.

(c) The recipient of the notice of intent may request a contested case hearing in accordance with the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedure Rules, 1:1, by filing a written request with the Department therefor within 20 days from the receipt of the notice of intent described above at (b). The request for a hearing shall be sent to the Office of Legal Affairs, ATTENTION: Adjudicatory Hearing Requests, Department of Environmental Protection, PO Box 402, Trenton, New Jersey 08625-0402.

1. A request for a contested case hearing shall clearly state:

i. The name of the recipient;

ii. The departmental decision from which the recipient seeks relief;

iii. The details of how the departmental decision aggrieves the recipient; and

iv. The findings of fact incorporated within the notice of intent that the recipient contests.

2. The department shall review each hearing request and, upon a determination that the matter constitutes a contested case, grant a hearing. The denial of a request for a contested case hearing shall be considered to be final agency action on the matter.

3. The granting of a request for a contested case hearing shall not automatically stay the suspension or revocation.

(d) In the case of a notice of suspension or revocation of a permit issued pursuant to 7:25-10.10(b), the recipient of such notice shall immediately comply with any departmental directive as to disposal of the captive potentially dangerous species.

(e) Notwithstanding the provision at (c)3 above, in the case of a notice of suspension or revocation of a permit issued pursuant to 7:25-10.7, the recipient of such notice shall comply with any departmental directive as to disposal of the captive species upon final suspension or revocation.

§ 7:25-10.13 Miscellaneous provisions

(a) Any person who transfers possession, as distinguished from ownership, or location of any game animal or game bird for which a permit has been issued, shall, within 48 hours, report in writing to the division exactly which animal(s) was transferred, the name and address of the person to whom the animal(s) was transferred and the location to which the animal(s) was transferred. No transfer shall be permitted without prior written approval of the division of a potentially dangerous species as defined at 7:25-10.10.

(b) Any person, issued a permit, who violates or fails to continually conform to the criteria established for the issuance of his permit, shall be considered to have violated an express condition of the permit and shall be deemed to be in possession of the animal or bird without a permit. Permit violators shall be subject to prosecution for possession of the animal or bird without a permit, and may be subject to the penalty prescribed by statute.

(c) No person shall acquire additional game animals or game birds under any one permit without prior written permission from the division. Progeny of permitted captive game animals or game birds are exempt from this requirement provided the permittee can biologically substantiate the increase in numbers from permitted captive game animals or game birds and reports the increase on the annual inventory report.

(d) As a condition of any permit issued under this subchapter the division may require the permitted game animal or game bird be quarantined for the period specified by the division.

(e) Any permittee shall allow division personnel, at any reasonable time, to inspect the housing facilities of the permitted species to determine compliance with the permit requirements and criteria.

(f) Nothing in this subchapter relative to the possession of Game Animals and Game Birds is intended to preempt any federal, state, or local requirement that is more stringent nor exempt any person from obtaining any permit required by these governmental entities.

(g) Game animals and birds possessed under these permits may be dispatched in a manner as directed by N.J.S.A. 23:3-31 for legitimate purpose, including, but not limited to, the following:

1. Euthanasia of sick, injured or surplus animals, in order to cull individuals to prevent overcrowding or spread of disease; such euthanasia can also be ordered by the Commissioner when necessary to prevent spread of disease;

2. To utilize as food, or to utilize the hide, skin, or other body parts; record-keeping and tagging requirements must comply with those described in N.J.S.A. 23:3-28 to 39;

3. Euthanasia by an agent of the Division or as ordered by the Commissioner;

4. When an animal creates a danger or serious threat to persons or other animals as determined by the Commissioner; or

5. Euthanasia of research animals held under the scientific holding permit.
