(c) District boards of education shall adopt policies to ensure that all transportation provided to their resident students is done in compliance with all State and Federal laws and regulations.
(d) District boards of education providing transportation services shall be responsible for the suspension of transportation services due to inclement weather or other conditions.

6A:27-1.4 Students who shall be transported

(a) Transportation shall be provided to public school students who reside remote from their assigned school of attendance, nonpublic school students who reside remote from their school of attendance and meet the eligibility criteria of N.J.A.C. 6A:27-2.2, and special education students who reside remote from their assigned school or who require transportation services in accordance with their individualized education program (IEP). Transportation shall also be provided to preschool students who live remote from their school of attendance and either are enrolled in a universal preschool program or meet the age and income eligibility requirements of and are enrolled in a targeted preschool program pursuant to N.J.S.A. 18A:7F-43 et seq.

1. The words “remote from the school of attendance” shall mean beyond two and one-half miles for high school students (grades nine through 12) and beyond two miles for elementary school students (grades preschool through eight).

2. For the purpose of determining eligibility for student transportation, measurement shall be made by the shortest route along public roadways or public walkways between the entrance of the student’s residence nearest such public roadway or public walkway and the nearest public entrance of the school which the student attends.

(b) Pursuant to N.J.S.A. 18A:39-1c, transportation need not be provided if a student’s parent or guardian signs a written statement waiving transportation services for the school year.

1. District boards of education shall develop a policy for the provision of transportation services to the student in the case of a family or economic hardship,
and may develop guidelines and procedures for parental waivers of transportation services.

v. The term of the contract including payment terms;

vi. The need for specialized equipment or restrictions due to student classification, if applicable;

vii. The criteria to be used to award a contract in the case of a tied bid;

viii. A copy of the school calendar for routes to and from school; and

5. The bid specifications also shall include language that prohibits the subcontracting of contracts without prior written approval of the district board of education and, with the exception of contracts awarded on a per student basis, the commingling of students unless authorized to do so by the district board of education through the joint transportation agreement process.

6. District boards of education may include penalty language for noncompliance with the terms of the contract.

(e) The district board of education shall include language that directs bidders to submit the following documents and forms prescribed by the Commissioner to be made part of the bid specifications and the contract:

1. A bid sheet for transportation to and from school shall contain a provision for the bid to be made on a per diem or per annum basis and on a per route basis for
regular public, nonpublic and in-district special education students; and on a per route, per vehicle, per student, or per mile basis for special education students transported outside the school district;

i. The bid sheet shall identify each route to be bid and include a separate cost for adjusting the contract. Cost adjustments on a per mile basis are required for regular public and nonpublic school routes and in-district special education routes, and on a per mile, per student, or per vehicle basis for out-of-district special education routes. The cost of adjusting the contract shall be the same whether it is being increased or decreased.

ii. Routes that require an aide shall be bid on a per diem basis.

iii. The bid sheet shall include a separate provision for the per diem cost for each aide to be assigned to the route.

iv. If an aide is not required at the time of the bid but the district board of education wishes to obtain an aide cost in the event an aide is needed at a later date, the bid specifications shall include such language. The aide cost shall not be used if the need for the aide is unknown when determining the low bidder.

v. The per diem cost of adding or removing an aide shall be the same.

vi. The bid sheet may include a separate provision to request bulk and combination bids.

vii. Except for school related activities transportation, bids that do not include an adjustment provision shall not be considered by the district board of education.

2. The bid sheet for school related activities transportation shall include a provision for bids to be made on an hourly rate per vehicle or a per trip rate per vehicle, and shall include a separate provision for an aide cost, if required.
i. The bid sheet shall contain an identification number for each bid solicited on an hourly rate per vehicle or a per trip rate per vehicle.

ii. The bid sheet shall contain a separate provision for adjusting the contract on a per hour or per mile basis if an adjustment is solicited by the district board of education.

3. A business registration certificate;

4. A bidder’s questionnaire and consent of surety;

5. A stockholder’s disclosure statement;

6. An affirmative action questionnaire;

7. A non-collusion affidavit;

8. Proof of the ability to obtain automobile liability insurance coverage required by the specifications; and

6A:27-9.4 Responsibilities of the bidder

(a) Bidders or their agents shall not draft specifications or route descriptions to be advertised for bid.

