

NJDEP TO USE FIRST ROUND OF VOLKSWAGEN SETTLEMENT FUNDS FOR ELECTRIC VEHICLE CHARGING STATIONS

On February 28, 2019 the New Jersey Department of Environmental Protection transmitted to the Volkswagen Environmental Mitigation Trust for approval the allocation of \$11.2 million from New Jersey’s share of the federal Volkswagen settlement for hundreds of electric-vehicle charging outlets across the state.

Electric Vehicle Charging Stations

\$3.2 million is proposed to the Volkswagen Mitigation Trust to allow DEP to award grants for approximately 827 charging outlets at 533 charging stations under *It Pay\$ to Plug In – New Jersey’s Electric Vehicle Charging Grant Program*, more than doubling the number of non-residential charging outlets in the state. Governor Phil Murphy has committed to using 15 percent or \$10.8 million of the state’s settlement amount for electric-vehicle charging stations.

The projects below, which are on the waiting list for *It Pay\$ to Plug In*, are under review by DEP to confirm the number and type of charging stations to be installed and the estimated grant amount.
