

A TOPOGRAPHICAL MAP
OF THE
VICINITY OF BARNEGAT BAY
WITH THE GREATER PART OF OCEAN COUNTY

From Original Surveys and Levellings excepting the shore-line of
Barnegat Bay which are principally from the plane-table sheets
of the U.S. Coast and Geodetic Survey.
Based on the Triangulation of the U.S. Coast and Geodetic Survey.

Scale: 1 Mile to an Inch.
Yards
Meters
GEORGE H. COOK, State Geologist, C. C. VERMULE, Topographer.
1886.

NOTE. The curved lines are level lines drawn on the earth's surface. All points through
which any given line passes, are at the same level, and their height above mean sea level is
shown by the figures on the line. The line is not a straight line, but a curve, and the figures
will show that. Figures not on any line show the actual elevation of the surface at a point
indicated by a small cross. The dotted lines on the blue ground are lines of equal depth
of water, and the figures accompanying show depth at mean or half tide.