(b) The bidder shall complete and submit the bid on the bid sheet contained in the specifications. Bids that do not include a separate cost for adjusting the contract shall not be considered by the district board of education.

(c) Alternate bids not solicited by the district board of education shall not be considered for award.

(d) Bids are to be placed in a sealed envelope and submitted in the manner specified by the district board of education.
(e) Bidders shall submit a guarantee payable to the district board of education to ensure that the successful bidder shall enter into that contract, if awarded, and furnish a performance surety bond.

1. The guarantee to be submitted shall be a certified check, cashier’s check or bid bond as required by the district board of education. No other form of guarantee is authorized.

2. The bid bond, cashier’s or certified check shall be forfeited upon refusal of the successful bidder to execute a contract; otherwise, the guarantee shall be returned when the contract is executed and a performance bond filed.

(f) A surety bond for the performance of the contract for transportation to and from school equal at least to the amount of one year of the contract shall be provided to the district board of education. In the case of contracts for more than one year, the bond may be for an amount in excess of the proportionate annual contract amount as determined by the district board of education.

(g) A surety bond for the performance of the contract for transportation for school related activities shall be provided to the district board of education as required by the specifications.

(h) A surety bond shall be provided for the faithful performance of all provisions of the specifications and for all matters that are contained in the notice to bidders and relate to the performance of the contract.

(i) The performance surety bond shall be either a corporate or personal surety bond as required by the district board of education.

(j) The performance surety bond shall be submitted to the district board of education with an executed contract prior to the start date of the contract.

6A:27-9.5 Bidder’s guarantee
(a) The district board of education may require the guarantee to be submitted in the form of a
     certified check, cashier’s check, or bid bond. No other form of guarantee is authorized.

1. The bidder guarantee shall include the number assigned to the bid for which
     guarantee is submitted.

(b) The amount of the bidder’s guarantee shall be a minimum of five percent of the bid, not
     to exceed $50,000.

(c) Except for the three lowest bidders, the guarantee shall be returned to the bidders within
     10 working days after the opening of the bids.

6A:27-9.6 Performance surety bond

(a) A surety bond for the performance of contracts and contract renewals for transportation
     to and from school equal at least to the amount of one year of the contract shall be
     required by the district board of education. In the case of contracts for more than one
     year, the bond may be for an amount in excess of the proportionate annual contract
     amount as determined by the district board of education. The district board of education
     may require a performance surety bond furnished by a corporate surety company
     recognized by the State Department of Banking and Insurance as being authorized to do
     business in the State or may permit a personal surety bond.

1. Contracts awarded on a per diem basis shall be bonded in the per annum amount
     based on the actual number of days transportation is required by the school
     calendar or may be in the per annum amount based on 180 days.

2. Contracts for school related activities transportation shall be bonded for an
     amount to be determined by the district board of education.
3. The district board of education may require a performance surety bond for quoted contracts.

4. Personal bonds shall be submitted on the personal surety bond form prescribed by the Commissioner. The bond shall be signed by at least two responsible sureties who are residents of New Jersey, neither of whom shall be a member of the district board of education, and shall include the multi-contract number(s) or route number(s) guarantied by the bond.

   i. The district board of education shall have the right to reject an individual surety offer, and may request a certification that each individual’s net worth is sufficient to guaranty the bond.

5. The corporate bond shall be issued in the name of the school bus contractor with whom the district board of education holds the contract and shall be signed by the contractor and authorized agent of the bonding company. The bond shall also include the multi-contract number(s) or route number(s) guarantied by the bond.

   (b) If it is necessary to replace an existing corporate or personal surety bond, the contractor shall furnish a new surety bond as required by the original bid. The contractor may substitute a corporate bond for a personal bond with the approval of the district board of education.

6A:27-9.7 Bulk and combination bids

(a) District boards of education may receive bulk and combination bids.

   1. A bulk bid is a bid that is awarded for a lesser price than the sum of the individual bids when all routes advertised in the bulk bid are awarded to one bidder.
2. A combination bid is a bid that is designed by the district board of education and groups specified routes together to be serviced by the contractor utilizing the same vehicle for all routes in the group.

(b) Bulk and combination bids shall include individual route or contract costs.

1. Bulk bids shall contain a percentage deduction that shall be applied to each route or contract bid price when all routes or contracts contained in the bulk bid are awarded to a single bidder.

