#### 1. EDUCATION PROGRAM AND CAPACITY

#### 1.1 Mission

Describe how the renaissance school project has progressed towards achieving the mission, goals, and objectives as included in its application to the State. (Please limit your response to a 1-page maximum.)

#### THE MISSION

All students learn the academic and personal skills they need to succeed in higher education, compete in the global economy, and pursue their dreams.

Serving the students of Camden towards our ambitious mission has meant providing robust programming for students with a variety of special education and English language needs. Our programming is designed on an individual basis to respond to the needs of each student, to meet them where they are academically, behaviorally, and socio-emotionally to support them in meeting our rigorous expectations. In addition to our academic programs, students engage in daily social-emotional learning through community and morning meetings, in which teachers develop social skills and support students in their interactions with peers and school staff. Students and families also have access to daily aftercare services, if needed, and summer programming that provides opportunities for enrichment, homework support, and joyful activities such as arts and crafts and sports. Our summer program prioritized the needs of students in reading and math and partnered with outside organizations to provide further enrichment. Furthermore, students experience a variety of enrichment courses throughout the year including Spanish, physical education, art and music - all designed to provide access to varied coursework to prepare our students beyond Mastery. Our sports and extracurricular programs also help ensure students have a robust and holistic experience.

#### 1.2 Curriculum

a) As Appendix A, provide a signed assurance that the renaissance school project's curriculum is aligned to the New Jersey Student Learning Standards.

Our curriculum is aligned with New Jersey Student Learning Standards through grade 8. Because Mastery Schools of Camden only served grades K-9 in the 2016-17 school year and it was our third year of operation in New Jersey, our curriculum was not yet built out to 12<sup>th</sup> grade in a format that fully aligns with standards. We anticipate having a fully aligned curriculum by the beginning of the 2017-18 school year and have begun the process of creating and aligning our high school materials. Additionally, we have gone through a careful standards mapping process to ensure students are meeting all of the state mandated standards.

b) Provide details about any planned changes to the curriculum and assessments for the 2017-2018 school year. (Please limit your response to a 1-page maximum.)

The majority of our curricular approach remains the same for the 2017-2018 school year. Changes are included below:

- Because we will be adding a 10<sup>th</sup> grade we will be adding high school level core and elective classes. Additionally we will be administering the appropriate PARCC assessments.
- We will be increasing the number of extra-curricular activities for all students and growing competitive high school sports teams.
- We are adjusting our literacy curriculum in grades 3 through 8 to incorporate a PARCCaligned comprehensive program (KIPP Wheatley).

We are continuing to prioritize innovative approaches to reading, identifying best practices and programs to supplement our approach in early reading.

#### 1.3 Instruction

a) What constitutes high quality instruction at this school?

This past year, we went through a strategic planning process to refine our definition of high quality instruction and revamped our instructional standards for the 2017-2018 school year. Instruction is broken into five key standards, which fall into student outcomes or teacher actions. Student outcomes standards include 1) student achievement, 2) content engagement and 3) supportive community and teacher action standards include 4) lesson design and facilitation, and 5) relationships, motivation and classroom management. Instructional standards span the 4 tiers of teacher performance categories and align to our performance-based pay system (associate, senior associate, advanced and master teaching categories). All teachers are expected to master instructional foundations, which serve as the basis for high-quality instruction.

b) Provide a brief description of the school's instructional practices.

Our instructional program is rooted in balancing direct instruction with a constructivist or conceptual approach. Our program balances meeting students where they are against the rigorous bar set by the PARCC assessment and the NJ state standards. As such, all of our programming offers our students multiple experiences to ensure they are both growing and improving against the grade level bar. We balance all of our instruction with a culture of joy, play and enriching experiences that meet the holistic needs of our learners.

#### Literacy

Mastery believes the foundation of student achievement is reading. The National Research Council found that "Academic success, as defined by high school graduation, can be predicted with reasonable accuracy by knowing someone's reading skill at the end of 3<sup>rd</sup> grade." With this in mind, one of our most important priorities is to develop all teachers as exceptional reading instructors, employing best practices in reading instruction.

One of the biggest challenges we will face will be addressing students' reading deficits. Mastery's reading program is purposefully designed to meet students' needs in terms of decoding, comprehension, fluency, vocabulary and writing. At the K-2 level, Mastery dedicates nearly 200 minutes to literacy instruction. K-2 classrooms also have a higher teacher to student ratio and utilize self-directed computer-based instruction so the classroom can be subdivided into small reading groups. In grades 3-6, students have guided reading conferences, a text study course, and a daily writing course. Students with significant deficits in decoding will receive an additional targeted intervention through our RTII model.

