SHEET 29
TOPOGRAPHIC SERIES

NOTE.—The contour lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level and their height above mean sea level is shown by the figures on the line. The line is full from any line to the next in the figures will show, 10 feet. Figures not on any line show the actual elevation of the surface at a point indicated by a small cross. Figures on blue ground indicate the depth of water at mean low tide. North of the State line for the areas not contoured data have been taken from the U. S. G. S. sheets.

The numbers shown at the borders are for the N. J. Plane Coordinate Grid System, based on the N. J. Geodetic Control Survey. (The last three digits of the coordinates are omitted.)
