

A TOPOGRAPHICAL MAP
OF THE
VICINITY OF MOUNT HOLLY
FROM BORDENTOWN SOUTHWARD TO WINSLOW AND WOODMANSSIE.

From Original Surveys and Levellings.
Based on the Triangulation of the U.S. Coast and Geodetic Survey.

Scale: 1 Mile to an Inch.

JOHN C. SMOCK, State Geologist, C. C. VERMEULE, Topographer.

1895

NOTE. The curved lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above mean sea level is shown by the figures on the line. The rise or fall from any low to the next is as the figures will show. Figures set on any line show the actual elevation of the surface at a point indicated by a small cross.