Throughout the K-6 program, students' reading is assessed in two important ways. First, we use the Fountas and Pinnell Assessment Benchmark Assessment System to constantly measure student reading levels on an A-Z continuum in order to identify specific strengths and weaknesses. Second, students take PARCC-aligned benchmark assessments every 8-10 weeks beginning in third grade. These assessments are used at the primary tool for teacher planning and instructional delivery in grades 3-6.

#### Math

Two blocks—enVision Math and number stories/fluency make up our math program and address three core considerations:

- Cohesion—using a consistent program from kindergarten, students are systematically introduced to mathematical concepts broken apart by math topics that support teachers in assessing student mastery of key understandings.
- Foundational Numeracy and Computation—using number stories and fluecy as well as the enVision Math Program, students learn the foundations of numeracy and computation that set the stage for a lifetime of math excellence.

<sup>&</sup>lt;sup>1</sup> National Research Council (1998) <a href="http://www.ed.gov/inits/americareads/ReadDiff/">http://www.ed.gov/inits/americareads/ReadDiff/</a> accessed on 12/14/04. In addition, in his review of high-performing, high poverty schools, Samuel Casey Carter, concludes that a laser focus on basic literacy and math in the early years of schools was a central commonality among high-performing elementary schools. Casey, Ibid., p. 28.

3) Critical Thinking and Problem Solving—most importantly, students are consistently pushed to think critically, employ math-attack strategies, and solve word problems with accuracy and thoroughness (using a variety of different methods to come to the same answer).

Students use manipulatives through the K-6 program and see math in a variety of important contexts. Math RTII is also in place at schools based on students' needs.

#### 1.4 Assessment

a) Fill in the following table to show year over year trends in the proportion of students meeting or exceeding grade-level expectations ("proficiency rate") on all PARCC assessments administered by the school. Note: If 2016-17 PARCC results have not been released to schools by July 15, 2017, then leave the 2016-17 column blank.

PROFICIENCY RATES ON PARCC ASSESSMENTS				
Assessment	2014-15	2015-16	2016-17	
ELA 3	6.9%	10.5%	13.6%	
ELA 4	20.4%	10.2%	18.2%	
ELA 5	19.2%	7.9%	14.8%	
ELA 6	NA	15.9%	17.3%	
ELA 7	NA	15.2%	25.0%	
ELA 8	NA	19.8%	18.9%	
ELA 9	NA	NA	8.5%	
ELA 10	. 10 NA		NA	
ELA 11	NA	NA	NA	
MAT 3	1.3%	11.5%	17.0%	
MAT 4	6.0%	3.6%	10.4%	
MAT 5	14.3%	5.4%	9.9%	
MAT 6	NA	3.9%	5.1%	
MAT 7	AT 7 NA		7.8%	
MAT 8	MAT 8 NA		12.9%	
Algebra I	Algebra I NA		18.9%	
Geometry	NA	NA	NA	
Algebra II	NA	NA	NA	

b) Explain the main reasons why the school has or has not seen year over year increases in the proficiency rate, and what steps the school has taken, or plans to take, to ensure progress in both subjects by grade level and by subgroup (i.e., students eligible for free and reduced price lunch, English language learners, students with disabilities, and racial/ethnic groups).

Growth this year was primarily driven by school leaders' use of data. Interim assessments throughout the year gave school leaders actionable data that they used to group students, reinforce skills, identify standards to reteach, and respond to assertively. Additionally, our focus on PARCC alignment ensured that students were engaging with the right content.

- c) For each subject and grade level, provide a list of the diagnostic, formative, and summative assessments that were administered during the 2016-17 year.
  - Fountas and Pinnell Reading K-2
  - Quarterly benchmarks in reading, writing, science and math starting in 3rd grade (math starts in first grade with a performance task for kindergarten)
  - MAP assessment
- d) Describe how results from the assessments listed above were used to improve instructional effectiveness and student learning.
  - Quarterly Fountas and Pinnell Reading assessment data drives guided reading instruction
  - Quarterly benchmarks in reading, writing, science and math starting in 3<sup>rd</sup> grade (math starts in first grade with a performance task for kindergarten) are used to align students' strengths and deficits to the PARCC rigor bar
  - MAP assessment at the beginning and end of each school year measures progress against a national bar
  - Daily and periodic assessments serve as a formative assessment for teachers to utilize to adjust instruction.

