

# ATOPOGRAPHICAL MAP OF THE VICINITY OF TRENTON NEW BRUNSWICK AND BORDENTOWN.

From Original Surveys and Levelings based on the  
Triangulation of the U.S. Coast and Geodetic Survey.

Scale: 1 Mile to an Inch

JOHN C. SMOCK, State Geologist, C. C. VERMILITE, Topographer.

1894.

Surveys made in 1885. Railroads revised to date.

NOTE: The curved lines are level lines drawn on the earth's surface. All points through which any given line passes are at the same level, and their height above mean sea level is shown by the figures on the line. The rise or fall from any line to the next is as the figures will show. (Note: Figures not on any line show the actual elevation of the surface at a point indicated by a small cross.)
