

A TOPOGRAPHICAL MAP
OF
KITTATINNY VALLEY AND MOUNTAIN

FROM HOPE TO THE STATE LINE

From Original Surveys and Levelings
Based on the Triangulation of the U.S. Coast and Geodetic Survey.

GEORGE H. CHASE, State Geologist, C. C. VERMISTE, Topographer

1889.

NOTE. The curved lines are level lines drawn on the earth's surface. All points through which any given line passes, are at the same point, and their height above mean sea level is shown by the figures on the line. The rise or fall from any line to the next is as the figures will show. 20 feet figures not on any line show the actual elevation of the surface at a point indicated by a small cross.