## 1.5 Organizational Capacity

- a) As Appendix B, provide an organizational chart of the renaissance school project for the 2017-2018 school year.
- b) As Appendix C, provide a list of the lead person(s), teachers, and professional support staff if any renaissance school project staff has changed. *If you have updated this information in NJSMART, please indicate below that this information has already been submitted.*

This information has already been submitted in NJSMART.

## 1.6 2017-2018 School Calendar

As Appendix D, please provide the 2017-2018 school calendar.

#### 2. SCHOOL CULTURE AND CLIMATE

#### 2.1 School Culture and Climate

a) Describe how the renaissance school project promotes a culture of learning, scholarship, and high expectations. Evidence may include, but is not limited to, student-led organizations, student

achievements and recognition, levels of disciplinary referrals, class and staff attendance, and participation in school events and activities. (Please limit your response to a 1-page maximum.)

Student Achievement Above All Else—our number one value as an organization is the success of our students rooted firmly in our mission statement: All students learn the academic and personal skills they need to succeed in higher education, compete in the global economy, and pursue their dreams.

A culture of achievement begins with airtight school policies and procedures and instruction that is rigorous, standards-based, and always drives towards measurable outcomes. Our program is designed to build skills report period by report period, grade by grade, in order to prepare students for college and beyond.

In line with this, we use rigorous benchmark assessments, reading growth assessments, and portfolio assignments that push students to produce challenging work that represents the high instructional bar that Mastery sets. We celebrate our academic successes and we target deficits strategically and urgently, constantly focusing on moving students forward in measurable ways. Every minute counts—children's futures depend on it.

That said, we measure our success and progress across our schools in a variety of formats. All of our schools in Camden have dramatically improved student attendance, decreased incidence of disciplinary infractions, and improved the climate and culture of their buildings. Our leader retention is among the highest in the country amongst our peers.

- b) Describe how the renaissance school project provides the social and emotional supports and health services to adequately meet the needs of its students. Please include the categories and types of services available. (Please limit your response to a 1-page maximum.)
- Students identified as having emotional support needs participate in a therapeutic program driven by their individual needs as laid out in the individualized education plans.
- Students are engaged in Second Step programming during morning meeting to build a core set of grade-level appropriate social emotional skills.
- Additionally, students with counseling needs receive counseling services. A designated school social worker provides additional support to students in need.
- Our school nurse meet the needs outlined in students' health plans, as well as daily medication needs, and all screening requirements.

#### 2.2 Family and Community Engagement

 a) List and briefly describe the major activities or events the school offered to parents/guardians during the 2016-17 school year.

#### August

- <u>Student & Family BTS BBQ</u> Families were invited to come to the school for fun outdoor games & inflatable attractions in an open house to get information about the new school year.
- <u>Kindergarten Orientation</u> We trained parents on what Kindergarten classes contain and the school environment which their child will be enjoying.
- After School Parent Orientation Parents were invited to learn about our after school program.

#### September

- <u>Back to School Night</u> Parents visited the school to meet teachers.
- <u>Title I Meeting</u> Parents were informed about our Title I program and invited to give input.
- Game Night Students and parents had fun playing educational games together.

#### October

- <u>Hispanic Heritage Festival</u> Families enjoyed a Spanish Celebration given by students in Spanish, sang the Colors in Spanish, and told their parents "*Te Amo*".
- <u>Parade & Harvest Party</u> Parents, teachers, students dressed up in costumes went around the school and then came back to the school where every classroom had a party.
- <u>Mastery Parent University College Readiness Workshop I</u> This series helps parents of high school students learn how to support their children in preparing for college.

#### November

- RP1 Parent Teacher Conference Parents met with their children's teachers, reviewed report cards, and discussed their children's progress. We offered community resource information and gave out scarfs and gloves for the winter donated by the Baptist Church.
- <u>Bilingual Parent Advisory Mtg.</u> Parents were asked to fill out a survey and then meet to discuss improvement needed to increase Bilingual Services.
- <u>Thanksgiving Baskets</u> We prepared beautiful baskets for parents and received food from the Goldberg Group to give to more parents.