(c) Bulk bidding shall not be used to eliminate competitive bidding.

6A:27-9.8 Receiving and opening bids

(a) Unless the proposals are to be received at a meeting of the district board of education, a committee, officer, or employee of the district board of education shall be designated to receive the proposals at a time and place designated by the district board of education and stated in the bid advertisement. At the time and place so designated and advertised, the district board of education or any board-designated committee, officer, or employee shall receive the proposals and proceed to unseal them and publicly announce their contents. No proposals shall be opened before the time designated in the advertisement and none shall be received thereafter.

(b) The district board of education shall reserve the right to reject any or all bids.

(c) After bids are opened, a district board of education cannot impose new conditions and bidders cannot be allowed to change bids or make oral bids. Specifications shall not be modified after bids have been received and the contract awarded to one of the bidders upon revised specifications.

(d) Bulletins issued to explain minor details of specifications and to make minor changes shall not invalidate the award of a contract to the successful bidder when it appears that
all such bulletins were received by all prospective and actual bidders in advance of the submission of bids. The officer of the district board of education responsible for distributing specifications to prospective bidders shall keep a list of their names and addresses so that bulletins can be issued to them, if necessary. If a district board of education finds it has made in good faith a mistake in its specifications that cannot be corrected, bids shall be rejected and re-advertised.

6A:27-9.9 Contracts

(a) The term of the original contract shall not exceed four years.

1. Beginning in the second year, a multi-year contract may be increased annually by a maximum of seven and one-half percent of the original yearly contract amount in accordance with N.J.S.A. 18A:39-2.

(b) All contracts or contract renewals for student transportation shall be made on forms prescribed by the Commissioner, and shall be submitted for approval to the executive county superintendent within 30 days after the award of the contract or by September 1 of the school year in which transportation is to be provided.

(c) New contracts submitted to the executive county superintendent shall be accompanied by the bid specifications, all documents required by the specifications to be submitted by the bidder, a copy of the newspaper bid advertisement, and a certified extract of the minutes of the district board of education authorizing the contract.

(d) Contract renewals submitted to the executive county superintendent shall be accompanied by a certified extract of the minutes of the district board of education authorizing the contract and copies of the contractor’s certificate of insurance, affirmative action documentation, and performance surety bond.
(e) Negotiated contracts between a district board of education and a parent or guardian transporting only his or her own child or children shall be accompanied by a certified copy of the minutes of the district board of education authorizing the contract, a certificate of insurance, and a copy of the parent’s or legal guardian’s valid driver’s license and vehicle registration.

(f) A summary of all bids received shall be submitted to the executive county superintendent with the submission of new contracts. If a contract is not awarded to the lowest bidder, a statement by the school board attorney justifying the contract award must accompany the summary.

(g) All transportation contracts require the approval of the executive county superintendent regardless of whether State aid is involved.

(h) Notwithstanding the executive county superintendent’s approval, State aid shall be subject to modifications by the Commissioner for good cause shown.

6A:27-9.10 Awarding contracts

(a) Contracts shall be awarded to the lowest responsible bidder by formal action of the district board of education during a public meeting.

1. The board minutes authorizing the award of a contract shall include the contractor’s name, route numbers, and individual route costs of all bidders who submitted bids.

2. A contract that is not awarded to the lowest bidder shall be accompanied by a statement by the school board’s attorney justifying the contract award.

(b) The district board of education is not authorized to delegate its power to enter into a transportation contract.
Any award of a contract made by a district board of education after advertisement shall be according to the terms advertised to prospective bidders. Each bidder shall be compelled to conform to every substantial condition imposed upon other bidders.

After a contract has been awarded, a bidder cannot be relieved from conforming to the conditions imposed in the specifications and cannot substitute something that does not conform to the specifications.

A district board of education shall not reject the lowest bid upon the ground that the bidder is not responsible without giving him or her a hearing upon the facts. To determine that a bidder is not responsible, the district board of education after notice and a public hearing must find as a fact that the bidder is so lacking in experience, financial ability, equipment, and facilities to justify that he or she would be unable to carry out the contract, if awarded.

