

A TOPOGRAPHICAL MAP
OF THE
VICINITY OF CAMDEN
TO BURLINGTON, WINSLOW, ELMER AND SWEDSBORO.

From Original Surveys and Levelings.
Based on the Triangulation of the U.S. Coast and Geodetic Survey.

JOHN C. SMOCK, State Geologist, C. C. VERMEULE, Topographer.
1894.

Surveys made in 1886. Railroads revised to date.

NOTE. The curved lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above mean sea level is shown by the figures on the line. The line of fall from any line to the next is as the figures will show. Figures not on any line show the actual elevation of the surface at a point indicated by a small cross. The dotted lines on the blue ground are lines of equal depth of water, and the figures accompanying show depth at mean or half tide.

- LEGEND:
- TIDE MARSH
 - FRESH MARSH
 - MARSH BELOW HIGH WATER
 - RECLAIMED LAND (cultivated)
 - PINE SWAMP
 - CEGAR SWAMP
 - CRANBERRY BODIES
 - RAILROAD STATIONS
 - Geodetic Stations
 - CLAY AND MARL PITS