#### December

- <u>Parent Focus Group Meeting</u> Parents were asked to pinpoint areas of improvement and give suggestions on how to bring about those improvements.
- <u>Focus Students Parent Meeting</u> Specific students were invited with their parents to discuss strategies to move further in their academic goals.
- Holiday Haircuts Day Parents were given free haircuts for their children.

#### January

- <u>MLK Family Day of Service</u> Families made placemats and table centers for the tables of Cathedral Kitchen where more than 300 people eat daily.
- <u>Student Achievement Lunch</u> We invited parents to celebrate high achievers. Proud parents attended and enjoyed their child's recognition.
- <u>RP2 Parent Teacher Conference</u> Parents met with their children's teachers, reviewed report cards, and discussed their children's progress.
- Parent Action Team Meeting

#### February

- Donuts with Dad We invited fathers to breakfast with their child.
- Muffins with Mom We invited mothers to breakfast with their child.

- <u>Black History Celebration</u> Parents were invited to our Black History Month Celebration.
- <u>Mastery Parent University College Readiness Workshop II</u> This series helps parents of high school students learn how to support their children in preparing for college.

#### March

- <u>Dr. Seuss Family Breakfast</u> Parents were invited to a Dr. Seuss breakfast with green eggs, colored drinks and foods.
- <u>Immigration Workshop</u> This program addressed parents' concern about new immigration executive orders. The Consulate of Mexico, Camden County Department of Constituent Services Office of Hispanic Affairs, Jessica Ramirez, Attorney at Law.
- Parent Action Team Meeting
- Parent Leadership Training
- Open House for New Parents and Students
- The Truth About My Child's IEP Information and Empowerment Workshop

#### April

<u>Family Fun Night</u> – Ice Cream Social Activity for parents.

#### May

- <u>RP3 Parent Teacher Conference</u> Parents met with their children's teachers, reviewed report cards, and discussed their children's progress.
- RP3 Celebration Town Hall Parents invited to celebrate their children's achievement.
- <u>Plaza Comunitaria Adult Spanish Literacy Program Inauguration</u> This program is implemented through the Mexican Consulate for all Latin Americans that want to pursue or finish their High School Education.
- <u>Parent Workshop</u> "Emotional Health Workshop" was offered to parents, presented by our social worker, Ms. Frances Gonzalez.

#### June

- <u>5<sup>th</sup> & 8<sup>th</sup> Grade Move Up</u> Parents were invited to witness a ceremony in which their 5<sup>th</sup> graders became 6<sup>th</sup> graders and 8<sup>th</sup> graders entered High School.
- End of Year Awards Assembly -
- <u>After School Club Showcase</u> After School Clubs invited parents to enjoy a snippet of each clubs' activity and performance.
- <u>Parent Workshop</u> "What to do with your child during the summer" was an informative presentation given to parents.
- 2<sup>nd</sup> Annual Father & Daughter Dance In a city and in an age where fathers are absent from homes, more than 70 fathers took their daughters out to dance the Beauty and the Beast Waltz!

- b) List and briefly describe the major activities or events conducted by parents/guardians to further the school's mission and goals.
  - Parent Association parents are forming four teams
    - Community partnerships: assist in bringing in special events to the school and individual classes, especially monthly Food Bank, Girl Scout Troop and Cookie Sales and LEAD field trip
    - Equipo de padres latinos: voice concerns and experiences of Spanish-speaking students and families
    - School events: set up decorations and spreading the word about school events
    - o Outreach: Sharing information with families about school events
  - <u>Parent Volunteer Recruitment</u> Parents were given the charge to recruit parent volunteers.
  - <u>Parent Action for Safety Group</u> We trained and empowered parents to hold a township meeting at McGraw to speak out regarding safety concerns on Fremont Avenue. Government officials attended, heard and took action. The parents accomplished the following:
    - Stop Signs
    - Street Lights
    - Park Renovation Plan
- c) Fill in the requested information below regarding community involvement. Add or delete rows as necessary.

b) Describe how the school monitors and minimizes attrition rates to ensure stable enrollment. (Please limit your response to a 1-page maximum.)

