

From Original Surveys and Levelings excepting the shore-lines of Bays and beaches from Cape May Court House southward which are from the plane table sheets of the U.S. Coast and Geodetic Survey Based on the Triangulation of the U.S. Coast and Geodetic Survey

Scale: 1 Mile to an Inch
Miles

GEORGE H. COOK, State Geologist, C. C. VERMEULE, Topographer

NOTE. The curved lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above mean sea level is shown by the figures on the line. The rise or fall from any line to the next is as the figures will show ten (10) feet on the northwestern part and five (5) feet on the remainder of the map. Figures not on any line show the actual elevation of the surface at a point indicated by a small cross. The dotted lines on the blue ground are lines of equal depth of water, and the figures accompanying show depth at mean or half tide.

LEGENT

 TIDE MARSH
 FRESH MARSH
 PINE SWAMP
 CEDAR SWAMP
 CRANBERRY BOGS
 RAIL-ROAD STATIONS
 Goodetic Stations.