The lack of ability upon the part of a contractor to work in harmony or the district board of education’s inability to enforce the terms of a previous contract cannot be controlling factors in determining the bidder’s responsibility. Disputes involving controverted questions of fact with reference to the performance of a previous contract do not constitute grounds for declaring a bidder irresponsible, if such disputed matters can be taken care of under a contract properly safeguarding the public interest with a contractor who is financially responsible.

A district board of education may disqualify a bidder who would otherwise be determined to be the lowest responsible bidder for a student transportation contract, if the board finds that it has had prior negative experience with the bidder. The disqualification shall be for a reasonable, defined period of time not to exceed three years, and must be made by resolution approved by majority of the district board of education.

1. Prior negative experience may be any one of the following:
i. The bidder has been determined to be “nonperforming” under a student transportation contract after a hearing that shall include the bidder, the superintendent, and the executive county superintendent. The executive county superintendent shall make a determination as to nonperformance, which may be appealed to the Commissioner;

ii. The bidder defaulted on a transportation contract requiring the board of education to utilize the services of another contractor to complete the contract;

iii. The bidder defaulted on a transportation contract requiring the board of education to look to the bidder’s surety for completion of the contract or tender of the costs of completion; or

iv. The bidder has at least a 10 percent ownership in any contractor that had prior negative experience with the district board of education.

6A:27-9.11 High, collusive, or no bids

If no bids were received on two occasions or bids were rejected on two occasions by the district board of education because they were too high, contracts shall be awarded pursuant to N.J.S.A. 18A:18A-5.c and d.

6A:27-9.12 Quoted contracts

(a) Quotations for unanticipated transportation services may be sought after the opening of school. All anticipated transportation services shall be bid. The process of soliciting quotations shall not be used by the district board of education to intentionally split
transportation routes into smaller parts to avoid reaching the amount determined by the Governor as the formal competitive bidding requirement.

(b) Quoted contracts may be issued for unanticipated transportation services provided the following requirements are met:

1. At least three quotations shall be sought and documented;
2. Quotations shall be solicited on a per diem basis and may include a provision to adjust the quotation within the bid threshold;
3. Quoted contracts under the bid threshold may be in effect for the balance of the school year;
4. Quoted contracts over the bid threshold shall be issued for a period of time that will not cause the contract to exceed the bid threshold. The competitive bid process shall be completed within this timeframe, and awarded contracts implemented for the balance of the school year; and
5. Quoted contracts shall not be renewed but shall be included in the aggregate cost of transportation services for the ensuing school year.

(c) Quoted contracts submitted to the executive county superintendent shall be accompanied by a certified copy of the district board of education minutes authorizing the contract, copies of the contractor’s certificate of insurance, performance surety bond, if applicable, and evidence of three quotes.

6A:27-9.13 Renewing contracts

(a) Annual extensions of an existing contract, approved by the executive county superintendent, are permitted provided:

1. The contract was entered into through competitive bidding;
2. The terms of the contract remain the same;
3. There is no increase in the annual amount of the contract to the district board of education, or the increase in the contractual base amount as a result of such extension does not result in an effective increase that exceeds for the school year the annual rise in the Consumer Price Index (CPI) as defined in N.J.S.A. 18A:7F-45, regardless of whether the route description has changed or an aide has been added or removed. The increase may exceed the rise in the CPI when the increase, as provided for in the original bid, is directly attributable to the addition of an aide, a route change to accommodate a new student rider, or safety concerns. Any such extension shall require the approval of the executive county superintendent.

i. The contractual base amount is the sum of the actual cost to the district board of education for items included in the bid at the end of the term of the contract in the prior year; and

4. The school destination remains the same as the original contract.

i. Destination is defined as the physical location of the school(s).

(b) When it is necessary to change the bus type, an immediate rebid of a contract renewal is not required. Any such change shall be approved by the district board of education and shall be bid for the next school year.

6A:27-9.14 Addendum to a contract

(a) An addendum shall be required to adjust the cost of an existing contract or contract renewal.

1. An addendum to a contract or contract renewal for regular students and handicapped students transported to schools within the school district shall be calculated based on the increase/decrease mileage adjustment stated in the original bid.
2. An addendum to a contract or contract renewal for the transportation of handicapped students transported outside the school district shall be based on the per student, per mileage or per vehicle adjustment stated in the original bid.

3. If the cost of an aide is not part of the bid, an addendum to a contract or contract renewal for the purpose of adding an aide may be a negotiated cost provided it does not exceed the bid threshold.

