

A TOPOGRAPHICAL MAP  
OF THE  
**MONMOUTH SHORE**  
WITH THE INTERIOR FROM METUCHEN TO LAKEWOOD

From Original Surveys and Levelings based on the Triangulation  
of the U.S. Coast and Geodetic Survey.

GEORGE H. COOK, State Geologist, C.C. VERMILIE, Topographer.

Scale: 1 Mile to an Inch

1888.

NOTE. The curved lines are level lines drawn on the earth's surface. All points through which they pass are at the same level and their height above sea level is shown by the figures on the line. The rise or fall from any bar to the next is as the figures will show. Figures not on any line show the actual elevation of the surface at a point indicated by a small cross. The dotted lines on the blue ground are lines of equal depth of water, and the figures accompanying show depth of mean or half tide.
