

### **SUMMARY OF RESULTS – FIBI035a**

1. Stream Name: Goffle Brook 2. Sampling Date: 06/16/2011 3. Sampling Location: Thomas Road 4. Municipality Hawthorne 5. County: Passaic 6. Watershed Management Area: 4 7. Contributing Drainage Area (Sq. Mi.): 8.4 8. Electrofishing Gear: 2 Backpacks 9. FIBI Score and Rating\*: R2-36(Fair), R3-30(Fair) 10. Habitat Score and Rating: R2-85(Marginal), R3-108(Marginal) 11. Fishable Species Present: Yes 12. Relevant AMNET<sup>1</sup> Station Data: Proximity of FIBI station to AMNET station: 0.3mi. US AN0277 AMNET Rating: 13. Stream Chemistries: Dissolved Oxygen (mg/l) 8.42 Temperature <sup>0</sup>C. 17.98 pН 6.76 Conductivity (µmhos/cm) 700 14. Length of Stream Sampled: 150m 15. Water Clarity: Clear 16. Average Open Forest Canopy: 9%

<sup>1</sup> AMNET is the acronym for the DEP's ambient benthic macroinvertebrate monitoring network – a series of 820 monitoring stations located throughout the state's waterways that collects data on the health of bottom dwelling stream fauna which in turn is used to assess general water quality