(b) An addendum to a contract or contract renewal shall be submitted to the executive county superintendent on the contract addendum form prescribed by the Commissioner for approval within 30 days of the district board of education’s approval.

(c) Increased bonding is required when an addendum added to an existing contract increases its cost.

1. When an addendum added to the contract increases the cost, additional bonding coverage is not required if the remaining cost of the original contract plus the additional cost of the adjustment does not exceed the amount of the original bond.

(d) A certified copy of the minutes of the district board of education authorizing the adjustment and additional performance surety bond, if required, shall accompany the contract addendum form when it is submitted to the executive county superintendent.

6A:27-9.15 Transferring contracts and contract renewals

(a) Whenever a contractor has entered into or intends to enter into an agreement to sell or assign to a purchaser all of the contractor’s rights and liabilities with respect to all of the transportation contracts held by the contractor, such assignment requires the approval of the district board(s) of education and the executive county superintendent.

(b) When a contractor has entered into or intends to enter into an agreement to sell or assign to a purchaser all of the contractor’s rights and liabilities with respect to all of the
transportation contracts serviced by a specific terminal(s) that will no longer be operated by the contractor for student transportation services, such assignment requires the approval of the district board(s) of education and the executive county superintendent.

(c) The student transportation contract agreement form prescribed by the Commissioner shall be completed for each individual contract or multi-contract.

(d) The transfer of contracts shall impose no additional cost to the district board of education.

(e) All terms of the original contract shall remain in effect.

(f) The assignment between the district board of education and the purchaser shall not become effective until the purchaser provides all documents required of the original bidder.

(g) The student transportation contract transfer agreement form shall be accompanied by a copy of the certified board minutes approving the transfer of the contract and all documents required of the original bidder when it is submitted to the executive county superintendent for approval.

(h) The assignment of selected contracts to another person or company is not to be considered a transfer, but shall be considered subcontracting. In this case, all the provisions of the contract shall remain in effect and shall impose no additional cost to the district board of education.

1. No contract shall be subcontracted without the approval of the district board of education.

(i) Whenever a district board of education assigns to another district board of education any or all of the board’s rights and liabilities for transportation contracts held by the board, such assignment requires the approval of both district boards of education and the executive county superintendent.

6A:27-9.16 Joint transportation agreements
(a) Two or more district boards of education may provide jointly for the transportation of students to and from any school(s) within or outside the districts or counties.

(b) Whenever the executive county superintendent determines that transportation of students could be more economically accomplished by joint transportation, he or she may order such joint transportation, assign the administration to one district board of education as host, and prorate the cost to the joining district board(s) of education.

(c) The district board of education providing the transportation, either by district-owned or contracted vehicle, shall be referred to as the host.

(d) The host district board of education shall be responsible for initiating the joint agreement and for ensuring that transportation contracts meet the requirements for approval by the executive county superintendent.

(e) The joint transportation agreement form prescribed by the Commissioner shall be sent to the host school district’s executive county superintendent for approval within 60 days of the agreement.

1. A copy of a joint agreement signed by all parties and issued between district boards of education in different counties shall be sent within 90 days of the agreement to the joiner school district’s executive county superintendent.

(f) Certified copies of the board minutes for each district board of education involved in the joint agreement shall accompany the agreement submitted to the executive county superintendent.

**SUBCHAPTER 10. COORDINATED TRANSPORTATION SERVICES**

6A:27-10.1 General requirements
(a) For the purposes of this subchapter, a resident district board of education, educational services commission, jointure commission, county special services school district, or any other entity governed by a local district board of education providing coordinated transportation services and identified by the Commissioner for this purpose shall be known as a coordinated transportation services agency (CTSA).

(b) Representatives of the participating resident district boards of education and the CTSA shall meet at least annually to establish the provisions of the contractual agreement between the parties.

(c) Resident district boards of education shall utilize a CTSA to transport students going to a special education or vocational school located outside of the resident school district, and nonpublic school students whose parents received aid in lieu of transportation in the prior school year. District boards of education may also utilize the CTSA for any other transportation needs.

