

A TOPOGRAPHICAL MAP  
OF THE  
**VICINITY OF SALEM**

FROM WOODBURY AND BRIDGETON, WESTWARD  
TO THE DELAWARE RIVER.

From Original Surveys and Levelings  
Based on the Triangulation of the U.S. Coast and Geodetic Survey.

Scale: 1 Mile to an Inch

GEORGE H. COOK, State Geologist, C. C. VERMEULE, Topographer  
1889.

NOTE: The curved lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above sea level is shown by the figures on the line. The rise or fall from any line to the next is as the figures will show. Points not on any line show the actual elevation of the surface at a point indicated by a small cross. The dotted lines on the blue ground are lines of equal depth of water, and the figures accompanying show depth at mean or half tide.

LEGEND:  
TIDE MARSH  
FRESH MARSH  
MARSH BELOW HIGH WATER  
RECLAIMED LAND (cultivated)  
RECLAIMED LAND (meadow)
