

## Unregulated Heating Oil Tank (UHOT) System Remediation Form - Change log

### Changes Since the Previous Version

1.2 - 7/20/16

#### Form

- Section D: Removed question regarding whether the person responsible for conducting the remediation is subject to an annual remediation fee.

#### Instructions

- General Instructions
  - Applicability
    - Added language clarifying who should use this form. States that for sites being remediated by a licensed site remediation professional, the form should be used only if the person responsible for conducting the remediation is seeking a no further action letter from the Department, and that the applicable fee in Section D is required.
    - Added language clarifying that the form should not be used for sites subject to and being remediated pursuant to the Industrial Site Recovery Act, as the unregulated heating oil tank system is to be included in the entire site response action outcome to be issued by the licensed site remediation professional.
- Section D
  - Deleted language regarding “Indicate if the Person Responsible for Conducting the Remediation is subject to an annual remediation fee.”
  - “Submission of Remedial Action Report”: Deleted statement that the \$400 fee is not required if the person responsible for conducting the remediation is subject to an annual remediation fee.
  - “Re-issuance of NFA with Amended Form”: Deleted statement that the \$100 fee is not required if the person responsible for conducting the remediation is subject to an annual remediation fee.

1.1 - 4/1/15

#### Form

- Section D: Updated section to account for a Person Responsible for Conducting the Remediation who is subject to an annual remediation fee.