(d) Transportation for a special education or vocational school student newly assigned to a school located outside of the resident school district, or a newly registered nonpublic school student for whom no route currently exists, shall be given to a CTSA. If the CTSA is unable to coordinate transportation for the student with students from other school districts, the resident district board of education may choose to provide the transportation or pay aid in lieu of transportation in the case of nonpublic school students.

(e) The executive county superintendent shall assist district boards of education and the chief school administrators of the nonpublic schools in coordinating the calendars and schedules of the public and nonpublic schools to facilitate the coordination of services.

(f) Resident district boards of education shall adopt by resolution an agreement with the CTSA for transportation services. A copy of the board resolution to participate in the coordinated services, the contractual agreement and a copy of the board minutes from
both parties shall be sent to the executive county superintendent. The agreement shall include, but is not limited to, the following:

1. The time period to be covered by the agreement;
2. A description of the services to be provided;
3. A list of the responsibilities of each party to the agreement;
4. A formula for establishing the cost of service to each participating district board of education, including a provision for adjusting the final cost based upon actual expenditures;
5. Administrative fees to be charged, if applicable;
6. A payment time schedule;
7. Provisions for revision of the services;
8. The signatures of both parties to the agreement; and
9. A provision for the executive county superintendent’s acknowledgement of the agreement between the parties.

(g) District boards of education and the CTSA shall provide to the Department all data necessary for the evaluation of the coordinated transportation services.

6A:27-10.2 Responsibilities of resident district boards of education

(a) Resident district boards of education shall evaluate their methods of transporting students attending a special education or vocational school located outside of the school district and nonpublic school students whose parents or legal guardians receive aid in lieu of transportation to determine whether services could be more economically provided through a CTSA.

1. Bidding is not required for the purpose of comparing costs to make this determination.
(b) Resident district boards of education responsible for the transportation of students going to a special education or vocational school located outside the school district shall utilize a CTSA, except when:

1. The resident district can provide transportation at a lesser cost;
2. The resident district board of education can share transportation services through an agreement with another district board of education;
3. The transportation to be provided by the CTSA does not fall within the policies of the resident district board of education regarding length of ride and/or assignment of students to routes based on student age or classification; or
4. The CTSA is unable to coordinate transportation with other school districts.

(c) Once the resident district board of education has been notified of the estimated cost of transportation and has agreed to the service arranged by the CTSA, the services shall be provided until the student no longer requires transportation.

1. Any party to the transportation service may dissolve the arrangement for good cause shown. The party withdrawing from the agreement shall make available upon request documentation of the cause to all affected parties.

(d) Resident district boards of education that paid aid in lieu of transportation to the parents or legal guardians of nonpublic school students in the prior year, or who have determined that transportation cannot be provided for the ensuing school year, shall attempt to utilize a CTSA for the nonpublic school students before the determination is made to pay aid in lieu of transportation.

1. If any unique limitations or restrictions on providing this transportation exist, the resident district board of education shall provide this information to the CTSA.
2. By August 1 preceding the school year in which transportation is to be provided, the district board of education shall notify the parents or legal guardians of the
nonpublic school students and the nonpublic school administrators as to the manner in which transportation services are to be provided.

3. The executive county superintendent shall be notified when it has been determined that the inability to provide transportation services is due to calendar and/or schedule conflicts.

(e) The resident district board of education shall document the reasons why it chose not to use a CTSA and maintain documentation of the per student cost calculation.

(f) The resident district board of education may renew existing contracts in accordance with N.J.S.A. 18A:39-3 if the district board of education determines it is in its best interest to do so.

(g) Regional school districts shall continue to have the responsibility for providing nonpublic school transportation services for all constituent school district students in accordance with N.J.S.A. 18A:39-1. It shall be the regional school district’s responsibility to determine when transportation should be provided through a CTSA.

6A:27-10.3 Responsibilities of coordinated transportation services agencies

(a) A CTSA shall be required to organize, schedule, and provide transportation services in a manner that achieves maximum efficiency for participating school districts. Services and method of payment shall be described in an agreement between the CTSA and the resident district board of education.

(b) A CTSA may contract for transportation services, use vehicles owned or leased by the agency, and/or utilize vehicles owned by district boards of education for the provision of coordinated services.

(c) The calculation of per student costs for transportation services provided by a CTSA shall not include administrative expenses above the cost of providing the actual transportation
service. If the agency costs are equal to or less than the maximum per student expenditure permitted for nonpublic school transportation pursuant to N.J.S.A. 18A:39-1a, excluding administrative fees, the agency shall provide transportation for the nonpublic school students.

