

Appendix

Mortality Experience Table

By Number of Contracts

Life Expectancy at Issue	In Force 01/01/----	Contracts added during year	Expected Deaths	Actual Deaths
< 6 months				
6 to 12 months				
12 to 18 months				
18 to 24 months				
24 months or more				

By Amount of Insurance

Life Expectancy at Issue	In Force 01/01/----	Contracts added during year	Expected Deaths	Actual Deaths
< 6 months				
6 to 12 months				
12 to 18 months				
18 to 24 months				
24 months or more				

In column 1, enter the number of contracts in force or amount of insurance in force under viatical settlements as of the beginning of the year, broken down by the life expectancy on which the original consideration was based.

In column 2, enter the number of contracts added during the year.

In column 3, enter expected deaths (number or amount) from columns 1 and 2, as estimated by the provider's actuary and based on life expectancy assumptions.

In column 4, enter the actual deaths (number or amount) from columns 1 and 2.
