ATLAS SHEET No. 25

SHEET 25
DIVISION OF GEOLOGY AND TOPOGRAPHY
HENRY B. KÜMMEL, State Geologist

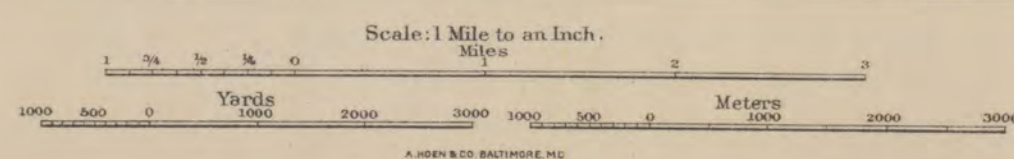

ORIGINAL SURVEY, 1883-4.
PRINCIPAL FEATURES REVISED, 1917, 1928
EDITION OF 1928

NOTE—The curved lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above mean sea level is shown by the figure on the line. The line of all points on any line to the next is, as the figure will show, 10 or 20 feet. Figures not on any line show the actual elevation of the surface at a point indicated by a small cross. Figures on blue ground indicate the depth of water at mean low tide.