1. The maximum per student expenditure permitted for nonpublic school transportation pursuant to N.J.S.A. 18A:39-1a shall be determined by dividing the actual cost of the route to and from school by the number of students assigned to the route. The per student cost calculation does not include the administrative cost to administer the nonpublic school transportation program.

2. An administrative fee is the amount charged to a district board of education by a CTSA for costs incurred to administer the transportation program. The administrative fee shall not be included in determining the actual cost of the route to and from school. Administrative fees are excluded from the calculation of the maximum per student expenditure permitted for nonpublic school transportation pursuant to N.J.S.A. 18A:39-1a.

(d) A CTSA may charge an administrative fee to participating school districts to cover the ordinary cost of doing business. Determining routes and availability of service should be considered part of the ordinary cost of doing business and included in the administrative fees charged to district boards of education. The agency shall not charge a per student application fee.

(e) A CTSA may notify parents of the provision of nonpublic school transportation in accordance with N.J.A.C. 6A:27-2.3(c). Notification to the parents by the CTSA shall be made part of the resolution and contractual agreement between the parties.

(f) If a CTSA cannot provide the requested transportation, the agency shall:

1. Document why it is unable to provide transportation; and
2. Maintain a listing of destinations for which it is unable to coordinate services to share this information with other school districts for possible coordination in the future.

(g) Prior to bidding for transportation services, the CTSA shall notify participating school districts whether transportation will be coordinated with other school districts on their routes.

(h) Resident district boards of education shall be billed for services in accordance with the contractual agreement with the agency. The billing shall include the participating school district’s individual route costs based on adjusted monthly expenditures. The final cost billed to resident district boards of education shall be based on actual expenditures.

1. The CTSA shall provide to district boards of education on a Commissioner-prescribed form the information necessary for State reimbursement of the portion of any administrative fee that causes the per student cost to exceed the maximum expenditure permitted for nonpublic school transportation pursuant to N.J.S.A. 18A:39-1a.

6A:27-10.4 Conditions when coordinated transportation services agencies must bid

(a) The CTSA is subject to all laws governing student transportation contracts, including bonding requirements. In addition to the standard forms required with a bid, a CTSA must also include:

1. An agency membership form listing each member school district and the name of the school district’s superintendent; and

2. A non-collusion statement indicating that personnel within the agency that is bidding did not draft specifications or route descriptions.

(b) Bidding by CTSAs to utilize agency owned/leased vehicles is not required when:
1. An educational services commission or jointure commission transports students who reside in school districts that were members of the commission as of January 1, 2004, and the commission provided transportation with vehicles they owned/leased as of that date;

2. An educational services commission or jointure commission provided transportation to students who reside in school districts located in first class counties that were not members of the commission, and as of January 1, 1999, were transported by vehicles owned/leased by the commission;

3. A county special services school district transports students who reside in the county and are enrolled in the school district or in nonpublic schools, if as of January 1, 2004, the special services school district owned/leased buses and was providing transportation; or

4. A county special services school district transports special education students within the county or contiguous counties, if as of January 1, 2004, the special services school district is located in a fifth class county and has been providing special education transportation with buses it owns/leases.

**SUBCHAPTER 11. SAFETY**

**6A:27-11.1 Emergency procedures**

(a) District boards of education shall establish policies and procedures to be followed by the school bus driver in the event of an emergency.

(b) District boards of education and school bus contractors shall establish policies and practices to ensure that school bus drivers employed by them comply with all applicable rules of this chapter.
6A:27-11.2 Evacuation drills and safety education

(a) School administrators shall organize and conduct emergency exit drills at least twice within the school year for all students who are transported to and from school.
   1. All other students shall receive school bus evacuation instruction at least once within the school year.

(b) The school bus driver and bus aide shall participate in the emergency exit drills.

(c) Drills shall be conducted on school property and shall be supervised by the principal or person assigned to act in a supervisory capacity.

(d) Drills shall be documented in the minutes of the district board of education at the first board meeting following the completion of the emergency exit drill. The minutes shall include, but are not limited to, the following:
   1. The date of the drill;
   2. The time the drill was conducted;
   3. The school name;
   4. The location of the drill;
