

STATE OF NEW JERSEY
DEPARTMENT OF CONSERVATION AND DEVELOPMENT
ATLAS SHEET No. 26

SHEET 26
DIVISION OF GEOLOGY AND TOPOGRAPHY
HENRY B. KÜMMEL, State Geologist

ORIGINAL SURVEY 1887, RESURVEYED 1898-1903
PRINCIPAL FEATURES REVISED, 1908, 1920-1
EDITION OF 1927

NOTE.—The contour lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above mean sea level is shown by the figures on the line. The rise or fall from any line to the next is, as the figures will show, 10 or 20 feet. Figures not on any line show the actual elevation of the water at mean low tide.