To ensure a stable enrollment for the Mastery Schools of Camden, each school works diligently to track closely their attendance, enrollment, and attrition rates. There are a variety of tactics leveraged to ensure that the school enrollment is healthy throughout the year:

#### **Enrollment monitoring**

- The school actively takes and monitors attendance on a daily basis, as it is an essential lead indicator of healthy enrollment. Attendance is completed by 8:30am, and follow ups to absent students happen during that morning. If students are absent for 3 consecutive days, letters are set home and meetings with the family are scheduled.
- Enrollment tracking, particularly around new enrollments and withdraws, occurs in real-time in the Mastery student information system (SIS), ESchools. Regular discussions around this data occurs between leaders in the school on a daily (at the start of the year) to weekly (later in the year) basis to ensure that trends are identified and acted upon.
- Applications and new enrollments are closely tracked throughout the year, so that appropriate outreach actions are taken to support members of the community to join the school.

#### Attrition minimization

- Students and parents are frequently engaged in conversations about the school community to ensure that their needs are met and they play a strong part in their education.
- For students who elect to leave the community, part of the withdraw process is an opportunity to share with the school why this withdraw occurred. This data is collated in the Mastery SIS for analysis. If trends are demonstrated (I.E. transportation, bullying, etc.), actions are taken by the school leader to mitigate these concerns/issues.

## 5. FACILITIES

#### 5.1. Funding

Describe any anticipated change(s) in the renaissance school project's facility financing.

For the new construction project (Cramer Hill Elementary), there is a construction loan from M&T Bank. For the 4 significant reconstruction projects, there is a construction loan from The Reinvestment Fund, Low Income Investment Fund, Boston Community Capital, and Capital Impact Partners.

#### **5.2 Structural Changes**

a) List renaissance school project sites that will be undergoing construction between July 2016 and June 2017.

The construction of the new Cramer Hill Elementary school is currently underway. The anticipated completion date is Fall 2017.

Renovations to Molina are currently underway. The anticipated completion date is Spring 2018.

Renovations to McGraw, East Camden Middle, and Pyne Poynt Middle are set to begin in Fall 2017. The anticipated completion date is Fall 2018.

- b) Provide assurances that site plans and/or substantial reconstruction plans have been submitted to NJDOE for each site.
  - Site plans and approvals have been submitted to New Jersey DoE and the Camden City School District for all projects.
- c) Please provide details of any modifications to existing site plans and/or substantial reconstruction plans that have been submitted to NJDOE. *If there are no modifications to the existing plans, simply indicate that here by writing "N/A" next to numbers 1-4.*

N/A for Questions #1-4 for new construction, Cramer Hill Elementary, and substantial reconstruction plans for Molina, McGraw, East Camden Middle, and Pyne Poynt Middle. Last updates submitted on February 2017 on new construction and renovations to Department of Education.

## **Curriculum Statement of Assurance**

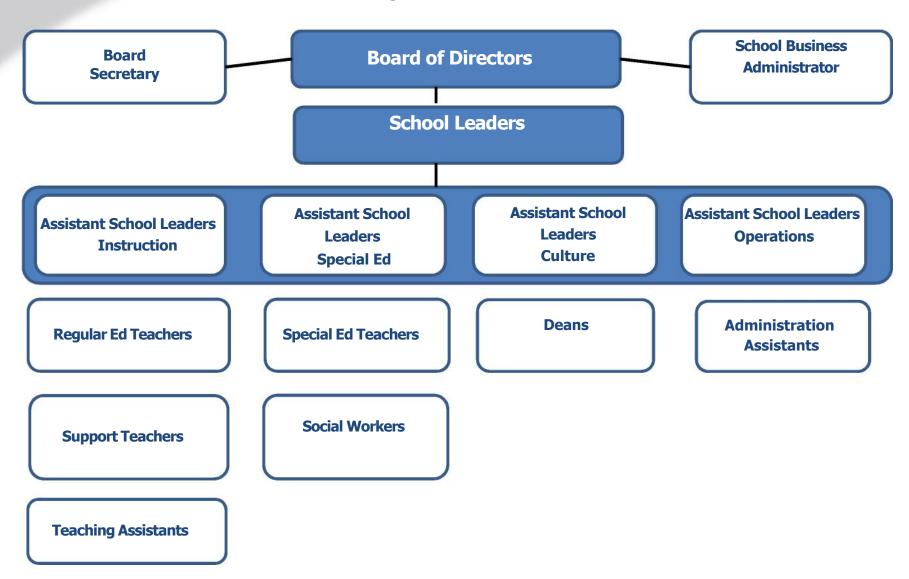

# **Mastery Schools of Camden**

I affirm that Mastery Schools of Camden's curriculum is aligned to the New Jersey Student Learning Standards

Renaissance Project Lead, Scott Gordon
