

Calculation of Maximum Expenses for Prior Approval/Limited Auto Rate and Excess Profit Filings:
Effective June 1, 2019 (including for 2019 Excess Profit Filings)

In accordance with N.J.A.C. 11:3-16.9(c), all insurers filing for Private Passenger Automobile rate revisions shall limit the historic expense provision for Commission and Brokerage, Other Acquisition Expenses, and General Expenses on a combined basis to the weighted average plus five percent of those companies that use the same marketing method as the filer. Companies with membership requirements or only write motorcycle, specialty, PAIP policies are excluded.

Written Premium volume and Commission and Brokerage Expense are based on data from the Statutory Page 14 Exhibit for New Jersey. Other Acquisition Expense and General Expense are based on direct countrywide data from Part 3 of the Insurance Expense Exhibit. Three years of data, 2016-2018, were analyzed. A weighted average by New Jersey Written Premium was calculated individually by year, and the three years were averaged to calculate a cap. Liability and Physical Damage data was analyzed separately.

All expense ratios were calculated as a percent of Direct Written Premium or Direct Earned Premium net of dividends, but gross of excess profits to reflect the reduced premiums of companies that consistently pay dividends.
