

HENRY B. KÜMMEL, State Geologist      C.C. VERMEULE, Topographer.

ORIGINAL SURVEY 1881-1887  
RESURVEYED 1900-1906  
EDITION OF 1912

ATLAS SHEET No 25

**NOTE.** The curved lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above mean sea level is shown by the figures on the line. The rise or fall from any line to the next is, as the figures will show, 10 or 20 feet. Figures not on any line show the actual elevation of the surface at a point indicated by a small cross. Figures on blue ground indicate the depth of water at mean low tide.

Scale: 1 mile to an inch  
MILES

Post-offices are in Roman Capitals thus: **MILLSTONE**  
Localities not post-offices are in Gothic thus: **PISCATAWAY**
